MAYOR HYNES ASKS FOR SUPPLEMENTARY APPROPRIATION OF \$1,700,000, PRIMARILY TO CARE FOR ADDED COST OF OLD AGE ASSISTANCE—BALANCE FOR OTHER CITY SERVICES.

To the City Council.

GENTLEMEN:

There is forwarded herewith a supplementary appropriation order in the sum of \$1,700,000. The major portion of this appropriation, or \$1,490,000, is necessary to provide for the increase in the expenditures for Old Age Assistance and Aid to Dependent Children, the case loads having increased during the first four months of this year more than was anticipated; for the rising costs of relief to veterans; for expenses in connection with providing additional beds at both the City Hospital and the Sanatorium Division for the segregation of tubercu-

STATE WAR MEMORIAL SERVICES IN FENS STADIUM ON MAY 28 SHARED IN BY CITY.

The State Department of AMVETS, in conjunction with the Public Celebrations Department of the City of Boston, will conduct their first memorial services at the new War Memorial at the Fens Stadium, Sunday, May 28, 1950, at 11 A.M., in the morning. These exercises were formerly held at the Boston Common, on the site of the plaque containing the names of Boston's war dead of World War II.

A parade will precede the ceremonies at the War Memorial, starting at 10 A.M. from Copley square. In the line of march will be United States Army, United States Navy, Coast Guard, and Marine Corps personnel.

The exercises at the War Memorial, at Fens Stadium, will consist of the following: Band selection by the Holy Name Band of West Roxbury; invocation by Rev. Arthur Heamer, State Chaplain of AMVETS; solo—"My Buddy," Miss Joan Granara, well-known teen-age radio and TV star; address by Governor Paul A. Dever; prayer by Rabbi Samuel Korff, Congregation Kehillath Jacob; address by Mayor John B. Hynes; commemoration, Marine Honor Guard; placing of wreath by Mayor John B. Hynes for the City of Boston—Mrs. F. C. Hagemester for the Gold Star Mothers—State Commander Paul A. Trainor for the State Department of AMVETS; taps; remarks by John D. Brown, Director of Public Celebrations, City of Boston; address, Paul P. Trainor, State Commander of AMVETS; benediction, Rev. William A. Geldart; national anthem, Holy Name Band, West Roxbury, sung by Miss Joan Granara.

REPORT OF FRANCIS J. DALY, HEAD, DIVISION OF JUVENILE ADJUSTMENT, ON ATTENDANCE AT THE ANNUAL CONVENTION OF THE INTERNATIONAL COUNCIL FOR EXCEPTIONAL CHILDREN, HELD IN CHICAGO—PROBLEMS OF SOCIALLY MALADJUSTED CHILD DISCUSSED.

The following is the report of the attendance of Francis J. Daly at the Annual Convention of the International Council for Exceptional Children, Chicago, March 19 to 22:

Dr. Robert J. Havighurst discussed the various types of social maladjustment, referring to Jenkins' concepts of three types: (1) the type who is in difficulty or conflict or maladjustment with almost all others in society around him; (2) the type who is in good adjustment to his own social group, for example, a gang, but in whose case that social group itself has delinquent, antisocial, or socially unacceptable patterns of conduct; (3) the type of child who has no overt conflict with any other individual, but who has serious conflicts and maladjustments within himself.

"All of these three types are to be found in fairly sizable numbers in our schools," states Dr. Havighurst. Studies indicate that those who are so severely maladjusted that an uncorrected continuance of their misconduct cannot possibly be accepted in the normal social group (or school) number approximately 1 per cent to 2 per cent of the school population. Other studies show that about 2 per cent to 3 per cent have social difficulties of the withdrawing type.

Over-all estimates for children showing lesser degrees of maladjustment run from 3 per cent to 10 per cent of the school population, depending on your definition of maladjustment. It is important to note at this point, however, that the figures carefully gathered by life insurance companies and others, showing that 10 per cent of the total population spent some time during their lives in mental hospitals, have been maintained consistently under restudy.

A good school program for the control of social maladjustment, states Dr. Havighurst, should have four aspects. Step 1 involves discovery as early as possible. "How early is possible?" he asked; then stated in answer to his own question that almost all research findings agree that on cases coming to court for a very serious type of delinquency later on, in almost every instance, there will be clear signs of need for help at the ages of six, seven, or eight.

Dr. Havighurst quoted a number of other studies, including the Cambridge-Somerville Youth Study and the Ohio Mental Health Study, to show that for delinquents or less seriously maladjusted children some evidence of need for help will be shown between ages of nine and ten. He further stated that his own study of large numbers of children shows the same thing. Step 2 calls for the assignment of a visiting counselor (or adjustment worker or child guidance worker) to each vulnerable child. Step 3 involves the developing of some degree of individual plan of program for each child. Changes or adaptations of ways of working with them may be very minor or may involve broad interrelated steps of many types, but for these vulnerable children nonindividualized attempts to adjust them to broad, mass, inflexible programs just do not work.

Step 4 calls for improvement of curriculum and methods. If this is not done a new crop of maladjusted ones will arise each year. A basic point is that all children must find something rewarding to them in their school lives. From our studies of groups of maladjusted children we can point out with some degree of sureness the ways in which children are being denied this basic need for some daily (or even weekly) quota of

MAYOR HYNES ASKS COUNCIL FOR SUPPLEMENTARY APPROPRIATION OF \$1,700,000.

losis patients now hospitalized at the City Hospital and to make available additional facilities for persons found to be suffering from tuberculosis in various stages as a result of the chest X-ray program recently completed; and for the care of premature infants, the cost of which has been greater than anticipated and the responsibility for which is the city's under recently enacted legislation.

The balance of the appropriation is needed by several departments of the city for services, supplies, and equipment, supplementing appropriations contained in the annual budget and necessary in view of the experience of the first four months of the current year. All of the elements in this supplementary appropriation order are explained in detail in the attached report of the Budget Commissioner.

Consideration and adoption of the accompanying appropriation order is recommended by your Honorable Body.

Respectfully,

JOHN B. HYNES, Mayor.

MAYOR HYNES PAYS TRIBUTE TO LAFAYETTE — WREATH PLACED ON MONUMENT.

The following is the address of Hon. John D. Brown, Director of Public Celebrations, at the Lafayette Monument, on Boston Common, on May 20:

Today, at the request of his Honor, Mayor John B. Hynes, and in cooperation with the French Consulate in New England, as well as with people of France everywhere, we pause to pay tribute to the memory of a great man, a great soldier, a lover of liberty, a true friend of America in her hour of need. "Greater love hath no man than that he lay down his life for his friend"—and this, Lafayette came here prepared to do, if necessary, to further the cause of this great country of ours.

In his heart as in the hearts of early Americans the torch of liberty kindled and the fire of freedom was later fanned into a flame of proportions that brought about this country's being the greatest on the face of God's earth. Small wonder is it that his memory we revere, respect, and honor. A man of wealth, educated, a graduate of the college of Louis le Grand, in Paris, his might have been a life of comfort. Yet, at the age of 19, he chose to come to this country and give aid to our colonists, aid in money, leadership, and inspiration, and the sufferings he experienced in warfare were those of a common soldier, braving the winter of Valley Forge and being wounded at Brandywine. Along with other valiant warriors of yesteryear his name will be halloed in the halls of human rights as long as thinking men endure.

The Mayor's wreath, gift of the City of Boston, was placed at the foot of the monument, and Mr. Albert Chambon, Consul of France, in New England, assisted by Count Max de Montalembert, Vice-Consul, decorated the monument in the name of the French Government.

REPORT OF FRANCIS J. DALY, HEAD, JUVENILE ADJUSTMENT, ON ATTENDANCE AT CONVENTION IN CHICAGO.

(Continued from page 473.)

success. He feels (as I do) that to help with a long-term program of curriculum and methods improvement by indicating situations or areas adversely affecting certain groups of children in our schools is one of the most important contributions of any department dealing with the maladjusted child.

Dr. Havighurst gave an interesting discussion of some types of children which his group has studied. He spoke of the "invisible" child. By that is meant that these children were invisible in a sociometric sense. For example, a common technique in sociometric interviews is to ask each child in a classroom or school group which five children he would "most like to be with," "like to be with sometimes," or "never like to be with."

These "invisible children" are the ones who are just never named as individuals whom their classmates would like to be with. They are in the classroom but not of the classroom group. It is as though they were invisible to the others. He spoke of Cinderella children, "slaves," and told of a girl who had spent her life up to that point "taking care of kids," and who appeared to be looking forward to a life of "taking care of kids" (which, incidentally, was the one thing she hated most to do).

He spoke of the type of boy who becomes ineligible for athletics because of basic inability to get high marks in studies no matter how hard he tries, and thus is deprived of one source of real satisfaction that he might have. He told of a boy who was involved in a tremendous amount of vandalism later on in Chicago who had been an extremely promising athlete in junior high school and had evidenced in many ways a deep, subsurface longing for education, yet had all of this turn sour when he found that he could not participate in high school athletics because of his complete inability to get passing marks in one or two of the subjects.

DR. CLIFFORD SHAW.

Dr. Shaw, one of the country's most eminent sociologists and criminologists, spoke on the problem of the environmental implications of the socially maladjusted child. Dr. Shaw said: "I have been studying this problem for thirty years, and have had for most of that time the assistance of a wonderfully hard-working and devoted staff. And I want to say at the beginning that throughout those thirty years I have always been perplexed by the delinquent child and the matter of delinquency. I confess that I still don't know how to treat delinquency and I certainly cannot define it.

"When we talk about delinquents or maladjusted, all we talk about are the ones who get caught or are discovered. We must remember all the time that practically none of these came to us looking for help, and most of them are not particularly interested in getting help to make them nondelinquents. If you could give them help so that they could continue to be delinquents and not get caught or punished, they would be a little more interested.

"I am increasingly skeptical about 'plans for treatment.' I know that various approaches will help a certain percentage of certain groups, but when we are confronted with an individual delinquent or an individual socially maladjusted child, all we can do is 'play by ear' and improvise and adapt our efforts as we go along. Each child is a separate, a distinct, and a serious problem in, and of, and for himself.

"We have to try to reach through to effectiveness, not just by what we do but by bringing about some creative effort on the part of the individual himself. We must remember that much that we do in attempting to correct—that is, 'change'—him, to a degree alienates him from his

necessary immediate environment. Professional workers have been inclined at times to disparage the meaningfulness of this immediate day-by-day environment of the child in his gang, his neighborhood. The professional mind has made very important contributions to the art of helping people out of trouble, but the professional mind is at times in conflict with the indispensable contributions of simple human beings, common people who make up the human environment of the delinquent and who do not have to read books to understand or to work effectively with that particular child in that particular neighborhood."

Dr. Shaw spoke of one program he has where the neighborhood and the neighborhood people work with men who come out of prison. Instead of referring him to prison aid associations, etc., representatives from the neighborhood see the man before he comes out of the prison, help him to get a job, stay with him on a day-to-day basis, do anything possible for him, requiring only that he do the same later on for others who may be in similar situations of difficulty.

Of thirty-seven men coming out of prison following incarceration for serious crimes, and treated in this fashion (non-professionally by the neighborhood), only two have been in trouble again after a period of ten years. The expected recidivism of ex-prison inmates is many, many times that figure. Of a similar group of thirty-five men who were given professional help but not this neighborhood assistance, ten were returned to prison in a similar period.

The most important implication of Dr. Shaw's talk is that, while we should continue to use and to develop every possible avenue of professional or specialized help to a maladjusted or delinquent child, we should not let these procedures blind us to the great meaningfulness, for or against our treatment, resident in the

child's immediate environment of his gang, his neighborhood, his home, his classroom.

DR. ALLISON DAVIS.

Dr. Allison Davis's findings on a careful research study that he has made have had almost revolutionary impact on the thinking of many educators and individual psychologists, and have been the subject of a very interesting discussion in educational groups for the past year.

Briefly, what his study clearly seems to show is that the ten intelligence tests most commonly used in public schools throughout the country show a consistent and significant bias against children from the lower socioeconomic groups. When Dr. Davis speaks of lower socioeconomic groups, he does not mean the submerged 10 per cent at the bottom. He is talking in general of about 50 per cent to 60 per cent of the population of any large city school system. Because of this significant and consistent unfairness in test results, says Dr. Davis, the country is being deprived of much of the potentialities of almost half its population, educationally speaking.

Analysis of the intelligence tests most commonly used showed clearly evidence of the following:

1. An overwhelming proportion of problems unfair to the lower socioeconomic group.
2. A distortion toward the benefit of those who had contact with vocabulary such as would be used in homes of a higher cultural type, an essential verbalism throughout the tests.
3. Of 460 problems on 10 tests, there was not a single problem found to have favored the lower groups, while 439 favored the superior groups, and there were only 21 where there was equality in this matter.
4. This situation would naturally lead to the judgment that the lower groups, socioeconomically speaking, were also inferior groups.

However, when new tests were devised in which reasoning, creative organization, ability to deal with analogies, differences, etc., without any intrusion of a verbal or cultural bias were utilized, there were very striking differences as against the older tests. In general, there was on the average a 10-point difference as against the old score for the lower socioeconomic group, and no favoring difference but perhaps slightly lower scores for the higher group. This is not just a question of knowledge of words. They also had to be careful to distinguish between problems of the sort directly taught in school and ones which required the individual's own working out of the thinking processes. For example, he mentioned one problem in which the children were asked the following: "If there are ten children, boys and girls, playing a game together, and there are four more boys than girls, how many girls are there?" Ninety-nine per cent of the high school children from the higher sociocultural level failed that test, while most children from the lower group passed.

The best scientific test and methods of research have made it clear that the differences in schooling and in social environment between the middle and lower socioeconomic groups account for the differences between the average I.Q.'s on the present test. Because these present tests are limited to school-type problems, they fail to test many important kinds of mental ability. They

assume a static American society and a static school curriculum. These have been geared to (validated with respect to) a school curriculum whose basic activities were set up many generations ago; a curriculum which is recognized by educators to be overacademic, trite, and virtually static.

MONTEFIORE SCHOOL.

Some time was spent visiting the Montefiore School. This school, founded in 1929, has long been one of the most highly publicized units for day-school segregation of the socially maladjusted. Its principal, Edward H. Stulken, has for years been one of the most ardent proponents of the essential approach idea to treating school behavior problems by placing them in a segregated unit.

I had written him on various occasions previously, seeking information about the functioning of his school and its effectiveness in dealing with behavior problems. I have never been able to obtain from him any figure on follow-up as to the results of children going to this school. While in Chicago I again talked about this and related matters. He said in a general way that about 80 per cent of the children show improved conduct and attendance while at the school. He added, however, that after a period of years, about 50 per cent of them show up in court or in institutions.

I also had a talk on this matter with Dr. Clifford Shaw, the renowned Chicago criminologist and sociologist. Dr. Shaw said that follow-up studies that they have made on cases going back 20 years show that 73 per cent of all the boys who went to Montefiore School have subsequent criminal careers.

One of the worst features of Montefiore School's functioning seemed to be the way in which children are entered therein. They are transferred to the school on the basis of a "Case History Report by Truant Officer" or "School Problem Report." The "Case History Report by Truant Officer" is a very poor blank and does not call for the type of information necessary in dealing with cases of this sort. This blank is approved by the assistant superintendent in charge without any provision whatsoever for a home visit by anyone other than the attendance officer prior to the commitment of the child to the school. Indeed, one of the outstanding weaknesses of the Chicago school system would seem to be the lack of any provision for home visits for any of the 375,000 children in those schools, except for the visits by the truant officers or nurses. They do have so-called adjustment teachers in the Chicago schools, but these people are really remedial education personnel rather than home visiting personnel. As far as Montefiore is concerned, the "official home call" is made after the boy arrives. Upon my questioning, I was informed that sometimes they do take boys into the school even without the very routinized approval of Miss Courtney, assistant superintendent in charge.

One of the sessions of the conference was devoted to the subject of "The Parent Is Also a Teacher." This subject was discussed by representatives of congresses of parents and teachers, by psychiatrists, by directors of school divisions of special education, etc. In general, they stressed the fact that family life implications were of special importance to the handicapped child; that it is only natural for parents to have rather definite feelings toward and about the handi-

capped child; and that what they (the parents) feel is just as important as what they do. It is only natural for them to have feelings of pain, disappointment, or resentment. It is important for the school to help parents accept the handicapped emotionally as well as intellectually. The resentment, the rejection, or the other strong feelings caused by the child's inferiority, handicap, deviation, or troublesome conduct are often very intense. Because they are so intense they may cause the child to have much more serious problems. Thus a child who is socially maladjusted and difficult, and for that reason becomes rejected by his parents, is likely to become all the more difficult thereby. It is important to help the parents to realize what the handicap means to the child as well as what it means to them.

Another factor of great importance in dealing with children having any special needs or handicaps is that of keeping his world fairly predictable to him. The discipline of that world, whether in school or at home, should be understandable and consistent to him, not a capricious, suddenly changing thing.

Too much freedom of choice, for example, can lead to too much confusion. The speaker told of a case of a therapist who simply smiled sweetly at a child who kicked her. The child looked puzzled and kicked the therapist again just to see what would happen. Again the therapist smiled, although it was a little more difficult to do so. After the child had again kicked her for the third time, and still met with the bewildering response of a smile, the little boy ran shouting to his mother in the next room, "Mama, take me away from this lady who is encouraging me to be bad."

Children having special needs should also be protected from overstimulation. In our anxiety to help them we sometimes pile on conferences and activities and all sorts of efforts on our part which are intended to help the child overcome his disadvantages. The trouble is that when you go past a certain point of the child's tolerance for this stimulation, you start to run into decidedly negative results.

Another point emphasized is that in dealing with parents we should always remember that there is often a sort of vicious circle, in that one who has had an unhappy childhood of his own is by all means the one most likely to make an unhappy childhood for his or her children in turn. Parents have their limitations also, even as has the child, even as is true of us.

In another session, some of the basically changing viewpoints in special education were considered. One is the shifting of the emphasis on the defect, as such, to the meaning for the child of the defect or deviation which he has. There is an important difference, that is not simply a difference in words, between saying "This child is a cardiac case" and the much preferred, "This child has a damaged heart."

Dr. Arthur S. Hill, president of the council, in outlining the development of work with exceptional children over the past half-century, said that anyone speaking of education in historical or retrospective sense covering this period would naturally talk of the tremendous increase in school enrollment. For us in the field of special education it is note-

worthy to point out beyond this that this increase in enrollment has been accompanied by an even greater percentage of increase in school pupil-clients for special educative services, and even beyond that the increase in the recognition of the problems of the socially maladjusted.

Through the schools for the next ten years or so will pass the children whose formative early years were characterized by the extreme emotional environment pressures of wartime. Therefore, we can reasonably expect from this group a decided increase in behavior problems. We can also expect a few more developments of increasing concern for the preschool education of the deaf and the mentally retarded, an increasing realization of the educability of the cerebral palsied, of those with compulsive disorders, and epileptoid conditions of children.

Dr. Romaine P. Mackie, specialist, Schools for the Physically Handicapped, United States Office of Education, said that, looking back from this mid-century point of view to the earliest days of concern for the exceptional child, it is interesting to note that in the beginning the concern was almost entirely on residential, institutionalized, or segregated facilities for the deaf and blind, and for a few other groups for whom such treatment was considered necessary. We have gone from a period in which the "put away" and segregate emphasis was paramount to one in which we are concerned with all the shadings of help that can be given to the child showing any special need, by giving him as much as possible in terms of the most natural and complete adjustment to his own immediate social, educational, and total environmental groups.

There was a very valuable session meeting on diagnostic techniques at which the chief speaker was Dr. Charles R. Strother, Seattle, Wash. Dr. Strother emphasized particularly the need for very careful differential diagnosis of any child for whom special education or special service in education were being considered. He pointed out that the cost beyond, in human and dollar values, of maldagnosis or sketchy or incomplete diagnosis is tremendous. When a decision is being made for a child, on the basis of which decision the type of education that he may receive for thousands of hours subsequently is to be determined, it certainly is a very foolish, uneconomical, and unprofessional way to approach such a problem to base such a judgment on some testing or other procedure that takes only an hour or two to complete, but which may be totally inadequate for true determination of the needs of the case.

The question was raised with him as to how much we can use achievement tests normed on normal groups for special groups. He pointed out that not only the level of achievement but the rates of achievement may differ so widely that such a procedure should not be accepted without some understanding of the special circumstances. In planning special service or special educative procedures we should begin with a fairly clear understanding on our part of the factors in which we want change. What we need is a definition of these factors, followed by objective measures of how close we are approaching them. It is futile, for example, to have special classes

for the mentally retarded when you have no clear idea, to begin with, of the definite objectives you have for those children, and beyond this have no established procedures or practices for measuring and progressing toward those definite objectives.

Dr. Strother said that there was no question at all but that emotional adjustments can make for amazing variations in I.Q. scores. He would consider any I.Q. score highly suspect when the child has any serious degree of emotional or social maladjustment, and in practically every case would give the child the balance of the doubt.

More psychometric testing, he indicated, was entirely deficient as a measure of ascertaining suitability for special class placement. When it came to the question of commitment of children to schools for the feeble-minded, he said again that the question of social competency is almost as important as a mere I.Q. score.

When a child is being given a case study, it is important not to go into such study with a generalized attitude of "What do you suppose we will find out?" but to formulate as specifically as possible "What are the types of information we need to help this child?" The question should be not "What is this child's I.Q.?" but "How well might he adapt to such and such a type of class, or level of education or special service?" The conclusions concerning any such child should never be given in general terms replete with adjectives, but as practically as possible, in terms of specific items related to particular possibilities for that particular child.

There was a section devoted to the work of the visiting counselor (which is the title used through the Midwest for workers who perform functions generally analogous to those of the teachers of juvenile adjustment).

Various advantages were indicated for the visiting counselor or juvenile adjustment type of worker. One such advantage was mentioned as being that the child was getting help from a person who was part of his school world, yet not part of the immediate and sometimes troubling classroom situation. It was stressed that it was important for each special service worker to find his proper place in the school administrative structure and not to lose sight of the fact that he is only one of a number of different types of cooperating special personnel.

The advantages of this work as having real value for the school system in terms of public relations were stressed. Each time helpful work is done with a home or with outside agencies, credit of a very meaningful sort redounds to the advantage of the school system as a whole.

It was emphasized throughout the session that one of the most important tools of any such worker is a fundamental and lasting belief in the child's desire to be good, and to accept it no matter how contradictory to this belief the child's behavior may appear at times.

Dr. Thelma Thurstone, Director of Division of Child Study, Chicago Public Schools, pointed out the great amount of effort that is spent at the eighth-grade level, "getting them ready for high school." "How much better it would be," said she, "if we turned our attention to the children in the first grade

where they are already showing in many instances clear-cut indications of laboring under educational deficit." In terms of this deficit, there is already a distinct contrast between kindergarten-trained and "off-the-street" children in the matter of educational deficit, between the children from good "normal" homes and those who have suffered from social handicap and neglect through those early, most formative years.

There were three English visitors at the conference who spoke on comparisons and contrasts between educational practices in England and here.

Of the many interesting exhibits at the council meetings one of the most striking concerned the effectiveness of paint and color in the classroom in greatly increasing the amount of usable light for the children. They had two miniature classrooms mounted side by side. Dimensions of each were the same as the other. There was exactly the same number of seats, the same arrangement of windows, wall space, etc. Each was lighted by a single fluorescent tube of exactly the same wattage and brightness. A photocell to measure the light in each room was connected with an indicator which clearly showed the amount of light.

Despite all the similarities mentioned above, one room showed 20 candle power throughout, the other 40 candle power.

The answer to this seeming paradox was that in one room the floor was a dark and rather worn surface, the desks were dark brown, the chalk board was an old worn blackboard type, the ceiling was dingy in appearance, and the walls were a rather dirty green. This is the room that showed only 20 candle power illumination.

The other room, exactly the same size and exactly the same otherwise, was strikingly different in surface reflective values of all the objects in the room. The floor was a clean, bright, natural wood color, the desks were of the newer, blond, smoothly finished surface type, the chalk board was a green one for use with yellow chalk, the ceiling was bright and clean, and the walls, though green, were light and restful.

STREETS SET APART IN MARKET DISTRICT FOR SALE OF PERISHABLE PRODUCE.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That permission be granted to farmers and truck gardeners to occupy the following streets, from May 15, 1950, until such time in the year 1950 as the Director of Markets feels necessary, from 6.30 P.M. to 8 A.M., for the sale of perishable produce from vehicles.

Merchants Row, from the corner of North Market street to Clinton street, on the southerly side of said Merchants Row.

North street, from the corner of Clinton street and Merchants Row to Blackstone street, on the southerly side of said North street.

The said Director of Markets shall direct and control the placing of vehicles of said farmers and truck gardeners.

Services" as Group "C" and subdivided into subgroups "C1," "C2," and "C3."

The estimated cost of the construction and alteration work in the thirteen buildings of Group "C" is two hundred and fourteen thousand two hundred dollars (\$214,200), and the architect's fee is to be paid on the basis of 10 per cent of the cost of the completed construction and alteration work.

Based on the information above recorded, I respectfully request your Honor's approval to negotiate a "Contract for Architect's Services" with Isidor Richmond & Carney Goldberg, architect.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

BOSTON, May 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES:

I respectfully request your Honor's approval of my selection of John M. Gray, doing business as John M. Gray Company, 175 High street, Boston, Mass., as architect for the work of altering eight school buildings identified in a "Contract for Architect's Services" as Group "B" and subdivided into subgroups "B1," "B2," and "B3."

The estimated cost of the construction and alteration work in the eight buildings of Group "B" is two hundred and eighty-five thousand dollars (\$285,000), and the architect's fee is to be paid on the basis of 10 per cent of the cost of the completed construction and alteration work.

Based on the information above recorded, I respectfully request your Honor's approval to negotiate a "Contract for Architect's Services" with John M. Gray, doing business as John M. Gray Company, architect.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

*General Order No. 26.***ANNUAL COMMUNION SUNDAY.**

The Seventh Annual Communion Sunday for Catholic members of the Boston Fire and Protective Departments will be held in the Cathedral of the Holy Cross at 9 A.M., May 28, 1950.

The Celebrant of the Mass will be Department Chaplain, Reverend Henry J. O'Connell; the sermon will be given by Reverend Lawrence J. Riley, S. T. D., St. John's Seminary.

The guest speaker for the breakfast will be Henry Gillen, Chief Editorial Writer, Boston Post. The toastmaster will be Fire Commissioner Michael T. Kelleher. His Excellency, Governor Paul A. Dever, and his Honor, Mayor John B. Hynes, will be present.

Members of the department who are to participate will report to Captain-Drillmaster Augustus J. Beaupre at the quarters of Engine Company 3, 618 Harrison avenue, Boston, at 8.30 A.M., May 28. They will form at this location and march to the Cathedral in time for 9 o'clock Mass. The Band and Color Guard will participate. Band members and Color Guard members shall report to Band Manager Frank Marr at En-

gine Company 3 quarters at 8.30 A.M. Members working will be excused from duty until 2 P.M. Members on the previous night tour of duty will be excused at 7 A.M. Color Guard members—Lieut. J. H. McNeil, Ladder 22, Ladderman F. X. McCormick, Ladder 1, Ladderman R. F. Ochs, Ladder 1, H. F. Kearns, Fire Alarm Division.

Upon completion of the Mass, members will form again outside the Cathedral and march from there to the Copley-Plaza Hotel where the Annual Communion Breakfast will be held.

Regulation uniform with sack coat and white gloves will be worn on this occasion. Members without uniforms may wear the department cap with civilian suit and no gloves.

Any member planning to attend the Mass will be excused from duty when relieved by his partner.

Members of the Communion Sunday Committee will meet at the quarters of Engine Company 3 at 8.30 A.M., May 28.

Members who desire to participate in the Annual Communion Sunday exercises are privileged to exchange time.

Members may have their sons accompany them at the Mass, in the march, and at the breakfast.

This ceremony has become an established annual rite for the Catholic members of the department. For new members of the department, inducted during the past year, it will be a unique opportunity to meet their spiritual leaders and to make new contacts and friendships in the department during the breakfast.

The committee earnestly requests that all members off duty make every effort to attend the Mass and the breakfast. It is particularly requested that members possessing uniforms should wear same, although the lack of a uniform should not act as a deterrent for participation in the exercises. An especially fine program has been arranged for those attending.

A delegation of 150 New York City firemen, headed by their Chief of Department, Peter Loftus, will be present at the Mass and breakfast. The New York firemen will arrive in Boston on Saturday, May 27. Members of this department are requested to extend every courtesy to our guests during their stay in this city. Deputy Chief James J. Kane, Liaison Officer to Chaplain O'Connell, will be host of the department to visiting guests and delegations.

Communion Breakfast Committee.

District Chief James F. McFadden.

Lieut. John C. Kabachus, Fire Prevention Division.

Lieut. Gerard E. McGowan, Engine Company 22.

Lieut. Edward W. Sharkey, Engine Company 30.

Lieut. Daniel J. McLeod, Boston Protective Department.

Ladderman Martin E. Pierce, Ladder Company 17.

Assistant Operator Charles F. Connors, Fire Alarm Division.

Frederick G. Duffy, Maintenance Division.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

LAND-TAKING IN HYDE PARK.

The Mayor has approved the order of the Board of Street Commissioners for the taking of land for a public improvement consisting of the laying out and construction of Newacre road, Hyde Park district, as a highway, from Washington street to Garfield avenue, bounded and described as follows:

A highway named Newacre road is hereby laid out, from Washington street to Garfield avenue, and ordered constructed.

For the making of the aforesaid improvement an easement for street purposes is hereby taken in the following described lands, exclusive of trees or structures standing upon or affixed thereto:

A parcel of land, supposed to belong to the City of Boston, Boston Housing Authority (Agent), bounded:

Northwesterly by Washington street, six and 60-100 feet; northeasterly by Newacre road, six and 80-100 feet; and southerly by other land supposed to belong to said Authority, ten and 25-100 feet on a curve of six and 55-100 feet radius; containing ten square feet, more or less.

A parcel of land, supposed to belong to Elena P. Colella, bounded:

Northwesterly by Washington street, six and 60-100 feet; easterly by other land supposed to belong to said Colella, ten and 49-100 feet on a curve of six and 65-100 feet radius; and southwest-erly by Newacre road, six and 60-100 feet, containing nine square feet, more or less.

The land, owners unknown, being the private way known as Newacre road, between Washington street and Garfield avenue.

Trees or structures standing upon or affixed to the aforescribed lands shall be removed therefrom within sixty days following a notice of the city's intention to enter upon said land for the purpose of constructing said improvement.

Said Newacre road as hereby laid out is bounded:

Northwesterly by Washington street, fifty-three and 20-100 feet; easterly by the easterly line of said road as hereby laid out, ten and 49-100 feet on a curve of six and 65-100 feet radius; north-easterly by the northeasterly line of said road as hereby laid out, four hundred twenty-five and 75-100 feet; south-easterly by the southeasterly line of said road as hereby laid out, two hundred thirty-seven and 70-100 feet; southwest-erly by the southwesterly line of said road (Garfield avenue), forty-eight and 3-100 feet; northerly by the northerly line of said road as hereby laid out, twelve and 60-100 feet on a curve of eight feet radius; northwesterly by the northwesterly line of said road as hereby laid out, one hundred eighty-one and 56-100 feet; westerly by the westerly line of said road as hereby laid out, twelve and 56-100 feet on a curve of eight feet radius; southwesterly by the southwesterly line of said road as hereby laid out, three hundred seventy-eight and 8-100 feet; and southerly by the southerly line of said road as hereby laid out, ten and 25-100 feet on a curve of six and 55-100 feet radius.

Betterments are to be assessed for the making of the aforesaid improvement.

Ordered, That this Board estimates that the abutting lots of land on all sides of said Newacre road, between Washington street and Garfield avenue, will receive benefit or advantage beyond the general advantage to all real estate in said city, from the improvement here-in ordered; each of said lots in the amount hereinafter respectively set against it; said lots and the supposed owners thereof being shown on the plan hereinbefore referred to and on file in the office of this department.

PROCEEDINGS OF CITY COUNCIL.

Monday, May 15, 1950.

Regular meeting of the City Council, held in the Council Chamber, City Hall, at 2 p.m., President HURLEY in the chair, and all the members present.

The meeting was opened with the salute to the Flag.

VETO OF ORDINANCES RE DRIVE IN THEATERS.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I am returning herewith, disapproved, the proposed ordinance relative to the licensing of shows and the like in drive-in theaters, so called, passed by your Honorable Body on May 1, 1950, and also the proposed ordinance relative to the opening of drive-in theaters, so called, passed by your Honorable Body on the same date.

My objections thereto are that, even if I affixed my signature to the proposed ordinances, they would have no force or effect. See communication of even date addressed to me by the Corporation Counsel with respect to the subject, a copy of which communication is enclosed herewith for your information.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Law Department, May 15, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

This is in reply to your inquiry concerning the validity of two ordinances passed by the City Council on May 1, 1950, and now before you for approval. In my opinion, neither ordinance is valid.

I.

The first of the proposed ordinances is entitled "An Ordinance Relative to the Licensing of Shows and the Like in Drive-In Theatres, So-called," and provides as follows:

Chapter 39 of the Revised Ordinances of 1947 is hereby amended by inserting after section 23 the following:

Drive-in Theatres.

SECT. 24. No license shall be granted or renewed under chapter 494 of the acts of 1908, as amended, for any theatrical exhibition, public show, public amusement or exhibition of any description to be given in a drive-in theatre, so-called, which is within two thousand feet of a building occupied in whole or in part as a public or private school having more than fifty pupils, or as a public or private hospital having more than twenty-five beds, or as a church.

Chapter 494 of the Acts of 1908, as amended, empowers the Mayor of Boston, with an exception not presently pertinent, to grant, with respect to any location in the entire city, "a license for theatrical exhibitions, public shows, public amusements and exhibitions of every description, to which admission is obtained upon payment of money or upon the delivery of any valuable thing, or by a ticket or voucher obtained for money or any valuable thing, upon such terms and conditions as he deems reasonable." The above-quoted ordinance would limit this power by prohibiting the granting (or renewing) of licenses to certain drive-in theaters. It is well established that an ordinance which attempts to limit a power conferred by statute is repugnant to law and void. *Commonwealth v. Allen*, 128 Mass. 308. *Williams v. Gloucester*, 148 Mass. 256, 259. *Municipal Light Commission v. Taunton*, 323 Mass. 79.

II.

The second proposed ordinance is entitled "An Ordinance Relative to the Opening of Drive-In Theatres, So-called," and reads thus:

Chapter 41 of the Revised Ordinances of 1947 is hereby amended by inserting after section 30 the following:

Drive-In Theatres.

SECT. 30A. No drive-in theatre, so-called, shall be opened for business in the city of Boston within two thousand feet of any building occupied in whole or in part as a public or private school having more than fifty pupils, or as a public or private hospital having more than twenty-five beds, or as a church.

"An ordinance which goes beyond the authority conferred by the enabling statute is invalid." *Cawley v. Northern Waste Company*, 239 Mass. 540, 544. That is to say, a municipality has no inherent power to make laws; so that, if an ordinance is to be held valid, its enactment must have been authorized by some statute.

The principal statute enabling the passage of ordinances is G. L. (Ter. Ed.) c. 40, s. 21, cl. (1), authorizing municipalities to make ordinances "for directing and managing their prudential affairs,

preserving peace and good order, and maintaining their internal police." It is settled, however, that this statute "does not transfer to a city or town all the police power of the Commonwealth or such portions of it as a municipality might desire to exercise, but the grant is limited to the regulation and prohibition of such matters as are of an inherently local nature, peculiarly affecting the public welfare of the particular community and so closely connected with the administration of local government as to become properly a part of it." *Commonwealth v. Wolbarst*, 319 Mass. 291, 293. Thus, G. L. (Ter. Ed.) c. 40, s. 21, cl. (1), does not authorize a bylaw reading as follows: "The removal for sale of loam, sand, gravel or quarried stone, bordering on or within 250 feet of a street line shall not be permitted except by permit from the Board of Appeals. No loam to be removed for sale for more than one-half of its depth in any part of the Town, except when incidental to, and in connection with the construction of a building, for which a permit has been issued." *North Reading v. Drinkwater*, 309 Mass. 200. The reasoning of the *Wolbarst* and *Drinkwater* cases, in my opinion, leads inescapably to the conclusion that G. L. (Ter. Ed.) c. 40, s. 21, cl. (1), cannot be invoked to sustain the second ordinance presently proposed.

In thus disposing of G. L. (Ter. Ed.) c. 40, s. 21, cl. (1), I do not overlook either *Commonwealth v. Parks*, 155 Mass. 531, upholding an ordinance of the City of Somerville providing that "No person shall blast rock or stone with gunpowder, giant powder, dynamite, gun-cotton, nitroglycerine, or any other explosive compound, without written consent from the board of aldermen," or *Commonwealth v. Hubley*, 172 Mass. 58, sustaining an ordinance of the City of Worcester providing that "No person shall carry on the business of collecting, storing, and dealing in old rags, old papers, or other such refuse material, in any building within a circle the radius of which is two miles from the intersection of the south line of Front Street and the east line of Main Street, unless he is duly licensed therefor by the board of aldermen, for which license, if granted, no fee shall be charged." Both of these ordinances merely required the business or activity involved to be licensed so as to insure that it would be conducted only by persons who could be trusted to observe proper precautions. Compare 172 Mass. 58, 60. As the first of the currently proposed ordinances shows, the business to which the second proposed ordinance relates is already subject to a licensing procedure. What the second proposed ordinance seeks to do is to prohibit absolutely the commencement of such business in certain areas. The second proposed ordinance thus goes far beyond the ordinances in the *Parks* and *Hubley* cases.

In addition to G. L. (Ter. Ed.) c. 40, s. 21, cl. (1), there are various other statutes which authorize ordinances of one kind or another. No useful purpose would appear to be served by rehearsing here all statutes of this character which have come to my attention, for they have all been indisputably inapplicable. Take, for example, St. 1938, c. 479, s. 105A, as inserted by St. 1939, c. 217, which permits the enactment of ordinances regulating the inspection, materials, construction, alteration, repair, height, area, location and use of most buildings and other structures in Boston, and its state-wide counterpart, G. L. (Ter. Ed.) c. 143, s. 3, under which the Supreme Judicial Court in *Storer v. Downey*, 215 Mass. 273, sustained an ordinance of the City of Cambridge providing that "No building shall be erected for or converted to use as a garage unless such use is previously authorized by the board of aldermen." Assuming, without deciding, that the statutes just cited, when the procedure therein prescribed is followed, would be construed to authorize the passage of an ordinance absolutely forbidding, within the areas specified in the second ordinance presently proposed, the construction or use of premises for a drive-in theater, suffice it to say that the prohibition in that ordinance is not against construction or use of premises, but, probably because of a desire to reach drive-in theaters under construction, against the commencement of business, a subject plainly not covered by the statutes cited.

The inapplicability of the various statutes authorizing specific kinds of ordinances may be further illustrated by testing the second proposed ordinance as a zoning ordinance. In Boston, the matter of zoning is fully covered by St. 1924, c. 488, as amended. Where the Legislature has enacted a complete and comprehensive statutory system dealing with a certain subject matter, there is no room for ordinances. *Commonwealth v. Baronas*, 285 Mass. 321, 322. *Commonwealth v. Wolbarst*, 319 Mass. 291, 295. Furthermore, Boston is expressly excepted from G. L. (Ter. Ed.) c. 40, ss. 25-30A, by which other municipalities are empowered to pass zoning ordinances. *Brackett v. Board of Appeal of Boston*, 311 Mass. 52, 53.

The situation with respect to the second proposed ordinance thus comes down to this: To be valid, it must have been authorized by some enabling statute. So far as I can ascertain, it is not covered by any such statute. I am, therefore, forced to conclude that it is invalid.

Respectfully,
WILLIAM L. BAXTER,
Corporation Counsel.

Referred to the Executive Committee.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Weights of Goods for term ending April 30, 1951: Matthew J. Doyle, 2 Warner road, East Milton; James W. Urquhart, 15 Brent street, Dorchester; Henry M. Dolan, 320 Central avenue, Milton; Robert H. Howett, 392 Norfolk street, Dorchester; Peter N. Nearlos, 23 Jason street, Arlington; John S. Lentz, 148 Blue Hill avenue, Roxbury; Thomas V. Curley, 86 Butler street, Dorchester.

Referred to Committee on Confirmations.

CONSTRUCTION OF CERTAIN STREETS, WARD 15.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of April 24, 1950, concerning the construction of new streets on Henry street, Barry park, and Baker avenue, Ward 15.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
May 10, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council on April 24:

"Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to proceed with the construction of new streets on Henry street, Barry park, and Baker avenue, as these streets were accepted last year in Ward 15."

The first-named street described as Henry street should be Hendry street. Both this street and Barry park were ordered laid out and constructed by the Board of Street Commissioners last year. Under the circumstances, therefore, we shall make every reasonable effort to construct them during the current year.

Baker avenue is still a private way, and it will have to be ordered laid out and constructed by the Board of Street Commissioners before any action can be taken by this department.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Placed on file.

RECONSTRUCTION OF CERTAIN STREETS, WARD 22.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Public Works relative to your order of May 1, 1950, concerning the reconstruction of Atkins street, Presentation road, Hunnewell avenue, and Oak Square avenue in Ward 22.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
May 11, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of May 1:

"Ordered, That the Public Works Commissioner be directed, through his Honor the Mayor, to recommend reconstruction of Atkins street, Presentation road, Hunnewell avenue, and Oak Square avenue in Ward 22."

I shall have an immediate inspection made to determine the necessity of reconstructing the above-referenced streets. You may be assured that we shall take every reasonable step to have the necessary improvements to these streets effected during the current year, if the results of the survey determine that reconstruction is necessary.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

RESURFACING OF BURT STREET.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of May 1, 1950, concerning the resurfacing of Burt street in Ward 17.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
May 12, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of May 1: "Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to resurface Burt street in Ward 17."

I shall have a survey made to determine the necessity of resurfacing the above-referenced street during the current year.

If the results of such a survey show that reconstruction work is necessary, you may be assured that the work will be included in this year's street construction program, to the extent of the appropriations available.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

ROTARY TRAFFIC AT KANE SQUARE.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of April 17, 1950, concerning the feasibility of making the circle at Kane square, Dorchester, one way, for rotary traffic.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
May 5, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

In further reply to the joint Council order of Councilors Ramsey and Hannon requesting a study as to the advisability of making the circle at Kane square, Dorchester, one way, for rotary traffic, the engineers of this department report the island in Kane square is located so that it would be very difficult for motorists driving in Hancock street to go to the right of this island as they are approaching Pleasant street.

At the present time the M.T.A. trackless trolleys which terminate in Kane square make this turn but if the traffic from Hancock street was forced to follow this same route, due to the large amount of traffic which would result, increased congestion would take place.

For this reason this department does not favor the proposed change.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

SURVEY OF TRAFFIC CONDITIONS, WARD 22.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Traffic Commissioner relative to your order of May 1, 1950, concerning the making of a survey with Councilor Shanley relative to the traffic problems in Ward 22 in regard to additional traffic signs and traffic signals.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
May 5, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

This is in reply to Council order dated May 1, 1950, directing that the engineers of this Commission make a survey with Councilor Shanley relative to the traffic problems in Ward 22 in regard to additional traffic signs and lights, and to advise that our engineers will be happy to comply with this request.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

PRELIMINARY INVESTIGATIONS ON VETERANS' EMERGENCY AID.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Commissioner of Veterans' Services relative to your order of May 8, 1950, concerning the making of all emergency investigations within two days of the filing of the application because, under his ruling, no more emergency aid will be granted without an investigation.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Department of Veterans' Services,
May 12, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Sir:

I have your letter of May 11, 1950, relative to City Council order of May 8, 1950 as follows:

"Ordered, That the Director of Veterans' Services for the City of Boston be requested, through his Honor the Mayor, to make all emergency investigations within two days of the filing of the application because, under his ruling, no more emergency aid will be granted without an investigation."

Evidently, misinformation has been given to the City Council. There is no ruling in effect in this office that requires an investigation be preliminary to payment of emergency aid in every case, nor will there be any such arbitrary determination.

Very sincerely,
FRANCIS X. COTTER, Commissioner.

ADDITIONAL ACCOMMODATIONS AT LONG ISLAND HOSPITAL.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Institutions Commissioner relative to your order of May 1, 1950, concerning the making of a survey of Long Island Hospital with a view to providing additional accommodations for the poor of the city who are unable to obtain admission at the present time due to lack of room.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Institutions Department, May 10, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

I am in receipt of a communication from Thomas Shannon, Chief Clerk, dated May 4, 1950, calling to my attention a City Council order dated May 1, 1950, requesting that survey be made of the Long Island Hospital with a view to providing additional accommodations for the poor of the city who are unable to obtain admission at the present time due to lack of room.

There is usually space at Long Island Hospital for what we term Dormitory Patients. They are what are termed in the City Council order as the poor of the city.

The difficulty we have, just as in all hospitals, is for the chronically ill. One ward in the hospital is now being altered to make fifty more beds available. A new hospital is to be built; but because of excessive construction costs due to the present transportation, it is being delayed until the Long Island viaduct is built.

Respectfully submitted,
JOHN R. MCGILLIVRAY, Commissioner.

AUTOMATIC GATES AT BIRD STREET CROSSING.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Corporation Counsel relative to your order of April 17, 1950 concerning the intercession with the Public Utilities Commission in an effort to have them reconsider the matter of installing automatic gates at the Bird Street railroad crossing in Wards 13 and 15.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Law Department, May 12, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

On April 20, 1950, you transmitted to me the following order passed by the City Council on April 17, 1950:

"Ordered, That the Corporation Counsel be requested, through his Honor the Mayor, to intercede with the Public Utilities Commission in an effort to have them reconsider the matter of installing automatic gates at the Bird Street railroad crossing in Wards 13 and 15."

On April 21, 1950, conformably with said order, I requested the Department of Public Utilities to reconsider the order entered by it on March 10, 1950, with respect to the matter in question.

This is to advise you that I am today in receipt of an order from the Department of Public Utilities denying the request for a rehearing.

I am in receipt of a memo from your office with attached enclosure, City Council order dated May 1, requesting us to make the necessary repairs and loaming of the park at the junction of Adams and Bowdoin streets, Dorchester, and also the park at Meeting House Hill, at Adams street, Church street, and Winter street.

We will endeavor to carry out the necessary repairs and loaming of the parks as requested by Councilor Ramsey in this order.

Very truly yours,

FRANK R. KELLEY, Chairman.

Placed on file.

RESURFACING OF FRANKLIN FIELD TENNIS COURTS.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of May 1, 1950, concerning the study of the advisability of resurfacing the tennis courts in Franklin Field.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, May 8, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order dated May 1, requesting us to study the advisability of resurfacing the tennis courts in Franklin Field.

This department will give further study to the advisability of resurfacing the tennis courts in Franklin Field as requested in this order by Councilor Ansel.

Very truly yours,

FRANK R. KELLEY, Chairman.

PLAYGROUND AT PINE BANKS, JAMAICA PLAIN.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of May 1, 1950, concerning the study of the advisability of establishing a playground on the Pine Banks in Jamaica Plain, with softball and hardball diamonds.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, May 8, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order dated May 1, requesting us to study the advisability of establishing a playground on the Pine Banks in Jamaica Plain, with softball and hardball diamonds.

We cannot promise anything definite as regards to establishing a playground as we have a ball diamond and play facilities on Daisy Field which is close by.

The Jamaica way is one of the beauty spots of the park system, and we have plenty of playgrounds throughout the city that should be used by the boys seeking to play baseball.

Very truly yours,

FRANK R. KELLEY, Chairman.

MARINE PARK IMPROVEMENTS.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of May 1, 1950, concerning the repair of the drinking fountain at Marine Park, erection of a backstop and bases for the baseball diamonds and the opening of the shower baths at the aquarium.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, May 5, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order dated May 1, requesting the Park Commission to repair the drinking fountain at Marine Park, erect a backstop and furnish bases for the baseball diamonds, and open up the shower baths at aquarium.

The drinking fountain in Marine Park now comes under the M.D.C.

At the present time we are not quite sure of the future of the aquarium, but if we will have jurisdiction over this area, however, we will keep this request under consideration.

Very truly yours,

FRANK R. KELLEY, Chairman.

SALARY OF DIVISION ENGINEER, BRIDGE AND HIGHWAY DIVISION.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.

To the City Council.
Gentlemen:

I transmit herewith a communication from the Commissioner of Public Works and an ordinance establishing the salary of the Division Engineer of the recently established Bridge and Highway Division. I concur in the reasons advanced by the commissioner in recommending the said salary and recommend the passage of the accompanying ordinance.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
May 15, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The Bridge and Ferry Division and the Highway Division of this department have now been consolidated to form a single division to be known as the Bridge and Highway Division.

The work, duties, and responsibilities of the Division Engineer of the newly created division are greatly increased, and I feel, therefore, that the salary should be increased to the level of the Division Engineer of the Water Division, who is receiving \$7,700 per year.

One of the reasons for establishing the salary of the Division Engineer of the Water Division at a higher level than that of the division engineers of the other divisions of this department was due to consolidating, in 1938, of the Water Income and the Water Engineering Divisions. The work formerly done by the two division engineers was merged and one of the ratings of division engineer was abolished. The same thing has happened in the consolidation of the Bridge and Ferry and Highway Divisions. One of the positions of division engineer has been abolished and the new division head, therefore, is required to assume all the duties and responsibilities formerly assumed by the two division engineers of the latter-referenced divisions.

I respectfully recommend, therefore, that the salary of the Division Engineer of the Bridge and Highway Division be established at a sum not to exceed \$7,700 per year. I submit an amendment to section 5 of Chapter 3 of the Revised Ordinances of 1947, and respectfully request that your honor submit this amendment to the City Council for appropriate action.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

City of Boston.

In the Year Nineteen Hundred and Fifty.
An Ordinance Concerning the Salaries of Engineers in Charge of the Divisions of the Public Works Department.

Be it ordained by the City Council of Boston, as follows:

Section 5 of chapter 3 of the Revised Ordinances of 1947, as amended by chapter 6 of the Ordinances of 1949, is hereby further amended in the clause establishing the salaries of engineers in charge of divisions of the public works department by striking out the words "the engineer in charge of the water division, not more than seventy-seven hundred dollars," and inserting in place thereof the word "the engineer in charge of the water division and the engineer in charge of the bridge and highway division, each not more than seventy-seven hundred dollars."

Referred to the Committee on Ordinances.

APPROPRIATION FROM PARKMAN FUND INCOME.

The following was received:

City of Boston,
Office of the Mayor, May 15, 1950.

To the City Council.

Gentlemen:

I am in receipt of the attached communication from the Board of Park Commissioners requesting the appropriation of \$38,000 from the income of the George F. Parkman Fund, to be expended under the direction of the Board of Park Commissioners, for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887.

The 1950 budget estimates of the personal service requirements of the Park Department included an estimate of the total income of \$180,000 from the Parkman Fund. The budget allowances made provision for the appropriation of this income as it accrued for the purpose of defraying the cost of work actually performed on the Common and Parks in Existence on January 12, 1887.

I submit herewith an order appropriating the sum of \$38,000, the accrued income now available from the Parkman Fund, and respectfully recommend its immediate passage by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Park Department, May 8, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

By vote of the Board of Park Commissioners, you are respectfully asked to request the City Council to transfer from the income of the George F. Parkman Fund the sum of \$38,000 which is now available, to be expended under the direction of the Board of Park Commissioners as follows:

Common and Parks in Existence on January 12, 1887. Maintenance and Improvement of \$38,000

When making up the budget estimates for the year 1950, a sum equal to the total yearly income of the George F. Parkman Fund was deducted from Item A-1, Permanent Employees, with the understanding that this deduction was to be re-

placed by the total yearly income of said Parkman Fund for 1950, to be transferred as it accrued from time to time during the year to the regular maintenance appropriation of the Park Department.

Respectfully yours,

FRANK R. KELLEY, Chairman.

Ordered, That the sum of thirty-eight thousand dollars (\$38,000) be, and hereby is, appropriated from the income of the George F. Parkman Fund, to be expended under the direction of the Park Commissioners for the Maintenance and Improvement of the Common and Parks in Existence on January 12, 1887, as follows:

Common and Parks in Existence on January 12, 1887. Maintenance and Improvement of \$38,000

Referred to Committee on Parkman Fund.

TRANSFER OF APPROPRIATION FOR POSITION CLASSIFICATION AND PAY PLAN.

The following was received:

City of Boston.

Office of the Mayor, May 15, 1950.

To the City Council.

Gentlemen:

The City of Boston is perhaps the only large city in the nation without a comprehensive position classification and pay plan for its more than fifteen thousand employees. The personal service item in the city budget amounts to 53.2 per cent of the total budget. Under the present Ordinances, every officer in charge of a department employs and fixes the compensation of all subordinates in his department, with the approval of the Mayor. Each department acting independently in establishing its own departmental classification and compensation plans over the years and without the guidance of a general plan has resulted in the creation of inequalities and wide variations in compensation for positions with comparable duties and responsibilities.

It is generally agreed that personnel classifications and salary standardization are absolutely essential to sound procedure. The interests of both the city and the worker dictate some grouping of positions on the basis of functions and responsibilities. Like the position classification upon which it depends, the pay plan is a structural blueprint of the whole service but indicating the relationships between classes and positions in terms of pay differentials. In the absence of a classification system, wage policy bears no direct relationship to the job as such. Salaries come to depend upon personalized judgments of an individual employee's duties and value to the service.

One of the recommendations contained in the report on the financial administration of the city submitted by the Boston Finance Commission was the establishment of a classification and compensation plan for city employees. The committee appointed by me to review and analyze the recommendations contained in these survey reports unanimously recommended that immediate steps be taken which will lead to the establishment of a position classification and pay plan for the City of Boston.

The committee also recommended that the services of outside technical consultants be secured for this work so that the survey can be completed in the shortest possible time. It is estimated that the outside service necessary in order to establish this plan will not exceed \$50,000. There is forwarded herewith an order transferring this sum from the Reserve Fund. Consideration and adoption of this order by your Honorable Body is recommended.

Respectfully,

J. B. HYNES, Mayor.

Ordered, That in accordance with the provisions of section 3B of chapter 186 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

From the Appropriation for Reserve Fund, \$50,000, to the Appropriation for Position Classification and Pay Plan. Establishment of, \$50,000.

Walter J. Malloy,
City Clerk.

Dear Sir:

I enclose for your information and files copy of notification prepared by me which, in effect, abolishes the Bridge and Ferry Division and the Highway Division of this department, and consolidates them into one division, to be known as the Bridge and Highway Division.

This consolidation and the establishment of the division will be effective at 12.01 A.M. on next Monday, May 15.

Very truly yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Public Works Department.

To Whom It May Concern:

By virtue of the power vested in me by section 33 of chapter 27 of the Revised Ordinances of 1947 of the City of Boston, I do hereby consolidate, effective at 12.01 A.M. on Monday, May 15, 1930, the divisions in the Public Works Department known as the Bridge and Ferry Division and the Highway Division into a single division to be known as the Bridge and Highway Division.

All positions in both the Bridge and Ferry Division and in the Highway Division are hereby transferred to the Bridge and Highway Division without change of rank, salary, or duties; except that, the position of Division Engineer in the Highway Division having been abolished, the Division Engineer in the Bridge and Ferry Division who is hereby transferred to the Bridge and Highway Division shall, as Division Engineer of the Bridge and Highway Division, perform the duties of the former positions of Division Engineer in the Highway Division and of Division Engineer in the Bridge and Ferry Division.

All employees of both the Bridge and Ferry Division and the Highway Division are hereby transferred to the Bridge and Highway Division without impairment of their civil service rights, if any, or of their retirement, seniority, vacation, overtime, holiday leaves, and sick leave rights.

GEORGE G. HYLAND,
Commissioner of Public Works.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER, TENTH
FLOOR.

PROPOSALS FOR FURNISHING AMERICAN ANTHRACITE COAL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing American anthracite coal required for the school buildings from June 16, 1950, to December 31, 1950, deliveries to be continued until June 16, 1951, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Anthracite Coal for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check payable to the City of Boston, in the amount of one hundred dollars (\$100), must be left at the office of the Business Manager on or before 12 o'clock noon on Thursday, June 8, 1950. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock noon of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The coal is to be delivered in the bins of the several buildings and the price per ton named in the proposal must include delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and sufficient number of men to house the coal properly and promptly. The estimated tonnage required is as follows and as much of it as possible will be housed during July and August, 1950:

AMERICAN ANTHRACITE COAL.

DISTRICT.	Egg Size.
1. City Proper	15 tons
2. South Boston	
3. East Boston	
4. Roxbury	30 tons
5. Dorchester	75 tons
6. Charlestown	
7. Brighton	
8. West Roxbury	
9. Hyde Park	30 tons
Total	150 tons

Bidders may submit a proposal for furnishing American anthracite coal required in any one or more of the above nine districts of the city and may also submit one bid covering the whole city. The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interests of the city. The successful bidder will be required to furnish a suitable bond or deposit of money or other security in the amount of not less than fifty (50) per cent of the amount of the contract.

PARKING METERS PROFITABLE FOR CITIES.

A survey of parking meter usage in 62 cities over 100,000, recently made by the city purchasing agent of Chicago in cooperation with the National Institute of Governmental Purchasing, indicated an annual income per meter of \$74.31, or \$6.19 per month. Cities reporting an average annual income per meter in excess of \$100 included Minneapolis, St. Paul, Providence, Dayton, Long Beach, Chattanooga, Canton (Ohio), and South Bend (Indiana). Cities which reported an income of \$90 to \$100 per meter per year were Seattle, Columbus (Ohio), Richmond, Miami, Flint, Norfolk, Tulsa, Wichita, Sacramento, and Charlotte. Maintenance costs reported by 33 cities, including labor, repairs, and collections, averaged \$6.99 per meter per year, or nearly 10 per cent of the revenue.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET,
OFFICE OF THE BUSINESS MANAGER, TENTH
FLOOR.

PROPOSALS FOR FURNISHING RUN OF MINE AND NUT AND SLACK SEMIBITUMINOUS COAL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing run of mine and nut and slack semibituminous coal required for the school buildings from June 16, 1950, to December 31, 1950, deliveries to be continued until June 15, 1951, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Run of Mine and Nut and Slack Semibituminous Coal for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check, payable to the City of Boston, in the amount of three hundred dollars (\$300), must be left at the office of the Business Manager on or before 12 o'clock noon on Thursday, June 8, 1950. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock noon of the day stated. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of the bids. The coal is to be delivered in the bins of the several buildings and the price per ton named in the proposal must include the delivery and housing in a manner satisfactory to the School Committee. The contractor must furnish suitable equipment and sufficient number of men to house the coal properly and promptly. The estimated tonnage required is as follows and as much of it as possible will be housed during July and August, 1950:

SEMIBITUMINOUS COAL.

DISTRICT.	Run of Mine.	Nut and Slack.
1. City Proper.....	3,600 tons	
2. South Boston.....	1,500 tons

TO ELECTRICAL CONTRACTORS.

INVITATION FOR PROPOSALS FOR INSTALLING EMERGENCY LIGHTING WITH GENERATOR IN CLARENCE R. EDWARDS SCHOOL, 28 WALKER STREET, CHARLESTOWN, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for installing emergency lighting with generator in the Clarence R. Edwards School, 28 Walker street, Charlestown, Mass.

Proposals will be received until 12 o'clock noon, Thursday, June 8, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$300, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Plans and specifications may be obtained at the office of the Awarding Authority on or after May 29, 1950.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, June 5, 1950.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A deposit of a certified check in the sum of \$25, payable to the City of Boston, will be required in order to procure a complete set of plans and specifications. This deposit shall be returned, providing that all plans and specifications are returned in satisfactory condition within ten days after opening of bids.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful electrical contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

THE SCHOOL COMMITTEE OF THE CITY OF BOSTON.

ADMINISTRATION BUILDING, 15 BEACON STREET, OFFICE OF THE BUSINESS MANAGER, TENTH FLOOR.

PROPOSALS FOR FURNISHING FUEL OIL FOR BOSTON PUBLIC SCHOOLS.

The School Committee of the City of Boston invites bids for furnishing fuel oil required for school buildings from June 16, 1950, to December 31, 1950, deliveries to be continued until June 15, 1951, provided appropriation is made therefor and the School Committee so orders. Proposal forms are obtainable at the office of the Business Manager of the School Committee, tenth floor, 15 Beacon street. Envelopes containing proposals must be sealed and plainly marked "Proposal for Furnishing Fuel Oil for Boston Public Schools." The bid must be in duplicate. One copy signed by the bidder and accompanied by a certified check for three hundred dollars (\$300), payable to the City of Boston, must be left at the office of the Business Manager on or before 12 o'clock noon on Thursday, June 8, 1950. Copies filed with the Business Manager will be publicly opened and read at 12 o'clock noon on Thursday, June 8, 1950. The other copy, also signed by the bidder, must be filed with the City Auditor, City Hall, Boston, Mass., previous to the time named for the opening of bids. Fuel oil is to be delivered in the tanks of the several buildings and the price per barrel of heavy or medium oil and the price per gallon for light oil named in the proposal must include the delivery in said tanks in a manner satisfactory to the School Committee. The total estimated quantities of fuel oil required during the period June 16, 1950, to June 15, 1951, both dates included, is as follows:

33,436 barrels heavy oil.
23,929 barrels medium oil.
49,000 gallons light oil.

The School Committee reserves the right to reject any or all bids and to accept such bid, or part of bid, as may be deemed best for the interest of the city. The successful bidder will be required to furnish a suitable bond or deposit of money or other security in the amount of not less than fifty (50) per cent of the amount of the contract.

MAYOR GETS REPORT OF SURVEY COMMITTEE ON REORGANIZATION OF DEPARTMENTAL FINANCIAL ADMINISTRATION, LOOKING TO PROVIDE MORE EFFICIENCY AND ECONOMY AND THE BETTERMENT OF MUNICIPAL SERVICES.

The following communication has been received at the office of the Mayor:

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The committee appointed by you to review and analyze the recommendations contained in the survey reports of the Boston Finance Commission submits for your consideration the following comments on the report bearing the title "Financial Administration."

This report embraces the activities of the Auditing, Budget, Collecting, and Treasury Departments and contains 115 specific recommendations for changes or revisions in existing practices and procedures. These recommendations have

MAYOR HYNES PRAISES SPIRIT OF JESUIT FATHERS FOR COURAGEOUSLY UNDERTAKING ERECTION OF NEW BOSTON COLLEGE HIGH SCHOOL AT THIS TIME—SHARES IN DEDICATORY EXERCISES WITH PRIDE IN SYMBOL OF NEWER AND BETTER CITY TO ARISE.

The following are the remarks of Mayor John B. Hynes at the dedication of Boston College High School on May 29:

I am happy to be here today to participate in the dedication exercises of the new Boston College High School, and I am doubly happy to congratulate Father Rector and the Society of Jesus for the courage of the Jesuit Fathers in going ahead with the construction of this building at this time.

There might well have been one hundred reasons to postpone and delay this new high school, but there was one good reason to build it and that was—necessity. And for you young men who are students at the high school, may I say that that is a lesson of America—not to fear obstacles, but to go ahead and conquer them.

Boston is proud of this new addition to its cultural assets, proud to point to it as a symbol of the newer and better city that we hope is beginning to arise.

MAYOR JOHN B. HYNES PAYS ELOQUENT TRIBUTE TO OUR HERO DEAD OF ALL WARS DURING MEMORIAL DAY EXERCISES WITH OLD DORCHESTER POST, AMERICAN LEGION, AT CEDAR GROVE CEMETERY—WARNS AGAINST POSSIBILITY OF BECOMING CREATURES OF AN ALL-POWERFUL AND SOULLESS STATE, NO LONGER A GOVERNMENT OF FREE PEOPLE, THE IDEAL FOR WHICH OUR DEPARTED COMRADES FOUGHT AND DIED—ASKS THAT TIME-HONORED PRINCIPLES OF NATION BE PRESERVED.

The following is the Memorial Day address of Hon. John B. Hynes, Mayor, at Old Dorchester Post exercises:

Mr. Chairman, Reverend Chaplain, My Comrades of the American Legion, Their Sons, and the Auxiliary, Ladies and Gentlemen:

It is a singular honor for me to be with you today, to pay reverent respect to the dead of all our wars, to recall their devotion to God, to country, to home—and to offer supplication for their departed souls.

We would be errant in our duty, heartless in our thoughtlessness, and callous in our disregard, did we not, on this Memorial Day, decorate their graves, place flags on their grassy covers, and blow taps over their mortal remains. But we would be even more errant, more thoughtless, more callous, did we not, on this day, and on all other days, remember that those whom we memorialize today were willing to sacrifice, to suffer, and to die, that this nation of free government might live—not for a day or a year, or for their lifetime, but for as long as this world endures.

They recognized, as we must recognize, that freedom, justice, independence, and the other priceless liberties that are ours, can be frittered away, and lost entirely, unless there is a realization of the value of these possessions, and unless there is a realization that you and I, each of us, must be alert to preserve those possessions, and ready to share in the protection of them.

America today is a great nation—made so by the collective labor and efforts of the millions who have preceded us—made so by the blood of martyrs and heroes whose gallant deeds we recall on this day. Our country can continue to be great, and strong, and powerful, can continue to be a haven of security in this insecure world in which we live, only if we, with faith in God, hold tight to the principles upon which this great country was founded. We can help in the destruction of those principles by our own moral inertia—by our own cynical appraisal of liberty—by our own flabby desire to live a life of ease, and comfort, and happiness, at the expense of somebody else.

America's Greatest Threat.

The men and women who made this country great and strong—the men and women who died for the cause of free government—were not craven recipients of public generosity; they were men and women of strong character—and into the fabric of this land they wove the strands of courage, determination, and self-reliance that made our country what it is today.

REPORT OF JOSEPH McKENNEY, DIRECTOR OF PHYSICAL EDUCATION, ON ATTENDANCE AT EASTERN DISTRICT CONVENTION OF THE AMERICAN ASSOCIATION FOR HEALTH, PHYSICAL EDUCATION, AND RECREATION, IN ATLANTIC CITY, MARCH 20 TO 24.

May 2, 1950.

DENNIS C. HALEY, *Superintendent, Boston Public Schools.*

DEAR MR. HALEY:

The following is a report of my attendance at the Eastern District Convention of the American Association for Health, Physical Education, and Recreation, which was held in Atlantic City, New Jersey, March 20 through 24, 1950.

The theme of the convention was "Diversity with Unity."

As a member of the Convention Managers' Committee, I attended the Pre-Convention Working Conference and all the meetings of the Working Conference for the setting up of policies for all future conventions, both nationally and locally.

The Community Recreation Section stressed the importance of a leadership training program for community recreation. The recommended program was similar to the training conference held by the Department of Physical Education each year at the Teachers College.

The Public School Section was divided into groups representing communities of 5,000 and under, 5,000 to 20,000, and 20,000 and over. The greatest need in all communities is properly trained teachers, especially in the elementary schools.

Coaching clinics in football, basketball, and baseball were held as part of the Men's Athletic Section by the coaching staffs of Temple University and Rutgers University.

A practical method of teaching body mechanics, the "Posture Pete method," was demonstrated by a representative of the Children's Hospital, Baltimore, in the Basic Body Mechanics Section.

The City Directors' meeting was devoted to construction methods and plans for new school gymnasiums. The new gymnasium at Brookline, to be dedicated soon, has been constructed and equipped with all the modern recommendations.

The Health Education Division meetings covered the pending Federal legislation on school health services and the relationship of the school health instruction program to the school health services.

The professional preparation of undergraduates for public school teaching has been of great concern to directors of physical education. The Professional Preparation Section devoted its entire time to panel discussion by representatives from all educational levels on both undergraduate and graduate professional preparation.

The convention was brought to a close by an excellent address by Dr. Milton Gladfelter, Provost, Temple University, on "Unity and Diversity in Education."

Respectfully submitted,

JOSEPH McKENNEY,
Director of Physical Education.

REPORT OF CASIMIR F. SHEA, DIRECTOR OF FINE ARTS, ON ATTENDANCE AT EASTERN ARTS ASSOCIATION CONVENTION IN NEW YORK CITY, APRIL 12 TO 15.

The following is the report of Casimir F. Shea, Director of Fine Arts, on attendance at Eastern Arts Association Convention:

May 1, 1950.

DR. DENNIS C. HALEY,
Superintendent of Public Schools.

DEAR DR. HALEY:

I wish to express appreciation of the opportunity given me to attend the Eastern Arts Association Convention held in New York City, April 12 through 15, 1950. I submit the following report outlining activities attended by me.

Registrations were made Wednesday morning at the Statler Hotel, New York City, where many of the important meetings on the program were to be held.

The convention theme was "The Integrative Function of Art Education." The opening session was presided over by Marion Quin Dix, President of the Eastern Arts Association. Dr. William Jansen, Superintendent of Schools, New York City, delivered the address of welcome. He was followed by Dr. Margaret Mead, anthropologist, American Museum of Natural History, New York City, who spoke on the subject, "The Role of Arts in Culture." She stressed the art and culture of people in remote parts of the world, with special emphasis on that of the Island of Bali.

Following this meeting, a preview of films of interest to art teachers included one which was outstanding, entitled "Light Reflection," produced by means of illuminating various designs made of plastics.

Thursday morning I attended a meeting addressed by Lawrence Frank, Director of Taylor Institute of Human Development, who spoke on the "Integrative Role of the Arts in Personality." He emphasized that, "Emotions may be transferred in drawing and painting . . . ; the art teacher must recognize that some children will not paint, draw or model . . . ; the art teacher must avoid too many don'ts."

Following the meeting, conferences were held by art groups representing different age levels in school systems. The discussions were stimulating and participated in by many present. Highlights—"Reject project—not the child." "Teacher should not finish ideas supplied by child." "Teacher should dignify art in the schools." "Art should be made a pleasure."

Art educational films were exhibited after the meeting, two of which were outstanding: "The Loon's Necklace," distributed by Britannica, and "Soap Modeling," by Procter and Gamble.

On Friday, the speaker, Dr. Alice Kelliher, emphasized the beauty and spiritual quality of art and its importance in the child's life; also the necessity of making the school and classroom a place of beauty. She called attention to the fact that a teacher must be aware of the important work she is doing and must be proud of teaching as a profession.

Friday afternoon, an address by Bartlett Hayes, Director of the Addison Gallery of American Art, entitled "The

Artist's Responsibility to Culture," was followed by workshop demonstrations of new art materials.

Saturday, the meeting was addressed by Carleton Washburne, Director, Teacher Education, Brooklyn College, entitled "Art in the Life of the School."

The audience was divided into several groups, chairmen appointed to each group, and floor discussions took up a number of problems of particular interest to those present. This form of meeting appeared popular and was actively participated in by art teachers eager to discuss special problems in open meeting.

The 1950 Eastern Arts Convention was successful both from the point of view of number in attendance and for the excellent quality of the program offered.

Respectfully submitted,

CASIMIR F. SHEA,
Director of Fine Arts.

MAYOR HYNES PAYS TRIBUTE TO HERO DEAD ON MEMORIAL DAY.

(Continued from page 505.)

To my mind, the greatest threat to America today is not the threat of ungodly communism—that is bad enough—nor is it the threat of war, and that is horrible to contemplate. We can, and we will, overcome communism, with God's help. We can, and we will, defeat our enemies if war should come, also with God's help. No, our greatest threat is ourselves. Our greatest danger is that we will place so much dependence on government that we will one day wake up to find that this is not a government of free people, but a government of individuals who have lost their independent identities and have become, like the people of other nations that have prospered and withered away, merely creatures of an all-powerful and soulless state.

Those who answered the call to the colors, who marched beside the flag of our country, would sleep today in sweet, unbroken rest, were they to know that we, too, have courage and determination—that we, too, are willing to sacrifice, if need be, that the time-honored principles of our nation shall not be weakened by our own fallacious dream of a paradise on earth. There is only one paradise—it is not of this world.

Let us hope—let us pray—that the dead of all our wars, gallant all, have entered the gates of true paradise—there to remain for all eternity.

TRAFFIC COMMISSION RULINGS.

Voted, That as urgently required by considerations of public safety and convenience, during the period of roadway resurfacing, vehicles are excluded from the following street, from 6 p.m., Friday, May 26, 1950, to 6 a.m., Monday, May 29, 1950:

Essex Street, Boston Proper.

From Harrison avenue to Kingston street.

TRANSFER OF APPROPRIATIONS.

The Mayor has approved the following request for transfer of appropriations:

LAW DEPARTMENT.

From 2 28, Expert, \$1,150, to 3-4, Motor Vehicles, \$1,150.

REPORT OF SURVEY COMMITTEE ON REORGANIZATION OF DEPARTMENTAL FINANCIAL ADMINISTRATION.

(Continued from page 505.)

been discussed at length with the heads of the departments involved. Based on the opinions expressed by these officials, the survey recommendations would appear to fall into the following classifications:

- | | |
|------------------------------------|----|
| 1. Already adopted..... | 34 |
| 2. Subsequent adoption feasible.. | 7 |
| 3. Merit further study..... | 17 |
| 4. Contrary to existing statutes.. | 24 |
| 5. Impractical or inexpedient... | 33 |

From the foregoing table it would appear that roughly 50 per cent of the survey recommendations may be adopted with practical advantage to the city. This percentage may be further increased in the event existing statutory conflicts are removed. A legislature recess committee has this phase of the matter under consideration. In the case of the remaining 30 per cent of the recommendations, it would appear that little, if any, benefit would result from their adoption, and in some cases the advantages claimed for the proposed changes are open to serious question and doubt.

In the group of recommendations listed as requiring further study, there are four which appear to merit special comment. These are:

1. Establishment of a classification and compensation plan for city employees.
2. Installation of an allotment system to control departmental expenditures.
3. Revision in methods of handling welfare payrolls.
4. Extension of payment of employees by check.

Classification and Compensation Plan for Employees.

The City of Boston is perhaps the only large city in the nation without a comprehensive position classification and pay plan for its more than 15,000 employees. The personal service item in the city budget amounts to 53.2 per cent of the total budget. Under the present ordinances, every officer in charge of a department employs and fixes the compensation of all subordinates in his department, with the approval of the Mayor. Each department acting independently in establishing its own departmental classification and compensation plans over the years, and without the guidance of a general plan, has resulted in the creation of inequalities and wide variations in compensation for positions with comparable duties and responsibilities.

It is generally agreed that personnel classifications and salary standardization are absolutely essential to sound procedure. The interests of both the city and the worker dictate some grouping of positions on the basis of functions and responsibilities. Like the position classification upon which it depends, the pay plan is a structural blueprint of the whole service but indicates the relationships between classes and positions in terms of pay differentials. In the absence of a classification system, wage policy bears no direct relationship to the job as such. Salaries come to depend upon personalized judgments of an individual

employee's duties and value to the service. This problem is not of recent origin but is an old perennial. Back in 1926, a determined effort was made to correct inequalities by the appointment by the then Mayor Nichols of a committee to study the problem. This committee spent the best part of a year in studies and investigations and submitted a very comprehensive report. Unfortunately nothing ever came out of it.

The following brief quotations from the report of the above-mentioned Standardization Commission are as pertinent today as they were in 1927 when the report was made:

THE CONDITION.

"The lack of a comprehensive and consistent personnel policy and the absence of a central agency empowered to regulate and administer such a policy is evidenced by the following summary of irregularities to be found in the personal service of the city.

"1. Salary and wage rates for positions involving like duties and responsibilities and calling for the same qualifications show wide variations and marked inequalities.

"2. Unsystematic and in many cases unjust methods for advancement and promotion.

"3. Great waste of energy and time on the part of the mayor, budget commissioner, and department heads in discussing details of relatively small importance concerning personal service, without any adequate basis upon which to form proper conclusions.

"4. Variations in designating the same kind of employment and a multiplicity of meaningless titles.

"5. Entrance rates determined largely by the salary rates of the incumbents who previously held the positions.

THE REMEDY.

"Such conditions should not be permitted to continue in the municipal service if a reasonable remedy can be found. In the opinion of the committee the removal of these irregularities can be accomplished by making use of the same expedients that are being more and more generally adopted in the management of large business enterprises—namely, classification of positions and standardization of salaries.

THE PLAN.

"The general requirements that a compensation plan should meet are first, that it be in a form to permit of its practical application; second, that it be equitable in its provisions with respect to the interests of both the employees and taxpayers.

"The fundamental features of the plan are as follows:

"1. Allocation of positions into functional groups.

"2. Establishment of grades which, in the opinion of the committee, represent the various degrees of responsibility and authority in the city service.

"3. Classification of employees into groups and grades in accordance with their respective duties and responsibilities.

"4. Fixing of minimum and maximum compensations for each grade."

It is recommended, therefore, that immediate steps be taken which will lead to the establishment of a position classification and pay plan for the City of Boston. In view of the complicated nature of a study of this kind, together

with the fact that full time should be given by those participating and the further fact that the survey should be completed in the shortest possible time, it is suggested that the services of outside technical consultants be secured for this work. The Mayor's executive committee on administration would supervise and direct the survey but would be relieved of the necessity of spending a considerable amount of time on the details. The committee, at the present time, is reviewing the reports of the various city departments recently completed by the Boston Finance Commission and is devoting as much time as can be spared by its members on these reports. To take on the additional functions of gathering the necessary data in connection with the proposed establishment of a position classification and pay plan would be impossible without some outside assistance as suggested.

In practically every instance the survey reports issued by the Boston Finance Commission make reference to the misclassification of positions and the need for a salary and wage plan in the service of the City of Boston. In the opinion of this committee, the establishment of a position classification and pay plan is of paramount importance and should be undertaken without delay.

Allotment System to Control Departmental Expenditures.

An allotment system is essentially the effective distribution of appropriations to certain periods of the year, usually quarters. Departments are restricted within each given period to the expenditure of the allotted fractions of their total appropriations. These fractions are determined by consideration of the relationship between departmental work programs and the over-all appropriations actually approved in the budget. Thus an allotment system operates to budget annual appropriations to periods shorter than a year. Theoretically, more effective expenditure control should result from the proration of expenditures throughout the fiscal year according to planned schedules.

At the present time, the Budget Department, in accordance with a recommendation contained in this survey report, is engaged in a project calling for a reclassification of budget accounts. The existing classification has been in effect for over 30 years, and it appears desirable, in the light of the vast changes that have taken place in the city operations during this period, to revise and bring up to date the classification of appropriation accounts. During the course of this work, consideration well may be given to the establishment of an allotment system. Definite action or decision on this matter may well be deferred, until the classification project has been completed.

Revision in Methods of Handling Welfare Payrolls.

Under a practice of long standing, lump-sum cash advances have been made periodically throughout the fiscal year to the treasurer of the Board of Overseers of Public Welfare. These advances have been deposited in special bank accounts and the checks issued to the recipients of welfare relief have been drawn against these accounts. The checks so drawn bear the signature of the treasurer of the board. Under the General Laws of the Commonwealth, the City Treasurer is the disbursing officer and all payments from city funds should be made directly by him. Because of the volume of checks issued by the Welfare Department, it would be administratively awkward to transfer the

preparation and distribution of the same from the welfare offices to the treasurer's office. Compliance with the legal requirements relating to disbursements by the City Treasurer without disrupting the current system of preparation and distribution of welfare checks is a matter of serious import. It must be readily apparent that extensive study and research will be necessary before any changes in existing procedure are proposed or made.

Extension of Payment of Employees by Check.

In connection with payroll procedures of the city, the survey report recommends discontinuance of cash payrolls entirely and the payment of all employees by check. The impact of this recommendation can be better realized when it is understood that approximately two-thirds of the employees or roughly 16,000 persons receive their compensation payments in cash. With its present facilities, it is highly questionable whether the absolute change proposed in the method of payment could be carried out. Realizing, however, that check payments have distinct advantages from the viewpoint of control and safety over cash payments, it is believed desirable that studies should be made as to the possibility of extending and expanding the payment of city and county employees by check.

CITY OF BOSTON.

MAYOR'S OFFICE, May 22, 1950.

To All Department Heads.

GENTLEMEN:

Your attention is directed to chapter 310 of the Acts of 1950 which amends section 4 of chapter 66 of the General Laws so as to read as follows:

"No ink shall be used upon any public record except ink furnished by the supervisor of records, and no ribbon, pad or other device used for printing by typewriting machines, or stamping pad, or any ink contained in such ribbon, pad, device, stamping pad or carbon paper, shall be used upon any public record, nor shall any photographic machine or device or chemical used in connection therewith be used in making any public record, except such as has been approved by the supervisor of records, who may cancel his approval if he finds that any article so approved is inferior to the standard established by him. Whoever violates this section shall be punished by a fine of not more than fifty dollars."

In order that there may be no violation of this statute, please be certain that all ink and other above-mentioned writing materials used in your department have been approved by the Supervisor of Public Records, who has offices in the Department of the State Secretary.

Respectfully,

JOHN B. HYNES, *Mayor.*

FIRE DEPARTMENT ORDERS.

General Order No. 27.

I. RETIREMENT.

The following retirement, which will become effective at 8 A.M., June 1, 1950, is hereby announced:

Hoseman Francis J. Murphy, Engine Company 31.

Hoseman Murphy was appointed to the department April 18, 1930, and he leaves the department with the best wishes of his associates.

II. CHANGE IN DESIGNATION OF FIRE ALARM BOXES.

The designation of the following fire alarm boxes should be changed to read as follows:

Box 3746, Pierce and Walter streets.
Box 3747, Pierce and West streets.

Company commanders shall make the above changes on assignment cards for Boxes 3746 and 3747.

III. APPRECIATION.

The Fire Commissioner is pleased to publish for the information of the department the following letter received from the commanding officer of the U. S. Naval Receiving Station, 495 Summer street, Boston:

"HON. MICHAEL T. KELLEHER, Commissioner of Boston Fire Department, Bristol Street, Boston, Mass.

MY DEAR MR. KELLEHER:

The commanding officer of the U. S. Naval Receiving Station, Boston, Mass., wishes to express his sincere appreciation for the most efficient and prompt manner in which the members of your department extinguished the fire in the Navy Building May 9, 1950.

The highly efficient manner in which the personnel of your department accomplished their assigned tasks during the fire is an example of excellent training and leadership.

Very truly yours,

JAMES B. BARR."

IV. COMMENDATIONS.

The Fire Commissioner wishes to commend all officers and members of the department who participated in the exhibition drill given in front of the John Hancock Building on Berkeley street, Monday, May 22, 1950. The general conduct exhibited by all concerned and the skill shown by members of the drill team before the vast throng who witnessed the evolutions reflected great credit upon the entire membership of the department.

The following-named members are hereby commended for responding to and working at fire, Box 3233, May 17, 1950, while off duty:

Hoseman Russell A. Amaral, Engine Company 21.

Hoseman Joseph T. Sheehan, Lighting Plant No. 2.

The following-named members are hereby commended for responding to and working at fire, Box 1451, two alarms, May 18, 1950, while off duty:

Hoseman James W. Pierce, Engine Company 7.

Ladderman Bernard M. Lydon, Ladder Company 17.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

POLICE DEPARTMENT ORDERS.

General Order No. 1,322.

A trial board, consisting of Cpts. Frank H. Sliney, James F. O'Neil, and Harold J. Walkins, having heard by reference a complaint made by Capt. Justin McCarthy of Division 11, against Patrolman Robert L. Childs, Division 11, charging him with violation of the rules and regulations of the Police Department, has reported to the commissioner a finding of guilty as charged, recommending punishment duty of 105 hours.

Recommendation is accepted, and it is ordered that the said Patrolman Robert L. Childs perform 105 hours' punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,323.

A trial board, consisting of Cpts. Frank H. Sliney, James F. O'Neil, and Harold J. Walkins, having heard by reference a complaint made by Capt. Justin McCarthy of Division 11, against Patrolman Thomas L. Keefe, Division 11, charging him with violation of the rules and regulations of the Police Department, has reported to the commissioner a finding of guilty as charged, recommending punishment duty of 210 hours.

Recommendation is accepted, and it is ordered that the said Patrolman Thomas L. Keefe perform 210 hours' punishment duty.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,324.

Capt. Andrew Markhard, now acting drillmaster, is hereby designated drillmaster of the Boston Police Department, effective Thursday, May 25, 1950.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CIVIL SERVICE EXAMINATIONS. (STATE SERVICE.)

CONTRACTS AWARDED.

Permission to award contracts for work, materials, and supplies, in accordance with recommendations of department heads, has been approved by the Mayor.

DEPARTMENT OF SCHOOL BUILDINGS.

Upon May 22 the Mayor approved a contract with Kay Electric Company for installing emergency lighting with generator in the Hyde Park High School, Hyde Park. Bids, opened April 27, were as follows:

Kay Electric Company, \$7,139; J. & M. Brown Company, Inc., \$7,454; Emerson Electrical Manufacturing Company, \$7,500; Warren H. Bennett, Inc., \$7,628; Mark A. Carroll, \$8,472; William R. Wheeler, Jr., \$8,700; D. A. Robbins Electric Company, \$8,780; Stanton Electric Company, \$9,300.

Upon May 22 the Mayor approved a contract as requested in the following letter:

BOSTON, May 5, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of April 15, 1950, the following list of bids was received and publicly opened and read aloud on April 27, 1950, for installing emergency lighting with generator in the Patrick T. Campbell School:

Kay Electric Company, \$5,553; J. & M. Brown Company, Inc., \$5,967; Emerson Electrical Manufacturing Company, \$6,050; William R. Wheeler, Jr., \$6,790; Stanton Electric Company, \$7,543; D. A. Robbins Electric Company, \$7,970.

In submitting their bid Kay Electric Company carried a subbid for plumbing work in the amount of \$820, contractor Henry J. Lyons, which figure was given to them over the phone by an employee of Henry J. Lyons and which proved to be in error. In checking subbid proposals submitted to this office, Henry J. Lyons' subbid proposal read \$865. I therefore requested the first four electrical contractors who used Henry J. Lyons as a subbidder to submit to me original copies

of all subbidder proposals received by them for plumbing and gas work to be performed in connection with installation of emergency lighting with generator at the Patrick T. Campbell School. In answer to my letter I received replies to the effect that they did not receive any copy of subbid proposal from Henry J. Lyons, but they did receive copy of proposal from J. M. McCusker Company, which company is the second lowest bidder, in the amount of \$1,150. In view of the fact that Henry J. Lyons did not comply with section 44C of chapter 480, Acts of 1939, as amended, by failing to deliver or mail his bid to all general contractors by 12 o'clock noon on April 24, 1950, as required by terms of invitation for proposal, I am substituting J. M. McCusker Company, in the amount of \$1,150, as sub for plumbing work. This substitution is agreeable to Kay Electric Company. This substitution will necessitate an adjustment of \$330 on Kay Electric Company's bid.

Subject to your Honor's approval, I am awarding a contract to Kay Electric Company, 58 South Margin street, Boston, Mass., the lowest responsible bidder, in the amount of five thousand eight hundred eighty-three dollars (\$5,883).

Yours truly,

JAMES H. MOONEY,
Superintendent of Construction.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with firms, contractors, supply houses, etc., for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

DEPARTMENT OF SCHOOL BUILDINGS.

BOSTON, May 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MAYOR HYNES:

I respectfully request your Honor's approval of my selection of John A. McPherson, 250 Huntington avenue, Boston, Mass., as architect for the work of altering nineteen school buildings identified in a "Contract for Architect's Services" as Group "A" and subdivided into subgroups "A1," "A2," "A3," "A4" and "A5."

The estimated cost of the construction and alteration work in the nineteen buildings of Group "A" is four hundred thirteen thousand six hundred dollars (\$413,600) and the architect's fee is to be paid on the basis of 10 per cent of the cost of the completed construction and alteration work.

Based on the information above recorded, I respectfully request your Honor's approval to negotiate a "Contract for Architect's Services" with John A. McPherson, architect.

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

FIRE DEPARTMENT.

BOSTON, May 4, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Permission is hereby requested to dispose of as junk at a private sale to W. Phillips Foster the following old and defective equipment which is the property of the Fire Department:

Eight O.C.D. skid pumps, \$365.

The pumps are not in operating condition, some being practically dismantled, and are of no further use or value to the Fire Department. Seven of the pumps are equipped with motors which are in a defective condition and one pump is without a motor.

Respectfully yours,

MICHAEL T. KELLEHER,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, May 9, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your permission is respectfully requested to award a contract, without advertising, to the Mill Creek Products Company, 15 Boylston place, Brookline, for extermination of vermin at Long Island Hospital, for the period beginning March 1, 1950, and ending December 31, 1950, at the sum of \$100 per month.

The firm which performed the work last year submitted a bid of \$115 per month for this work. A saving of \$15 per month would result in the award of this contract to the Mill Creek Products Company, and no benefit would accrue to the city from advertising the same.

Yours very truly,

JOHN R. MCGILLIVRAY,
Commissioner.

LIBRARY DEPARTMENT

BOSTON, May 5, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Since it is not possible to obtain competitive bidding by public advertising, your approval is respectfully requested for the trustees to sign a lease, without public advertising, with Ezra Sherman, for the rental of the premises located at 386-388 West Broadway, South Boston, for quarters for our South Boston Branch Library. The lease will be for the period May 1, 1950, through April 30, 1951, and the rental will be in the sum of thirty-one hundred and eighty dollars (\$3,180).

Inasmuch as the total rental will exceed one thousand dollars (\$1,000), beyond which there must be public advertising for bids, it is necessary to request your permission to enter into this lease without publicly advertising for bids.

Your approval of this award is respectfully requested.

Very sincerely yours,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON.

FRANK J. DONAHUE,
President.

PARK DEPARTMENT.

BOSTON, May 5, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

It has been the custom of the Park Department for many years to plow a garden area on the Cummings Estate in Woburn, Mass. This property is under the custody and care of this department. Each year the children from the various sections of Boston go to Woburn to plant the area with vegetables. The children and the gardening area are under the supervision of Henry G. Wendler of the Boston School Department.

Last year, for the first time, the transportation of the children by bus from the various sections of the city, and by railroad for those living in the vicinity of the North Station, was paid for by the Park Department through the Randidge Trust Fund Income appropriation.

We are in receipt of a communication from the School Department asking us to make the same arrangements as were made last year. The buses were hired from the Metropolitan Transit Authority on a service order direct from the Park Department, and at the close of the year the City of Boston Park Department reimbursed the School Department upon presentation of paid vouchers from the Boston & Maine Railroad. This arrangement had the approval of the City Auditor. Accordingly, it is respectfully requested that we be allowed to expend from the Randidge Trust Fund Income a sum not to exceed \$1,500, for the above purpose.

This is a real worth-while endeavor and one which provides great enjoyment for underprivileged children throughout the City of Boston.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On April 26, this department issued an order, No. 308, in the sum of \$976, to the

J. M. McCusker Company, 17 Chestnut avenue, Jamaica Plain, to connect 14 drains to the sewer at the Hyde Park Municipal Building wading pool. These drains were connected to a dry well system which over the years was plugged up to such an extent that they were useless and constituted a bad health nuisance.

When this order was written it was assumed that just ordinary digging was to be encountered. On excavating it was found that reinforcing steel was employed in sections of the concrete. This area was evidently used as a dump at one time and sections of baby carriages, old automobiles, bed springs, etc., were found. It also was found that a greatly excessive quantity of crushed stone was placed in this area. All this caused a tremendous amount of labor due to extremely difficult conditions and could not be foreseen.

The labor charge to date on this order is \$720 for laborers and \$448 for plumbing, exclusive of materials, a total of \$1,168. In view of the above, I deem it equitable and proper that an adjustment be made between the city and the J. M. McCusker Company. Therefore, in order to complete this work, I propose to add to the amount of order No. 308, \$469, which will bring the amount of this work to \$1,445.

This change will bring the amount in excess of a thousand dollars and I respectfully ask your Honor to grant permission to do this without advertising.

Very truly yours,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

SUPPLY DEPARTMENT.

BOSTON, May 9, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Bids for furnishing bituminous patching materials to the Public Works Department were opened and read in this office on March 21, 1950. Each of the bidders quoted a delivered price as well as a plant price for the patching materials inasmuch as it was felt that considerable saving to the city would result by having all or part of such materials picked up at the vendor's plant in city-owned trucks. Trimount Bituminous Products Company of Everett was the low bidder, quoting a plant price of \$3.83 per ton and a delivered price of \$4.61 per ton.

After further consideration, it appeared in the city's best interest to reject these bids and readvertise, with new specifications, with a view toward awarding the contract by districts. Subsequently, the original bids were rejected. The proposals, with the change in specifications, were readvertised by districts solely on the basis of plant pickup by city-owned vehicles. All of the vendors who bid on the original proposal, as well as additional vendors, bid on the second proposal but, inasmuch as all vendors bid a uniform price of \$5 per ton for plant pickup by city trucks, these bids were also rejected.

Subsequent to rejection of the second set of bids, Trimount Bituminous Products Company, the original lowest bidder, offered to furnish the city's requirements, as per specifications of original proposal or readvertised proposal at the option of the Public Works Commissioner from time to time.

It is therefore requested to award a contract, without advertisement, until December 31, 1950, with the privilege of extending to April 1, 1951, to Trimount Bituminous Products Company

for furnishing bituminous patching materials as per prices indicated:

11,000 tons at \$3.83, \$42,130; 3,000 tons at \$4.61, \$13,830. Total, \$55,960.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 10, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Bids on proposals for furnishing valve parts to the Water Division of the Public Works Department were publicly opened and read in this office on October 10, 1949.

On October 17, 1949, the then Mayor approved an award for these materials to the Kennedy Valve Company at a total amount of \$1,953.30. Because of insufficient funds, no order was issued until November, 1949, and due to the limited time allowed the Kennedy Valve Company no delivery was made in 1949.

It is therefore requested that authority be granted me to issue a superseding order, without further advertising, to the Kennedy Valve Company, the low bidder on October 10, 1949.

Total amount of order is \$1,953.30, less a cash discount of one half of 1 per cent for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 11, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On April 28, 1950, your Honor approved the letter to award a contract for furnishing coffee to various city institutions to B. Fischer Company, New York.

Because the coffee delivered to the institutions thus far does not conform with the necessary standards, the contract with this company is being canceled. It is therefore requested that authority be granted me to purchase coffee for the various city institutions in the open market for the months of May and June.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 12, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of several requisitions from the Water Division of the Public Works Department for parts for Worthington-Gamon meters.

It is requested to award a contract, without public advertisement, to Worthington-Gamon Company, Newark, New Jersey. As this company is the only supplier, no advantage would be gained by publicly advertising for bids.

Total amount of contract will be \$2,498.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 15, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of requisitions from the Water Division of the Public Works Department for parts for Hersey meters.

It is respectfully requested to award orders to Hersey Manufacturing Com-

pany, who is the only supplier for the meters requested. Owing to this fact, no advantage will be gained by publicly advertising for bids.

Total amount of orders will be \$1,425.75.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 15, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is requested to issue an order, without public advertisement, to Photostat Service, 31 St. James avenue, Boston, for furnishing 54 rolls 14-inch photostat paper, Grade "R," to the Public Welfare Department.

The above company is the manufacturer of this particular type of paper and therefore no advantage would be gained from a public advertisement for bids.

Total amount of order will be \$1,098.36.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 15, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston City Hospital for the following:

One (1) only Type DA-75 circuit breaker, rated 2,000 amps., D.C., 2 pole, 600 volts, electrically operated dead front type without attachment.

It is respectfully requested that I be granted authority to issue an order, without public advertisement, to Westinghouse Electric Corporation, the manufacturer of the above equipment. Owing to this fact, no advantage will be gained from a public advertisement for bids.

Total amount of order will be \$1,255.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston City Hospital for the following:

Three only utensil sterilizers, 24x20x20, Monel metal.

It is respectfully requested that I be granted authority to issue an order, without public advertisement, to Wilmot Castle Company, the manufacturer of the sterilizers requested. Owing to this fact, no advantage would be gained from a public advertisement for bids.

Total amount of order will be \$1,122.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is requested to award a contract, without public advertisement, for furnishing the following to the Boston Sanatorium until December 31, 1950,

and during any extension not later than February 14, 1951:

20,000 grams dihydro-streptomycin sulfate solution, No. 555, at 63 cents a gram.

The contract in question is to be awarded to Gilman Brothers, Inc., who is the only supplier for the above, and therefore no advantage will be gained from a public advertisement for bids.

Total amount of contract will be \$12,600, less a cash discount of 2 per cent for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with Shaughnessy & Ahern Company, dated March 6, 1950, for demolition of Levetto steam engine and pump at Calf Pasture Pumping Station, from May 6, 1950, to June 6, 1950. This extension was requested for the reason that, due to the unusual nature of the work, more time was required than was anticipated.

Approval has been given for the extension of the time of completion of the contract with R. A. Buccella & Sons, Inc., dated January 25, 1950, for sewerage works in Barry park, Bismarek street, Lorna road, and Edna road, Dorchester, and Reservoir street, Hyde Park from April 25, 1950, to May 25, 1950. This extension was requested for the reason that unforeseen obstacles were encountered during the progress of the work and delays due to winter weather conditions.

CITY OF BOSTON.**PUBLIC WORKS DEPARTMENT.****PROPOSALS FOR CLEANING AND PAINTING HULL OF FERRYBOAT "CHARLES C. DONOGHUE."**

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for cleaning and painting hull of ferryboat "Charles C. Donoghue." A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Cleaning and Painting Hull of Ferryboat 'Charles C. Donoghue,'" and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 14, 1950, with a certified check for SEVEN HUNDRED (700) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,
(June 3.) Commissioner of Public Works.

the instruction assignments with regular assignments; and to perform related work as required.

Entrance Requirements: Applicants must have at least ten years of full-time paid experience in newspaper, publicity, or promotional work. Substitution: Education in a recognized college or university may be substituted year for year for the required experience up to a maximum of four years.*

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR GENERAL REPAIRS TO FERRYBOAT
"CHARLES C. DONOGHUE."

The Commissioner of Public Works of the City of Boston, office 503 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for general repairs to ferryboat "Charles C. Donoghue." A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for General Repairs to Ferryboat 'Charles C. Donoghue,'" and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 14, 1950, with a certified check for TWO THOUSAND (2,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

DEPARTMENT OF SCHOOL BUILDINGS.

TO HEATING CONTRACTORS.

INVITATION FOR PROPOSALS FOR FURNISHING AND
INSTALLING NEW H. R. T. BOILERS AND
OTHER MECHANICAL EQUIPMENT IN THE DEAR-
BORN SCHOOL, ORCHARD PARK AND CHADWICK
STREETS, ROXBURY, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for furnishing and installing new H. R. T. boilers and other mechanical equipment in the Dearborn School, Orchard Park and Chadwick streets, Roxbury, Mass.

Proposals will be received until 12 o'clock noon, Thursday, June 15, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,000, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

Subbidders bidding on the work of subcontractors shall use the proposal form prepared by and obtainable from the Awarding Authority.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, June 12, 1950.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the amount of his bid, shall be submitted by each subbidder with the copy of his proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A deposit of a certified check in the sum of \$25, payable to the City of Boston, will be required in order to procure a complete set of plans and specifications. This deposit shall be returned, providing that all plans and specifications are returned in satisfactory condition within ten days after opening of bids.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

Plans and specifications will be ready Tuesday, June 6, 1950.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

PARK DEPARTMENT.

PROPOSALS FOR ERECTING WIRE FENCES AND FENCE REPAIRS AT THE ANIMAL RANGES, FRANKLIN PARK ZOO.

The Park Commissioners of the City of Boston, 33 Beacon street, invite proposals for erecting wire fences and fence repairs at the animal ranges, Franklin Park Zoo. Forms of proposals must be obtained at the engineer's office of the Park Department, 33 Beacon street. Each proposal should be signed by the bidder and inclosed in an envelope, sealed and marked "Proposal for Erecting Wire Fences and Fence Repairs at the Animal Ranges, Franklin Park Zoo," and left before 2 o'clock P.M. on Tuesday, June 13, 1950, at the office of the Park Department with a certified check for \$400, payable to and to be the property of the City of Boston if the proposal is not carried out, and will then and there be publicly opened and read. A duplicate proposal, without check, must be deposited with the City Auditor previous to the time named for opening the bids. A bond will be required for doing the work in the sum of 100 per cent of the estimated contract price. The rate per hour of the wages to be paid to mechanics, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Park Commissioners. The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of said contract. The Commissioners reserve the right to reject any or all proposals.

MAYOR HYNES APPROVES FOUR OFF-STREET PARK- ING SITES CHOSEN AND RECOMMENDED BY THE BOARD OF REAL ESTATE COMMISSIONERS—TWO IN DOWNTOWN BUSINESS AREA.

Mayor Hynes has approved the decision of the Board of Real Estate Commissioners to locate off-street parking facilities in four downtown sections. The communication from the Board naming the sites which the Mayor has approved reads as follows:

BOSTON, May 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Enclosed is a copy of vote of the Board of Real Estate Commissioners in the matter of off-street parking, taken at a meeting held on April 18, 1950.

The locations enumerated therein have already been approved by the Boston Traffic Commission and the City Planning Board.

Your approval of the action of the Board is respectfully requested.

Very truly yours,

HERMAN CAEP, *Chairman.*

REPORT OF DR. FREDERICK J. GILLIS, ASSISTANT SUPERINTENDENT OF PUB- LIC SCHOOLS, ON ATTEND- ANCE AT 1950 CONVENTION OF THE AMERICAN ASSO- CIATION FOR HEALTH, PHYSICAL EDUCATION, AND RECREATION IN DALLAS, TEXAS.

The following is the report of Dr. Frederick J. Gillis, Assistant Superintendent, on attendance at the 1950 convention of the American Association for Health, Physical Education, and Recreation, held in Dallas, Texas, April 17 to 22:

The convention speakers stressed the need of cooperation on the part of all the agencies dealing with the health, recreation, and physical education of the school child. Dr. Carl L. Nordly, President of the Association, stressed this theme at the opening meeting of the convention. The featured speaker of this meeting, Mrs. Rollin Brown, California Recreation Commission, Los Angeles,

MAYOR JOHN B. HYNES ISSUES NEW REVISED REGULATIONS TO GOVERN SICK LEAVE, VACA- TIONS, AND OVERTIME FOR CITY EMPLOYEES —CIRCULAR LETTER OUTLINING RULES TO BE FOLLOWED PASSED ON TO HEADS OF DEPARTMENTS—GENERAL DISTRIBUTION TO BE THROUGH PAYROLL DIVISION OF THE AUDITING DEPARTMENT—POLICE AND FIRE DEPARTMENTS, SCHOOL TEACHERS, AND THOSE WITH HIGH SALARIES NOT INCLUDED, EXCEPT AS SPECIFIED.

Mayor John B. Hynes has issued to the heads of departments and through them has had passed on to the city employees a revised set of regulations to govern the matter of vacations and sick leave. The matter of regular and overtime services also has been redefined. The circular letter embodying the new regulations reads as follows:

CIRCULAR LETTER NO. 13.

Boston, May 10, 1950.

TO THE HEADS OF ALL CITY DEPARTMENTS.

GENTLEMEN:

The following rules and regulations relative to the regular service, the overtime service, the sick leave, and the vacation leave of employees of the City of Boston are hereby promulgated, to supersede, effective as of January 1, 1950, the rules and regulations promulgated in Circular Letter No. 1 of February 1, 1949, and in Circular Letter No. 4 of August 8, 1949, and any and all other rules and regulations heretofore promulgated relative to the regular service, the overtime service, the sick leave, and the vacation leave of such employees.

JOHN B. HYNES, *Mayor.*

Regular and Overtime Service.

RULE 1. The service (hereinafter called regular service) of all employees of the City of Boston shall be restricted to eight hours in any one day and five days in any one week; provided, however, that, in cases of emergency, when the Budget Commissioner determines that public necessity so requires, which determination shall be final and conclusive, service in excess of the hours and days aforesaid may be authorized by the person (hereinafter called the department head) whose duty it is to employ, direct, or control the employee. When an emergency arises, the department head shall communicate immediately with the Budget Commissioner, who shall determine forthwith whether public necessity requires service in excess of the hours and days aforesaid, hereinafter called overtime service.

RULE 2. Any day or portion thereof constituting part of the employee's vacation or sick leave shall be included in computing the employee's regular service. Meal periods actually taken shall not be included in computing either regular or overtime service. The word "week," as used in these rules, shall be construed to mean any period beginning with a Wednesday and ending with the following Tuesday.

RULE 3. In any department (or division thereof) which regularly operates on Sunday, the first eight hours of authorized overtime service rendered on any day other than days constituting part of the employee's

MAYOR ISSUES CIRCULAR LETTER IN REGARD TO SICK LEAVE, VACATION, AND OVERTIME PAYMENT FOR CITY EMPLOYEES.

(Continued from page 545.)

regular service shall be compensated for on a straight-time basis, and all other authorized overtime service shall be compensated for on a time and one-half basis.

In any department (or division thereof) which does not regularly operate on Sunday, the first eight hours of authorized overtime service rendered on any day other than Sunday and other than days constituting part of the employee's regular service shall be compensated for on a straight-time basis, and all other authorized overtime service shall be compensated for on a time and one-half basis.

RULE 4. If, in the course of his regular service, an employee is required to work on a legal holiday, he shall be given an additional day off or, if such additional day off can not be given by reason of a personnel shortage or other cause, he shall be entitled to an additional day's pay on a straight time basis. An employee who, through a rotation of shifts, works different days in successive weeks shall be granted, in each year in which the number of holidays falling on his regular days off is in excess of the number of holidays in such year falling on Saturday, additional days off equal to the excess.

SPECIAL SERVICES EXEMPTED.

RULE 5. Rules 1 to 4, inclusive, shall not apply to policemen, firemen, school teachers, incumbents of offices specifically established by or under the authority of any general law or special act, or to any person on the payrolls of the Fire Alarm Division of the Fire Department, or to any person who is compensated for his regular services on an annual salary basis of \$3,400 or more, or on a weekly salary basis of \$65 or more.

RULE 6. If the appointing authority, with the written approval of the Mayor, determines that the position held by any person (other than a policeman, a fireman, a school teacher, the incumbent of an office specifically established by or under the authority of a general law or special act, or a person on the payrolls of the Fire Alarm Division of the Fire Department) who is excluded by Rule 5 from the operation of Rules 1 to 4, inclusive, is such as to warrant compensation for overtime, said person shall be compensated for overtime service on the basis set forth in Rules 3 and 4, provided, however, that no person whose salary is fixed by statute or ordinance, nor any person who is compensated for his regular services on an annual salary basis of \$5,000 or more, or on a weekly salary basis of \$96 or more, shall, under any circumstances, be compensated for overtime service.

VACATION LEAVE.

RULE I. The length of an employee's vacation leave is to be determined by reference to the governing statute (sections 111 and 111E of chapter 41 of the General Laws, as most recently amended by chapter 475 of the Acts of 1949), the provisions of which may be summarized as follows:

(a) Every vacation shall be taken at such time as, in the opinion of the head of the department, will cause the least interference with the regular work of the department.

(b) All permanent Civil Service employees, as well as persons classified as laborers, mechanics, or craftsmen,

who have actually worked for the City of Boston for thirty weeks in the aggregate during the preceding calendar year, shall be granted during the calendar year a two weeks' vacation.

(c) If the employment of any such employee is terminated during a calendar year, through no fault or delinquency on the employee's part and without the employee having been granted such two weeks' vacation, the employee or his beneficiary is entitled to receive a cash payment in lieu of such vacation; provided, that no monetary or other allowance has already been made therefor. The word "beneficiary" means any surviving person lawfully designated by the employee under the retirement system of which he is a member, or, if there be no such designated beneficiary, the estate of the deceased.

RULE II. Department Heads may grant additional annual vacations as follows:

For employees who prior to the commencement of the calendar year have completed ten, but less than twenty years of service, one week in addition to the vacation required by the governing statute.

For employees who, prior to the commencement of the calendar year, have completed twenty or more years of service, two weeks in addition to the vacation required by the governing statute.

An employee may secure the benefit of these additional vacation provisions only during active service; and no rights shall accrue to an employee in the event of the termination of the employment before the additional vacation has been actually taken.

RULE III. Provisional or temporary employees, except those classified as laborers, mechanics, or craftsmen, have no statutory vacation rights.

RULE IV. Neither under the governing statute nor under this executive order can vacation leave be accumulated beyond the end of a calendar year.

RULE V. Department heads shall enter on departmental payrolls, with appropriate notations, all vacation periods and all payments in lieu of vacations made after the employment of an employee is terminated.

SICK LEAVE.

RULE A. Every employee of the City of Boston (including every provisional and temporary employee) who has completed six months of continuous service shall be granted leave, without loss of pay, for absence caused by sickness, injury or exposure to contagious disease or by the serious illness or death of a mem-

ber of the employee's family; provided, however, that, except when accumulated as hereinafter provided, such leave shall not aggregate more than fifteen working days in any year. Such leave not used in any year may be accumulated up to, but not exceeding, ninety days for use in a subsequent year. Such leave not used prior to the termination of an employee's service shall lapse; and the employee shall not be entitled to any compensation in lieu thereof. The sick leave provided by this executive order shall be in the alternative for, and not in addition to, the sick leave provided by section 111B of chapter 41 of the General Laws.

RULE B. Every employee, to be entitled to leave without loss of pay, shall notify his immediate supervisor of his absence and the cause thereof before the expiration of the first hour of absence or as soon thereafter as practicable. For periods of absence for five consecutive working days or more, the appointing authority may require evidence in the form of a physician's certificate for the necessity of such absence, or, if the cause of the absence is such as not to require the services of a physician, a written statement, signed by the employee, setting forth the reason for the absence. Where such certificate or statement is requested, the employee shall not be entitled to pay for his absence until such certificate or statement is filed.

RULE C. Every person in the employ of the City of Boston on January 1, 1950, shall be deemed to have an accumulated sick leave credit equal to the accumulated sick leave credit which he would then have had if this executive order had been in force continuously since the commencement of his employment. Such accumulated credit shall be computed by multiplying by fifteen the number of years of service completed by such person prior to January 1, 1950, and deducting therefrom all leave with pay for any of the reasons stated in Rule A, during such person's entire employment; provided, however, that such accumulated sick leave credit shall in no event exceed ninety days.

RULE D. The Medical Advisor to the Workmen's Compensation Agent, with offices in the Public Works Department, will examine any employee absent for sickness or other cause when, in the opinion of the appointing authority, such examination is desirable. Requests for such examination should be made directly to the Medical Advisor by the appointing authority.

RULE E. The head of every department shall enter on each departmental payroll, with appropriate notation, all sick leave allowances used during the payroll period either under this executive order or under section 111B of chapter 41 of the General Laws.

AMENDED DAMAGES.

The Mayor has approved the following vote of the Board of Street Commissioners:

Voted, That the order of the Street Commissioners and Mayor of September 2, 1949, as amended, determining damages caused by the making of the public improvement consisting of the laying-out of Lombard street, be, and the same hereby is, amended, by adding to said order the amount \$329.60 as an award to Julia A. Meier; that the amount \$329.60 be, and the same hereby is, awarded to Julia A. Meier for the damages so sustained.

REPORT OF DR. FREDERICK J. GILLIS

(Continued from page 545.)

talking on the topic, "Roundup of Community Agencies," analyzed the necessity of such cooperation, and the means taken in Los Angeles to initiate and develop a coordination of school department, park department, health department, and other agencies, to avoid waste or duplication of effort. Particularly was it stressed that the individual members of the community, the common citizens, who through their taxes pay all the bills, must be kept informed of the needs of the community, the plans for fulfilling the needs and the expense involved in achieving the object.

In discussion, it was brought out that in newer communities where space is available, it is customary for the school department, in planning a new school, to consult with the park department so that the park department may secure a site adjoining the proposed school property, thereby providing recreational opportunities adjoining the educational plant. The advantages of this are obvious. The difficulties involved in such joint action in older communities where space is at a premium are also obvious. This theme was further considered in the section meetings from the standpoint of the community, the superintendent of schools, the college administrator, the parent, the pupil, the health educator, the recreational director, and the state director of health and physical recreation.

The subject of recreation was considered from the standpoint of the community, the state department of education, the voluntary agencies, the institutions and industry, the radio, and the television. New technological advances in radio and television and a boom in spectator sports were praised, but parents should be cautioned that vigilance is necessary to prevent children from succumbing to the modern-day disease of "spectatoritis." Growups as well as children should participate in sports rather than merely become passive spectators.

For the child—running, jumping, and other outdoor activities several hours each day were advocated. For the mature, the question was posed, "Why prolong life if late years and retirement are to be monotonous and individuals are to be bored with existence?" Most of the recreational patterns of adults have their roots in childhood, and these roots are planted through doing things, not just by being spectators. Contrasting the interest of men in sports—to become professionally competent, if possible—the attitude of girls entering sports is for semiprivate participation. The National Section on Women's Athletics attempts to serve sports leaders by setting standards, publishing rule books, and rating women officials.

The convention delegates favored Federal aid without Federal control, and passed the same resolution that the nation's school administrators adopted at a meeting in March. Passage of two bills now before a House Committee was favored: one bill would pour \$300,000,000 of Federal money into school building construction to meet a national urgency; the other bill would set up a national minimum foundation program for public schools.

Dr. Homer P. Rainey, President of Stevens College, Columbia, Missouri, listed three possible solutions to keep 3,000,000 young people off the labor market as a social responsibility, since older people must be hired first. The proposals were (1) keep youths in school longer; (2) draft them; (3) revive the CCC camps. His recommendations were not unanimously endorsed.

It was advocated that health instruction and health services be more closely integrated. What the children learn about health must be practiced if they are going to be healthier, happier people because of having been in school. Physical education is just like any other education. It is pointed toward the complete development of the child. In the immediate future the delegates saw a world where recreation will be more important than it is now because the people will have a shorter work week.

The joint committee on athletic competition for children of elementary and junior high school age recommended that physical education for these children should stress a well-rounded program, interesting and extensive, with intramural competition, supplemented by sports days and play days. But this same committee did not recommend highly organized competitive athletics in the lower schools in order to send trained athletes into high school teams. The topics discussed ranged from modern dance techniques to pneumograph, respirograph, and oximeter controls in breath holding tests.

The association adopted the report of a three-year survey of controversial sports questions of grave concern. The report was made by a joint committee representing the nation's state high school athletic associations, the National Association of Secondary School Principals, and the American Association for Health, Physical Education, and Recreation.

The program provides:

1. Prohibition of the use of school facilities and staff members in all-star or post-season games except on approval of the state athletic association.

2. Schools would not permit employees to encourage negotiations which might lead to students turning professional.

3. Solicitation of players by colleges would be considered "unethical and unprofessional. It destroys the amateur nature of athletics, tends to commercialize the individual and the program, promotes the use of athletic skill for gain, and takes unfair and unjust advantage of competitors."

4. No contests for national high school championships in any sport would be allowed. Basketball tournaments for interstate championships could be held only if they were "purely community in character."

5. Each state athletic association would try to work out a plan that would provide continuous eligibility from high school to college.

6. No school would take part in a contest involving more than two schools without approval from the state high school athletic association.

The committee also recommended an eligibility code for high school athletes. Ineligibles would be those who:

1. Have reached their twentieth birthday.

2. Have attended a four-year high school, eight semesters, or a senior high school, six semesters.

3. Have failed during the season in three full subjects per week, or who failed at the end of the previous semester. The school records would be final.

4. Took part after joining a high school squad, in an independent contest where admission was charged.

5. Transferred to another school without a change in his parents' residence.

6. Transferred because of undue influence by anyone connected with the school.

7. Accepted sweaters, jerseys, or any award worth more than one dollar outside the range of regular school insignia.

The schools, in turn, would not permit coaching by anyone except a certified

teacher, paid in full by the board of education which hired him.

Visits to Dallas schools revealed that in physical education—the time allotment, indoor and outdoor instruction, intramurals, credit, grading, scheduling of classes, and courses of study—every attempt is being made to secure maximum health and physical education goals through ample supply of teachers and generous time allotment.

Inspection of the school lunch program of Dallas revealed that the 72 lunchrooms in 1948-1949 served 1,418,177 plate lunches, and the children consumed 2,415,805 half pints of milk, an average of 14.125 per day, in a system of about 60,000 pupils.

The next convention of the association will be held in Detroit in 1951, and in Los Angeles in 1952.

OFF-STREET PARKING.

(Continued from page 545.)

At a meeting of the Board of Real Estate Commissioners of the City of Boston, duly held on April 18, 1950, at 2 P.M., it was determined and unanimously

Voted, That under chapter 474, section 1, clause (a), of the Acts of 1946, the following locations in the City of Boston be and hereby are determined to require public off-street parking facilities:

1. The area bounded by Arlington street, Dartmouth street, Columbus avenue, and Newbury street in the City of Boston.

2. The area bounded by Park Drive, Boylston street, Bay State road, Charlesgate West, Blandford and Sherborn streets in the City of Boston.

3. The area bounded by Congress, Union, Sudbury, Cambridge, Bowdoin, Beacon, School, and Water streets in the City of Boston.

4. The area bounded by Causeway, Nashua, and Leverett streets in the City of Boston.

JOSEPH B. BURKE,
Secretary of the Board.

PERSONS OVER 65 YEARS OF AGE NEED NOT PAY POLL TAX — MAYOR INFORMS CITIZENS.

The following information has been made public by the office of the Mayor:

I am informed that many persons in Boston, over 65 years of age, who feel unable to pay their annual poll tax, are not taking advantage of their right to be exempted from the payment of the annual poll tax.

Poll tax bills being sent out are accompanied with a card for persons over 65 years of age to fill out and file with the Board of Assessors. Once this is done, the City of Boston then knows that the person is over 65 and is exempt from further poll tax payments. Unless the card is filled out and filed with the Board of Assessors, the city has no means of knowing the age of the person to whom the bill is sent.

Therefore, I most earnestly request all persons over 65 who get such a card with their poll tax bill to fill it out and file it in accordance with the instructions on the card.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made:

BOSTON TRAFFIC COMMISSION.

Permission has been given to extend the employment of the following-named traffic investigators at \$2,500 a year:

Upon varying dates as indicated the Mayor approved contracts with commercial houses, contractors, etc., for furnishing labor, supplies, and other materials. Communications from the heads of the various departments interested were as follows:

LIBRARY DEPARTMENT.

BOSTON, May 24, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On April 6, 1950, the Trustees of the Public Library of the City of Boston entered into a contract with the John F. Griffin Company, 238 Main street, Cam-

bridge, Mass., for the erection and completion of a branch library building on Adams street, in Dorchester, at a cost of \$57,300. The John F. Griffin Company had been the lowest qualified bidder amongst 14 bidders in the general bidding for this work.

In the final form of the specifications for the erection of this structure certain items were omitted because Mr. Richard Shaw, the architect for this work, believed that the over-all figures submitted for the complete job would exceed the amount of money allotted for this purpose. The items which were omitted from the specifications are as follows:

1. Services of a watchman.
2. Finish grading and walks.
3. Steel reinforcement of concrete blocks.
4. Installation of bookcases.
5. Installation of kitchen cabinet.
6. Installation of metal lockers.
7. Installation of folding partitions.
8. Installation of work room cabinets.

In addition, the Building Department of the City of Boston has since requested that certain toilet vents and rain water drainage be installed.

All of the above-stated work and expense is necessary and incidental to the work and essential to properly perform the aforesaid project. The total cost of doing the work will amount to \$13,511. The architect has carefully examined the breakdown of the costs as submitted by the John F. Griffin Company for the individual items and has stated that the proposed total addition to the cost of the contract is reasonable and not excessive. The trustees have likewise examined the figures and believe them to be not excessive for the work involved. In view of the foregoing, and as funds are available to do the said extra work, action has been taken by the Board to authorize amending the contract, and without further advertising, in the amount of \$13,511, subject to your Honor's approval.

Your permission is therefore respectfully requested to amend the contract with the John F. Griffin Company, and without further advertising, in the amount of \$13,511, to cover the cost of the said additional work, thereby making the new contract price in the sum of \$70,811.

Respectfully yours,

THE TRUSTEES OF THE PUBLIC LIBRARY
OF THE CITY OF BOSTON,
by FRANK J. DONAHUE, President.

Re: Dorchester Branch Library Job.

GENTLEMEN:

We agree to have added to our contract the following items and amounts, which were omitted from the work to be done by notice (M), page iiii of the contract form, as hereinafter listed, together with toilet ventilation and roof drainage system requested by the Building Department:

1. Specification, page 8, Protection \$778
2. Specification, page 12, Finish Grading and Walks 1,672
3. Specification, page 29, Reinforcement 295
4. Specification, page 37, Bookcases 6,370
5. Specification, page 38, Kitchen Cabinet 768

6. Specification, page 38, Metal Lockers \$298
7. Specification, page 38, Folding Partition 778
8. Specification, page 39, Work Room Cabinets and Sink 404

In addition—the following as requested by the Building Department:

Toilet vents and roof drainage system complete \$2,148

Very truly yours,

JOHN F. GRIFFIN COMPANY,
by ARTHUR T. MONAHAN, JR.

Approved:

RICHARD SHAW, Architect.

PARK DEPARTMENT.

BOSTON, May 24, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

During the last few years, at different times, it has been necessary for this department to spray the elm trees located throughout the city. It is vitally important that we start spraying these trees at once. Our inspection shows that in order to offset any infestation from the elm beetle that this work should be done now.

The Superior Tree Service, Inc., have the proper equipment for doing this work, namely, two hydraulic sprayers in which the arsenate of lead is placed and then blown through the pressure hose in a forced air stream. The work under the contract will be paid for on the basis of \$11 an hour for the truck, sprayer, driver of the truck and the necessary operators of the sprayers. The arsenate of lead to be used in the sprayers is to be furnished by the Park Department. We feel that these unit prices are fair and that this is the only way to award a contract for spraying the trees in a city like Boston.

Accordingly, we would like to award a contract, without advertising, to The Superior Tree Service, Inc., 15 Littlejohn street, Arlington, Mass., as this company has the proper equipment and personnel for doing this work, and we feel that nothing can be gained by advertising for bids.

The cost of the work is not to exceed \$5,000, and will be charged to B-42, Park Department budget.

Respectfully yours,

FRANK R. KELLEY, Chairman.

PUBLIC BUILDINGS DEPARTMENT.

BOSTON, May 25, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Under an oral agreement with this department, the Federal National Linen Service Company has been furnishing hand towels to all offices in City Hall Annex and to the Auditor's office, City Hall. The agreement calls for the delivery of approximately 950 towels a week.

The towel service already given by the company has proven satisfactory and in my opinion nothing could be gained by publicly advertising for bids for this type of work.

In view of the above, I respectfully request permission to issue orders to the Federal National Linen Service Company, in an amount not to exceed \$1,820, without the usual form of advertising.

Respectfully,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

METROPOLITAN TRANSIT AUTHORITY.
PUBLIC TRUSTEES.

BOSTON, June 8, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In accordance with the recommendation contained in your letter of June 1, 1950, a contract has been prepared providing for building foundations and performing required renovating and repairing of twenty-one (21) dwelling units to be relocated in East Boston with Giustina & Johnson Company, and accordingly the Metropolitan Transit Authority, acting as agent of the City of Boston under and in accordance with the provisions of the Acts of 1947, chapter 544, section 8A(h), as inserted by the Acts of 1949, chapter 572, section 3, and under and in accordance with the provisions of Acts of 1949, chapter 191, as amended, requests your permission to dispense with public advertising in making a contract with Giustina & Johnson Company for building foundations and performing required renovating and repairing of twenty-one (21) dwelling units to be relocated in East Boston, as authorized by the Acts aforesaid, and for the payment to said company of the sum of \$125,722, or such other price as may be agreed upon in the progress of the work by the issuance of change orders duly approved.

Giustina & Johnson Company will furnish all labor, material, and equipment required for building foundations and performing required renovating and repairing in accordance with plans and specifications.

The subject matter of this proposed contract is the same as that covered by my letter to you of April 17, 1950, which received your approval on April 28, 1950, with the exception that the now proposed contract covers twenty-one (21) dwelling units rather than sixteen (16), as indicated in my letter of April 17, 1950, together with the fact that in some instances it has been necessary to change locations. The Giustina & Johnson Company on the basis of the proposed contract still remains the low bidder.

The Trustees have passed a vote authorizing me to make this request and to execute an appropriate contract which, in its final form, will require your approval.

Respectfully yours,

METROPOLITAN TRANSIT AUTHORITY,
by EDWARD DANA,
General Manager.

BOSTON, June 8, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Metropolitan Transit Authority, acting as agent of the City of Boston under and in accordance with the provisions of the Acts of 1947, chapter 544, section 8A(h), as inserted by the Acts of 1949, chapter 572, section 3, and under and in accordance with the provisions of Acts of 1949, chapter 191, as amended, requests your permission to dispense with public advertising in making a contract with the Associated Building Movers, Inc., for moving twenty-one (21) dwelling units in East Boston from their present location to new lots of land, as authorized by the Acts aforesaid, and for the payment to said corporation of the sum of \$61,725, or such other price

as may be agreed upon in the progress of the work by the issuance of change orders duly approved.

The subject matter of the proposed contract is the same as that contained in my letter to you of March 29, 1950, published in the *City Record* of Saturday, April 29, 1950, Volume 42, number 17, pages 386 and 387, except that the number of buildings to be removed has been reduced to twenty-one (21), and in some instances it has been necessary to change locations.

The Trustees have passed a vote authorizing me to make this request and to execute an appropriate contract which, in its final form, will require your approval.

The Associated Building Movers, Inc., are particularly well qualified and equipped for moving houses. They have the only machine in this part of the country capable of moving a house. This is the concern that moved all of the houses in connection with the construction of the Mystic River Bridge. By the use of their special equipment they are able to move a house far cheaper than by other methods. The machine can be used in such a manner that no occupant of any dwelling unit being moved is required to remove his belongings from the building at any time, nor need he vacate the premises for a period in excess of twelve hours.

In view of the special qualifications of the Associated Building Movers, Inc., for moving houses, no benefit would be gained by publicly advertising for bids.

Respectfully yours,

METROPOLITAN TRANSIT AUTHORITY,
by EDWARD DANA,
General Manager.

SUPPLY DEPARTMENT.

BOSTON, May 29, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Automotive Division of the Public Works Department for the following:

One (1) flexible sewer roder with tools as listed on requisition.

It is respectfully requested to award a contract, without public advertisement, to John F. McDermott Company, who is the only supplier for the equipment requested. Owing to this fact, no advantage could be gained from a public advertisement for bids.

Total amount of contract will be \$3,842.85.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Fire Department for the following:

Three hundred only, all-service gas mask canisters.

It is respectfully requested to issue an order to American-LaFrance-Foamite Corporation without public advertisement. Since prices on the above equipment are regulated by the manufacturer, all suppliers would submit identical prices and therefore no advantage could be gained by publicly advertising for bids.

Total amount of order is \$1,800, less 2 per cent cash discount for payment within thirty days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, May 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Municipal Court for one (1) prison van.

It is respectfully requested to award a contract, without public advertisement, to Jackson Chevrolet Company. This concern has built several patrol wagons for the Boston Police Department and is equipped to do a speedy and first-class job.

Jackson Chevrolet Company can make delivery within a month, and since the van now in use is over twelve years old and in a very poor condition it is most essential that it be replaced as soon as possible. In my opinion, no advantage will be gained from a public advertisement for bids.

Total amount of contract will be as follows:

One (1) prison van, \$3,300, less taxes; less allowance on 1938 Federal van, \$500; net total delivered price, \$2,800.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with Michael Racioppi for alterations at the Wyman School, from June 1, 1950, to July 15, 1950. This extension was requested because of a delay in finishing fire escapes.

Approval has been given for the extension of the time of completion of the contract with Ferris & Mahoney Company for plumbing and gas work at the English High School, from May 1, 1950, to June 15, 1950. This extension was requested because of a delay of materials.

Approval has been given for the extension of the time of completion of the contract with Martin J. Kelly Company, Inc., for alterations at the Teachers College, from June 1, 1950, to September 1, 1950. This extension was requested because of a delay in securing and installing folding partitions.

HOSPITAL DEPARTMENT.

Approval has been given for an extension of time from May 31, 1950, to July 25, 1950, on contract of John Rugo, for additions and alterations to Administration Building, Boston City Hospital; said contract having been approved October 31, 1949. This extension was requested because of delay due to severe weather conditions during the months of February and March.

INSTITUTIONS DEPARTMENT.

Construction Units, Inc., have been ordered to make the following change in the date of the contract for the incinerator at the Long Island Hospital, dated October 4, 1949:

The date for completion of the contract is hereby extended to June 10, 1950.

There will be no change in the contract price.

May 8, 1950.

City of Boston, Care of John M. Gray Company, 175 High Street, Boston, Mass.

Re: Incinerator Building, Long Island, Boston.

GENTLEMEN:

We respectfully request an extension of time on our contract for construction of the Incinerator Building at Long Island, Boston Harbor, until June 10, 1950. This extension of time is necessary because of a few minor extras now under consideration.

Very truly yours,

CONSTRUCTION UNITS, INC.,

CHANGES IN CONTRACT.**BOSTON HOUSING AUTHORITY.**

Construction Units, Inc., have been ordered to correct the deficiency of hot water supply in each of the seven boiler rooms at the veterans' housing development, Arborway, at Morton street. In that it has been found that the condensate in the steam coils to hot water storage tanks is interfering with the inflow of steam that heats water to the required temperature, it will be necessary to omit and by-pass the condensate return direct to the boilers and introduce same by means of a trap into condensate pump and receiver. The above work is to be done as per the directions of the architect for the sum of \$303.78. Refer to breakdown cost estimate dated April 17 and letter of explanation from the architect dated April 14.

An equitable adjustment of the contract price and the contract time is established as follows: The contract price is increased \$303.78, from \$1,448,922.22 to \$1,449,226; the contract time is not extended.

April 14, 1950.

CONSTRUCTION UNITS, INC., 294 Washington Street, Boston, Mass.

Subject: Veterans' Housing Development, Arborway, at Morton Street, Domestic Hot Water Heating.

Attention: Mr. Charles Mogavero.

DEAR SIR:

It has been recently reported to me and determined that the hot water facilities at the above job are not sufficient to satisfy the demand. Upon checking the condition it was found that the condensate in the steam coils is piling up and interfering with the inflow of steam to the hot water tanks, and consequently is preventing the water from being heated to the required temperature.

In order to correct the situations in each of the seven boiler rooms, it will be necessary to reconnect the condensate return so that it will pass through the condensate pump and thus be forced into the boilers in the same manner as the rest of the condensate throughout the buildings.

It is my understanding that your heating subcontractor has been contacted relative to the subject and that he has made an estimate which approximates \$275 for the extra work involved.

In that this work must be done within your contract, would you be so kind as to send me a complete quotation in breakdown form so that I may issue a Change Order in the usual manner for the work to be done, as it is important that this detail be attended to just as quickly as possible. Please submit quotation in seven-copy form.

Very truly yours,

ROBERT W. BLAISDELL, Architect.

INSTITUTIONS DEPARTMENT.

Construction Units, Inc., have been ordered to make the following changes in the contract dated October 4, 1949, for the Incinerator Building, Long Island Hospital:

Furnish and install hot water and steam lines to can washer and removable pipe rail around feeder on main floor for the sum of \$1,442.60; furnish and install additional control on upper floor to permit shutting off oil burner, for the sum of \$41.80; remove present door to morgue and install new door, for the sum of \$245; total, \$1,729.40.

The above work in accordance with your quotation dated April 24, 1950.

Summary of Contract: Original contract, \$53,263; change order No. 1, add \$116.30—\$53,379.30; change order No. 2, add \$1,729.40; total amount of contract to date, \$55,108.70.

OMIT AND SUBSTITUTE WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

National Contractors Company, Inc., has been directed to omit and substitute the following work under the contract for laying sheet asphalt pavement in Buttonwood street, Hinckley street, Morrill street, Rowell street, and Wilbur street, dated October 28, 1949.

Items ordered: In Hinckley street omit approximately 500 cubic yards of earth excavation at 50 cents (Item 2A); 1,200 square yards of bituminous macadam base at 90 cents (Item 5); 1,200 square yards of asphalt binder and surface layer at \$1.20 (Item 7A), and substitute approximately 120 tons of asphalt binder at \$7 per ton and 1,200 square yards of asphalt surface layer at 75 cents per square yard.

In Morrill street, omit approximately 500 cubic yards of earth excavation, 1,200 square yards of bituminous macadam base, 1,200 square yards of asphalt binder and surface layer, and substitute approximately 120 tons of asphalt binder at \$7 per ton and 1,200 square yards of asphalt surface layer at 75 cents per square yard. Estimated decrease in cost, \$2,060.

ADDITION TO CONTRACT.**FIRE DEPARTMENT.**

Approval has been given for the following addition to the contract of J. A. Singarella Company, dated December 7, 1949, for the erection of a new fire station, Engine 56, East Boston:

Addition, No. 1, furnish labor and material for installation of 3-inch fire alarm conduit from electric work to outside man-hole; and also install house-alarm outlet with 2½-inch conduits in boiler room, \$327.80.

Original contract, \$126,790; total contract with addition No. 1, \$127,117.80.

The additional conduit is necessary for the installation of fire alarm cables since this fire station will serve as a junction and testing point for a number of fire alarm signal circuits.

The foregoing work was not included in the original contract but the installations are necessary for a proper operation of the fire alarm circuits.

OMIT WORK UNDER CONTRACT.**PUBLIC WORKS DEPARTMENT.**

Central Construction Company has been directed to omit the following work under the contract for laying sheet asphalt pavement in Archdale road, Biltmore street, Malcolm road, Seaverns avenue, and Whitecomb avenue, dated November 23, 1949.

Items ordered: Omit all work in that part of Archdale road, between Washington street and a point 623 feet southeasterly and thence south of Washington street. The Boston Housing Authority is planning the construction of a housing development in that section of Archdale road. Estimated cost of omitted work, \$6,972.40.

MOTOR VEHICLE TRAFFIC, FRANKLIN PARK.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of May 8, 1950, concerning the enforcing the regulations barring motor vehicle traffic in the various roadways in Franklin Park.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, May 15, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:
I am in receipt of a memo from your office with attached enclosure, City Council order, dated May 8, requesting that the regulations be enforced of barring motor vehicle traffic in the various roadways in Franklin Park.

We have signs placed at all the various roadways in Franklin Park in order that these areas will be barred to motor vehicles, and we have had it reported to us from time to time that vehicles do run over these roads where they are not allowed to operate.

We do all we can to stop it but it really is a Police Department matter. I notice from the order that you have written the Police Commissioner. I am sure he will give this matter his prompt attention.

Very truly yours,
FRANK R. KELLEY, Chairman.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of May 8, 1950, concerning the repairing of the wooden seats of the South Boston stadium and to cover the run down cinder track with loam so that baseball players shall not be sustaining injuries by reason of twisting their ankles on said cinders; and that the soft ball and hard ball diamonds along with proper backstops be laid out and constructed on Columbus Park.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, May 15, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:
I am in receipt of a memo from your office with attached enclosure, City Council order, dated May 8:

"Ordered, That the Park Commission, through his Honor the Mayor, be requested to repair the wooden seats of the South Boston stadium and to cover the run down cinder track with loam so that baseball players shall not be sustaining injuries by reason of twisting their ankles on said cinders; and be it further

"Ordered, That the soft ball and hard ball diamonds along with proper backstops be laid out and constructed on Columbus Park."

I am taking steps to have the conditions corrected, which according to Councilor Linehan exist at Columbus Park.

In fact, we have been rehabilitating this area for the last few weeks.

AMOUNT ACCRUED IN RETIREMENT SYSTEM.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Secretary and Executive Officer of the Boston Retirement Board relative to your order of May 8, 1950, concerning the possibility of notifying the members of the Retirement System as to the amount accrued to the individual member of said system and to determine also the possibility of making such announcements by July 1 of 1950.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Boston Retirement Board,
May 18, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:
The Retirement Board is in receipt of an order of the City Council relative to the possibility of notifying each member of the several retirement systems on or before July 1, 1950, of the accrued amount of his contributions.

Up to January 1, 1946, it has been the practice of the Board to furnish such information annually. However, since that date the new State-Boston System was established and three periods of interchange of membership among the various systems have been provided. For more than three years and a half the contributions of most of the employees have fluctuated for some portion of the time between 4 and 5 per cent per annum, and the interest credited has varied between 4 per cent and 2½ per cent.

Until the membership is definitely settled, it is useless to attempt to complete accurately the calculations required for the separate accounts of the 18,000 members of the system, and a further element of delay is involved by the requirement that the individual accounts be verified by the Insurance Department of the Commonwealth.

Under these conditions, it is obviously impossible to comply with the request contained in the City Council order.

The Board hopes to be in a position to furnish each member of the systems with a statement of his account as of January 1, 1951, sometime during that year, and, in the meantime, a member who requires the information for some particular reason may obtain an approximate figure by applying at the Retirement Board Office.

Respectfully,
W. D. KENNEY,
Secretary and Executive Officer.

FEES FOR LOADING ZONE PERMITS.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1950.
To the City Council.
Gentlemen:

Transmitted herewith is a self-explanatory letter received by me this day from the Chairman of the Boston Traffic Commission concerning the fees for loading zone permits. The increased costs mentioned in the letter would appear to justify the proposed increase in fees. I therefore recommend to your Honorable Body the immediate adoption of the accompanying ordinance.

Respectfully,
J. B. HYNES, Mayor.

Boston Traffic Commission,
May 22, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

At a meeting of the Boston Traffic Commission held on April 27, 1950, it was voted, subject to the approval of your Honor and the City Council, to increase the fees charged for the establishment of loading zones from the present fee of 50 cents per linear foot to \$1 per linear foot and to increase the present minimum fee of \$10 to a new minimum fee of \$20.

The present fees were established in 1935 and were based on the then prevailing costs of materials and labor. The cost of the paint used to encaustic loading zones has increased from \$1.90 a gallon in 1935 to \$3.75 a gallon at present; the cost of paint brushes has increased approximately 100 per cent; and the cost of labor, due to salary increases, has increased 66 per cent. Further-

more, because the yellow paint on the curb cannot be seen by motorists during several months of the winter season, it is intended, if the new requested fees are adopted, to supplement the curb painting with a permanent-type sign at each end of the zones where such installation is found to be necessary. The cost of installing such signs would be approximately \$14.50 for each loading zone.

It is therefore respectfully requested that your Honor recommend to the City Council the adoption of an ordinance increasing loading zone permit fees as stated above.

Respectfully submitted,
WM. ARTHUR REILLY, Commissioner.

City of Boston.

An Ordinance Concerning Loading Zone Permits. Be it ordained by the City Council of Boston, as follows:

Section 22 of chapter 41 of the Revised Ordinances of 1947, as most recently amended by chapter 1 of the Ordinances of 1950, is hereby further amended by adding after clause 26 the following new clause:

27. The fee for a permit for a loading zone, so called, issued under the provisions of section 2 of chapter 263 of the acts of 1929 shall be computed at the rate of one dollar for each foot of curbing abutting on said zone, but in no event less than twenty dollars.

Referred to Committee on Ordinances.

ORDINANCE RE STREET LAYING-OUT DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1950.
To the City Council.
Gentlemen:

Chapter 33 of the Revised Ordinances of 1947 provides, in section 1, among other things, that the Street Laying-Out Department "shall have the care and maintenance of all land and buildings belonging to the city and not used for specific purposes, and shall keep a record thereof; may, with the approval of the mayor, let such land for a term not exceeding one year; and, when authorized by the City Council, with the approval of the mayor, may sell any land or buildings in their charge." Section 2 of said chapter 33 further provides that "Nothing contained in section one of this chapter shall apply to any real estate sold to or taken by the city for non-payment of taxes or assessments, the right to redeem which has been foreclosed."

By chapter 318 of the Acts of 1950 the Board of Real Estate Commissioners of the City of Boston has been given jurisdiction of "all real estate of the city not held for a specific purpose irrespective of the manner or time of acquisition of such real estate." The above-quoted provisions of chapter 33 of the Revised Ordinances of 1947 have thus become obsolete and should be repealed. I therefore recommend to your Honorable Body the immediate adoption of the ordinance transmitted herewith.

Respectfully,
J. B. HYNES, Mayor.

City of Boston.

An Ordinance Concerning the Street Laying-Out Department.

Be it ordained by the City Council of Boston, as follows:

SECTION 1. Chapter 33 of the Revised Ordinances of 1947 is hereby amended by striking out section 1 and inserting in place thereof the following section: Section 1. The street laying out department shall be under the charge of a board of three commissioners, who shall exercise the powers and perform the duties provided by statute.

SECT. 2. Section 2 of said chapter 33 is hereby repealed.

SECT. 3. This ordinance shall take effect as of the effective date of chapter 318 of the acts of 1950.

Referred to the Committee on Ordinances.

VISIT BY MAYOR STANWELL OF BOSTON, ENGLAND.

At this point the Council was paid a visit by His Worship Hon. Eric C. Stanwell, Mayor of Boston, England, who delivered a brief address to the City Council.

APPROPRIATION FOR ADDITIONAL PARKING METERS.

The following was received:

City of Boston,
Office of the Mayor, May 22, 1950.
To the City Council.
Gentlemen:

I submit herewith an order providing for the appropriation of \$180,000 from the balance available in Parking Meter Fees, this amount to be

expended by the Boston Traffic Commission for the purchase of additional parking meters. This action is taken in conformity with a recent vote of the full membership of the commission to acquire three thousand additional meters. As indicated in the attached communication, surveys have been made to determine the locations where these additional meters may be installed. In view of the fact there is a balance available in the Parking Meter Fees fund to cover estimated cost of the additional meters, I feel it desirable to utilize this balance. It should be possible under this procedure to secure a better price for the meters than was secured under the previous arrangements whereby monthly payments of one half of the meter fees collected were made to the meter companies. I respectfully recommend immediate consideration and action on the accompanying order.

Respectfully,

J. B. HYNES, Mayor.

Boston Traffic Commission,

May 19, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Sir:

At a meeting held May 4, 1950, attended by the full membership of the Boston Traffic Commission, it was unanimously voted to acquire 3,000 additional parking meters.

The engineers of this commission have made a thorough survey of the city to establish the streets wherein the installations of parking meters would assist in the orderly control of the movement of traffic and the parking of vehicles. The engineers' report shows that there are suitable locations for approximately 3,800 additional meters.

Chapter 442 of the Massachusetts Acts of 1947 provides "that the city of Boston, for the purpose of enforcing the rules and regulations adopted by the Boston Traffic Commission under chapter two hundred and sixty-three of the acts of nineteen hundred and twenty-nine, may appropriate money for the acquisition, installation, maintenance and operation of parking meters."

In accordance with the directive of the full membership of this commission I respectfully request that you initiate the establishment of an appropriation to be expended for the acquisition of 3,000 additional parking meters.

Respectfully submitted,

WM. ARTHUR REILLY, Commissioner.

Ordered, That the sum of \$180,000 be, and the same hereby is, appropriated from Parking Meter Fees to be expended by the Boston Traffic Commission for the acquisition and installation of parking meters.

Referred to Committee on Appropriations.

TRANSFER OF APPROPRIATIONS TO VARIOUS CITY AND COUNTY DEPARTMENTS.

The following was received:

City of Boston,

Office of the Mayor, May 22, 1950.

To the City Council.

Gentlemen:

There is forwarded herewith an order transferring the sum of \$77,441.54 from the Reserve Fund to the budgets of several city and county departments to provide for actual and anticipated deficiencies as explained in the attached report of the Budget Commissioner.

Consideration and passage of the accompanying order by your Honorable Body is recommended.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Budget Department, May 22, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Sir:

The following departments of the city will require an additional sum totaling \$77,441.54 to carry on the activities of the departments for the balance of the year. It is suggested that this sum be obtained by transfer from the Reserve Fund.

Public Buildings Department.....	\$5,000 00
Public Works Department:	
Central Office.....	125 00
Registry Department.....	2,350 00
Supply Department.....	1,500 00
Licensing Board.....	3,866 67
Public Works Department:	
Automotive Division.....	11,200 00
Sewer Service.....	13,000 00
Pensions and Annuities.....	18,928 00
Municipal Court, City of Boston.....	15,000 00
Probate Court.....	2,500 00
Supreme Judicial Court.....	3,971 87
Total.....	\$77,441 54

There is given below a brief explanation of the need for the above additional appropriations.

Public Buildings Department, \$5,000.

This sum is needed for the purchase of furniture and equipment for the Assessing Department, Building Department, Bridge and Highway Division of the Public Works Department, the Auditing Department, and the Law Department.

Public Works Department, Central Office, \$125.

This amount is needed to provide for service for a full year of an outside telephone connected with this office, and for two months' service on mobile radio telephone which has been discontinued.

Registry Department, \$2,350.

This amount is necessary to provide for the printing of approximately 20,000 scrolls to be sent to the parents of newborn children in the City of Boston, together with the employment of an additional clerk at an annual salary of \$1,700.

Supply Department, \$1,500.

This sum is necessary to provide the net amount for the purchase of a new automobile. The present car, which is in a dangerous condition, is to be turned in.

Licensing Board, \$3,866.67.

This amount is necessary to provide for increases in salary to the members of the Licensing Board, and the secretary, in accordance with the provisions of chapter 403 of the Acts of 1950, effective May 9, 1950.

Public Works Department, Automotive Division, \$11,200.

This amount is needed to increase the efficiency of the Automotive Division of the Public Works Department, and will be used to make changes in the stockroom at the Highland Street garage, for the installation of window guards, for changes in the boiler room, the purchase of equipment to meet fire inspection requirements, cover-alls for mechanics, and for the purchase of several passenger cars for the Public Works Department.

Public Works Department, Sewer Division, \$13,000.

This sum is necessary to provide for the rebuilding and relocating of a 6-foot brick sewer conduit in connection with the new Cathedral housing project.

Pensions and Annuities, \$18,928.

This sum is necessary to cover payments under chapter 708 of the Acts of 1941 for members of the Boston Public School Teachers Retirement Fund who were in the military service.

Municipal Court, City of Boston, \$15,000.

This sum is necessary to provide for a total of 44 salary increases granted by the justices to probation officers, court officers, secretary, and assistant secretary to the justices. These increases are authorized under the provisions of chapters 381 and 783 of the Acts of 1949.

Probate Court, \$2,500.

This sum is necessary for the balance of the salaries of temporary employees in connection with the consolidation of the Probate Index from 1936 to 1947.

Supreme Judicial Court, \$3,971.87.

This sum is necessary, as requested by the City Auditor, to provide for payment of fees to experts employed in this court. This is a variable item, and is very difficult to estimate.

Respectfully,

JOHN A. SULLIVAN,

Budget Commissioner.

Ordered, That in accordance with the provisions of section 3B of chapter 486 of the Acts of 1909, as amended by chapter 604 of the Acts of 1941, the City Auditor be, and hereby is, authorized to transfer:

SUPPLEMENTARY APPROPRIATION OF \$1,700,000.

The following was received:

City of Boston,

Office of the Mayor, May 22, 1950.

To the City Council.

Gentlemen:

There is forwarded herewith a supplementary appropriation order in the sum of \$1,700,000. The major portion of this appropriation, or \$1,490,000 is necessary to provide for the increase in the expenditures for Old Age Assistance and Aid to Dependent Children, the case loads having increased during the first four months of this year more than was anticipated; for the rising costs of relief to veterans; for expenses in connection with providing additional beds at both the City Hospital and the Sanatorium Division for the segregation of tuberculosis patients now hospitalized at the City Hospital and to make available additional facilities for persons found to be suffering from tuberculosis in various stages as a result of the chest X-ray program recently completed; and for the care of premature infants, the cost of which has been greater than anticipated and the responsibility for which is the city's under recently enacted legislation.

The balance of the appropriation is needed by several departments of the city for services, supplies, and equipment, supplementing appropriations contained in the annual budget and necessary in view of the experience of the first four months of the current year. All of the elements in this supplementary appropriation order are explained in detail in the attached report of the Budget Commissioner.

Consideration and adoption of the accompanying appropriation order is recommended by your Honorable Body.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Budget Department, May 22, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Sir:

The following departments require additional appropriations totaling \$1,700,000 as indicated and it is suggested that a supplementary appropriation order be submitted to the City Council:

Public Welfare Department.....	\$900,000
Department of Veterans' Services.....	260,000
Hospital Department.....	255,000
Sanatorium Division.....	50,000
Construction and Reconstruction of Sidewalks.....	60,000
Election Department.....	45,000
Police Department.....	40,000
Assessing Department.....	25,000
Health Department.....	25,000
House of Correction, Deer Island.....	40,000
Total.....	\$1,700,000

There is given below a brief explanation of the need for the above supplementary appropriations: Public Welfare Department, \$900,000.

Of this sum, \$650,000 is for Old Age Assistance and \$250,000 for Aid to Dependent Children. The case load on Old Age Assistance during the first four months of 1950 has increased approximately 500 cases and the case load under Aid to Dependent Children during the same period has increased slightly over 200 cases. Welfare officials state that indications are that these increases in case load will continue and that the above \$900,000 is necessary.

Department of Veterans' Services, \$260,000.

Ten thousand dollars of this amount is necessary to provide sufficient funds for employment of necessary temporary employees.

Because of the large increase in soldiers' relief expenditures during the first quarter in 1950, it is estimated that \$250,000 additional will be needed to provide sufficient funds for this purpose for the balance of the year.

Hospital Department, \$255,000.

The major portion of this appropriation is necessary in order that the hospital may open up two wards for the special care of tuberculosis patients. This will necessitate, of course, the hiring of additional help and the purchase of additional supplies, materials, and equipment.

The balance is needed to supplement items, which in the light of the experience of the first

four months of the current year will require these additional sums in order that the hospital may render sufficient service and care to the sick.

Sanatorium Division, \$50,000.

This additional appropriation is needed to cover the cost of installing a cafeteria and making other changes to provide beds for 50 additional tuberculosis patients and also provide for the hiring of additional help and the purchase of additional equipment, materials, and supplies.

The above appropriations for the care of tuberculosis will provide facilities for 120 patients, the present number for which the Health Department is responsible. The majority of these cases were uncovered as a result of the mass chest X-ray program recently completed.

Construction and Reconstruction of Sidewalks' \$60,000.

The Public Works Commissioner is of the opinion that the current budget appropriation of \$50,000 is inadequate to repair existing sidewalks that are in a defective condition and that this additional appropriation is necessary.

Election Department, \$45,000.

This sum is necessary to provide sufficient funds for the employment of temporary election officials because of the two election functions this year.

Police Department, \$40,000.

Thirty thousand of this sum is necessary to rectify a miscalculation in the annual budget appropriations for the Police Department. The balance of \$10,000 is needed to strengthen the Contractual item for the typing and mailing of parking violation notices.

Assessing Department, \$25,000.

It now appears that the previous appropriation for temporary employees necessary to complete personal property, motor excise and real estate tax bills, will be insufficient and that this additional sum is necessary.

Health Department, \$25,000.

This sum is necessary to provide for the care of premature infants which responsibility devolves upon the Health Department because of legislation. Since the beginning of the year the bills for the care of premature infants have been greater than previously estimated. Therefore, this additional sum is necessary.

House of Correction, \$40,000.

This sum is necessary to replace machinery in the Shoe Shop and the Tailor Shop at Deer Island which were destroyed by fire last October. The cost of this machinery was not known at the time the annual budget was submitted this year.

Respectfully yours,

JOHN A. SULLIVAN,
Budget Commissioner.

Ordered, That the respective sums of money specified in the schedules hereinafter set out be, and hereby are, appropriated, for the purposes hereinafter specified, said sums to be raised by taxation on the polls and estates in the City of Boston, and that all orders heretofore or hereafter passed by the City Council, relating to appropriations, taxes, and the interest thereon, apply to the appropriations and taxes herein provided for.

EXEMPTION OF PUBLIC SCHOOL CUSTODIANS FROM 40-HOUR LAW.

The following was received:

School Committee, City of Boston,
May 19, 1950.

To the Honorable the City Council.

Under date of October 4, 1948, the School Committee requested that your Honorable Body

adopt an order exempting the public school custodians from the operation of General Laws, chapter 149, section 33 (a), as amended by Statute 1948, chapter 637.

At the conference of the School Committee held on May 4, 1950, a committee of the Building Custodians' Union, Local 900, appeared and requested that the letter to the City Council from the School Committee, seeking exemption on the part of the custodians from the 40-hour law, be withdrawn.

The proposition was duly considered by the School Committee and it was agreed that the School Committee notify the City Council that it would like the Council to vote "No" on the question of whether custodians should be exempted from the 40-hour law, the effective date of change to be within the discretion of the School Committee.

Respectfully submitted,

AGNES E. REYNOLDS,

Assistant Secretary.

Referred to the Executive Committee.

Passed under suspension of the rule.

SIDEWALK CONSTRUCTION, WARD 6.

Coun. WENZLER offered the following:

Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install cement sidewalks on the block bounded by East Sixth street, P street, Farragut road, and Columbia road, Ward 6.

Passed under suspension of the rule.

RADIO HEADPHONES FOR CONVALESCING PATIENTS, CITY HOSPITAL.

Coun. F. P. TRACEY offered the following:

Ordered, That the Trustees of the Boston City Hospital be requested, through his Honor the Mayor, to install radio facilities of the head-phone type for the convalescing patients at said hospital.

This type of practical comfort and of mental therapeutic value is part of the eminently successful routine now available in all our outstanding veterans' hospitals.

Needless to say, in these days when we often find sizable sums expended for the recreation and entertainment of our physically well citizens, we should find the necessary funds to aid and comfort our sick and injured hospitalized fellow Bostonians.

Those of us who have experienced the long, empty hours of hospital convalescence fully realize the boon of keeping in daily contact with the outside world, through the medium of radio.

Boston should, without delay, come abreast of the modern outlook in this phase of hospital administration, a practice now prevalent in the finest private and public hospitals throughout the large cities of the nations.

Let it not be said that we have overlooked any comfort or convenience that will assist or aid our Boston hospital population.

Passed under suspension of the rule.

INFORMATION RE CONTRACTS FOR PATCH PAVING.

Coun. SULLIVAN offered the following:

Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to furnish the City Council with the names of the contractors who have been granted contracts without being publicly advertised in the so-called "schedule for the patch paving of roadway and sidewalk areas" in 1950 under the supervision of the Public Works Department, and that the following questions be further answered: (a) if said contractors' place of business is in the City of Boston; (b) if said contractors have had business with the City of Boston before; (c) by what means were said contractors selected to do this work.

In connection with the above appointments of coaches and play teachers the following statements were made:

Mr. Ward: I voted no on accepting these lists because I oppose the method by which these coaches and play teachers are appointed. I do not know whose names are on the list, and I do not care.

Chairman: I, too, am waiting anxiously for a new recommendation from the board of Superintendents for a more equitable method by which these coaches shall be selected, but on this particular list I am voting yes.

Mr. McDevitt: I voted yes, with the stipulation that a new plan is to be devised on the method of appointment. These men have been coaching, so I approve it on that basis.

Mr. Ward: Do I understand that when your new system comes in these men are out?

Chairman: These men are not permanent. They must be re-approved every season; and what this Committee has demanded is that the Board of Superintendents make a study, and we gave them an unlimited field of operation and invited them to consult with other school systems, newspaper writers, sport editors, or anybody else they could find available to assist them.

Mr. Muchnick: It is not only every season. These appointments are cancellable by the day, are they not? If they are appointed today, can't these appointments be revoked next week?

Chairman: Yes. They are paid on a per diem basis, and I think they can be stopped at any time, Mr. Muchnick, but they come in to us each season.

Superintendent: The School Committee, Mr. Chairman and Members, asked us to have a rated plan effective September 1, and we will have that plan before that date.

Mr. Muchnick: Substantially before, I hope!

ANNUAL APPROPRIATION FOR MAINTENANCE, EXCLUSIVE OF "ALTERATIONS, REPAIRS, FURNITURE AND FIXTURES"

The Business Manager submitted, in compliance with the rules, the following communication and appropriation order:

March 30, 1950.

To the School Committee of the City of Boston:

In compliance with the instructions of the Committee and pending the compilation of the budget in book form for the fiscal year 1950 with accompanying detailed estimates for all schools, departments and other activities, I am presenting for your consideration the accompanying appropriation order totaling \$23,592,719.75.

The said sum of \$23,592,719.75 covers all expenditures for maintenance under the direct control of the School Committee.

The School Committee will also make appropriations for the following items and in the sums set forth below. The expenditures under these items will be under the direct control of the Department of School Buildings.

Alterations, Repairs, Furniture and Fixtures	\$2,646,138.31
Land and Buildings	
ings for Schools	755,628.08
The total appropriations for 1950 will therefore be	\$26,994,-

486.14 (\$23,592,719.75 plus \$2,646,-138.31 plus \$755,628.08-\$26,994,-486.14).

The total credits made up of the unexpended balances at the end of the year 1949, the estimated income for the year 1950 and the estimated amount to be received from the Commonwealth of Massachusetts by the City of Boston under Chapter 643 of the Acts of 1948 will amount to \$4,209,500.89. The amount to be raised by taxation would therefore be \$22,784,985.25 which is the difference between the total appropriations and the total credits (\$26,994,486.14 minus \$4,209,-500.89-\$22,784,985.25).

Respectfully submitted,
(Signed) Henry J. Smith,
Business Manager.

Placed on file.

The following was offered:
ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, to meet the estimated cost of maintenance of the Boston public schools for the fiscal year 1950, exclusive of "alterations, repairs, furniture and fixtures" for which separate appropriation orders are made, the following amounts are hereby appropriated to cover expenditures under the control of the School Committee and for the purposes indicated below:

For General School Purposes:	
Administration	\$ 1,085,629.65
Instruction	17,990,356.06
Auxiliary Services	1,355,393.53
Operation of Plant	2,948,197.98
Fixed Charges	213,142.53
Pensions to teachers (non-contributory)	(1)

(2) \$23,592,719.75

1—No appropriation from tax levy. These pensions are paid from (a) income received from Commonwealth, (b) unexpended balance of last year, (c) accrued interest of Permanent School Pension Fund.

2—It is expected that \$4,124,-516.45 of this amount will be provided from estimated income for 1950, from unexpended balances from 1949, and from the estimated amount to be received from the Commonwealth of Massachusetts by the City of Boston under Chapter 643 of the Acts of 1948.

On roll call, the order making appropriations in the sum of \$23,-592,719.75 passed by the following vote:

YEAS—Mrs. Dacey, Messrs. McDevitt, Muchnick, Ward, and White—5.

NAYS—0.

Mr. Muchnick: I voted yes, with the reservation noted in the conference, and I would like the statement I made in the conference included in the record of the public meeting.

Following are the remarks made by Mr. Muchnick in the conference:

Mr. Muchnick: I just want to make one observation. I am going to vote in favor of the budget—and this may seem inconsistent. I am opposed to many parts of it, particularly Mr. Mooney's budget, because I think it is robbing Peter to pay Paul, and I do not think it solves any fundamental problem. However, I would rather have the Mayor get the budget first and look it over himself. I imagine that he will ask us to meet with him and go over it. I have stated my position on Mr. Mooney's budget several times in the past couple of months on the problems involved, and I would just as soon not say it again, but I will repeat it in the Mayor's office if the opportune time comes.

Chairman: I would like to say to you, Mr. Muchnick, that the Mayor has had a copy of our preliminary estimates since the first Monday in February. I think he went over the preliminary estimates pretty carefully. I talked to him and the Superintendent talked to him about sitting down in a joint conference with him.

We must have that budget down to him. I have no doubt that before the Mayor either signs or vetoes the budget, he will invite the School Committee to go over the parts of the budget that he might object to and see if we cannot get an agreement either to approve what he wants in there or perhaps he will ask for some members to agree with him on disapproval of others.

However, I feel certain that he will have a conference with us if he is going to veto any part of it.

Mr. Muchnick: This is what I mean specifically, Mr. Chairman. All our money is earmarked in Mr. Mooney's budget—or practically all the money—for one item, which is an important item. I mean fire prevention.

It must either be attacked by the method taken in this budget or some other budget, but there are other items that are fully as important or nearly as important in Mr. Mooney's budget that are going to be completely overlooked and eliminated because of the shortage of funds and the State Department requirements and so forth.

I am not convinced that the method we have selected is the better way of doing it, and I am going to take one more crack at it when we meet in the Mayor's office. That is all.

Chairman: That is your privilege. I understand.

Mr. Muchnick: I want to do it that way rather than going over it all over again. I think plumbing is important, and various other things, and maybe we can solve it and maybe we cannot.

Chairman: The answer to that is that although we recognize that certain items such as plumbing and perhaps soap and hot water and things such as that are health items and are very important, the most important thing

is that we keep the schools open and keep them safe, too.

Mr. Muchnick: I am not quarreling with you on that, Mr. Chairman. I am merely saying that I do not think this is the proper solution. I think the one I suggested a few months ago is more nearly the proper solution.

The Committee adjourned.

Attest:

LOUISE KANE,
Secretary.

POLICE DEPARTMENT ORDERS.

General Order No. 1,325.

Acting under the provisions of chapter 521, Acts of 1922, as amended, the Boston Retirement Board has approved for retirement on account of accidental disability, the following-named police officer, a member of the Boston Retirement System, effective at the close of business as of May 31, 1950.

Wherefore, In view of this operation of law, after May 31, 1950, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

PROPOSALS FOR SHEET ASPHALT PAVEMENT IN BATTERYMARCH STREET, WARD 3, HIGH STREET TO MILK STREET; BROAD STREET, WARD 3, STATE STREET TO ATLANTIC AVENUE; CENTRAL STREET, WARD 3, BROAD STREET TO INDIA STREET; CONGRESS STREET, WARD 3, MILK STREET TO FRANKLIN STREET; CONGRESS STREET, WARD 3, HIGH STREET TO ATLANTIC AVENUE; CUSTOM HOUSE STREET, WARD 3, BROAD STREET TO INDIA STREET; HARRISON AVENUE, WARD 3, ESSEX STREET TO BEACH STREET; MILK STREET, WARD 3, BROAD STREET TO INDIA STREET; WENDELL STREET, WARD 3, BROAD STREET TO OLIVER STREET, AND WHARF STREET, WARD 3, BROAD STREET TO INDIA STREET.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sheet asphalt pavement in Battery-march street, Ward 3, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract, and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sheet Asphalt Pavement in Battery-march Street, Ward 3, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 21, 1950, with a certified check for THREE THOUSAND (3,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SUFFOLK COUNTY.

PROBATE COURT AND COURT OF INSOLVENCY, BOSTON.

PROPOSALS FOR PRINTING AND BINDING AN INDEX OF PROBATE CASES FILED IN SUFFOLK COUNTY REGISTRY OF PROBATE FROM 1936 TO 1947, INCLUSIVE, AND FOR CANVAS JACKETS TO COVER INDEX VOLUMES.

The Register of Probate and Insolvency for Suffolk County invites proposals for the printing and binding of an index of all cases except divorce cases filed in the Registry of Probate for Suffolk County from January 2, 1936, to December 31, 1947, inclusive, said index to be printed and bound in accordance with the following specifications: It shall consist of twenty-five sets of three volumes to each set, seventy-five volumes in all; each volume is to contain as nearly an equal number of pages as possible, with no surnames beginning with the same letter appearing in more than one volume of any set of volumes. In addition to the foregoing, volume one of said index shall contain three pages and volumes two and three, two pages of printed material, the substance, type, style, and setup of which is to be hereafter determined by said Register.

Said index is to be printed on ledger stock of the same weight, quality, and size as the probate index covering the period 1923 to 1936; the pages of each volume to be numbered at the bottom in parentheses; the type to be the same as that appearing in said index volumes 1923 to 1936, and the volumes to be similar in size, style, binding, material, and in every other respect to index volumes of 1923 to 1936, so that they will, as nearly as possible, match and be the same in every detail and be made uniform with said index volumes of 1923 to 1936 except as to number of pages to the volume, titles, and printing on said three pages in volume one and two pages in volumes two and three and stampings on backs and on front and back covers; each volume to contain as nearly as possible the same number of pages.

Each volume shall be bound in half black morocco leather and black cloth, reinforced with linen tape in the center of folds and between the front and back folds, sewed with a good grade of Irish linen thread, double strapped, with sprinkled edges, stamped in gold on back and on front and back covers in a manner that will indicate dates and the letter of the alphabet with which the first and the last surname contained in each volume begins, the exact lettering to appear thereon to be hereafter determined by said Register of Probate.

Each volume is to be wrapped and sealed in heavy wrapping paper of good and substantial quality, marked "Probate Index 1936-1947" and, in addition, marked so as to indicate the letter of the alphabet with which the first and the last surname contained therein begins, each set of volumes to be wrapped together and sealed and marked "Probate Index 1936-1947."

Also, two sets of canvas jackets or covers for each of six index volumes, being six jackets in all, made to fit said volumes, shall be furnished, said jackets to be stamped in black ink on back and on front and back covers, in a manner that will indicate contents, dates, and the letter of the alphabet with which the first and the last surname contained in said volume begins, the exact lettering to appear thereon to be hereafter determined by said Register, said jackets to be made of the same material and in the same fashion as the jackets covering index volumes 1923 to 1936.

Samples of 1923 to 1936 index and canvas jackets may be examined at said Registry.

The work is to be completed and delivery made not later than December 1, 1950.

Envelopes containing proposals must be sealed and plainly marked "Proposals for Printing and Binding Probate Index 1936-1947" and must be in duplicate and left at the office of said Register not later than July 7, 1950, at 12 o'clock noon, at which time they will be opened. A certified check in the sum of five hundred (500) dollars payable to the County of Suffolk shall be filed with each bid.

The right to reject any or all proposals is hereby reserved.

ARTHUR W. SULLIVAN,
Register.

PROPOSALS FOR LAYING AND RELAYING WATER PIPES IN SHERMAN STREET, ADAMS AVENUE, WREN STREET, STRATFORD STREET, ALLENWOOD STREET, EMMONSDALE ROAD, CLEMENT AVENUE, MEREDITH STREET, AND MARCH AVENUE, WEST ROXBURY WATER DISTRICT.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for laying and relaying water pipes in Sherman street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Laying and Relaying Water Pipes in Sherman Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 21, 1950, with a certified check for SIX HUNDRED (600) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

LIBRARY DEPARTMENT.

INVITATION FOR PROPOSALS FOR A NEW BASEMENT READING AREA AT THE CENTRAL LIBRARY BUILDING.

The Trustees of the Public Library of the City of Boston, hereinafter referred to as the Awarding Authority, invite sealed proposals for a new basement reading area, Central Library Building.

Proposals will be received until 12 o'clock noon, Wednesday, June 28, 1950, at the office of the Awarding Authority, at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$1,500, shall be submitted with a copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Plans and specifications may be obtained on and after 12 o'clock noon, Monday, June 12, 1950, at the Business Office of the Boston Public Library. All plans and specifications must be returned in good condition to said office at the time of filing bids. A deposit of twenty-five dollars (\$25) in cash will be required for each set of plans and specifications taken out for estimating, said deposit to be refunded on the return of the plans and specifications in good condition.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidder no later than 12 o'clock noon, Monday, June 26, 1950.

A bid deposit in the form of cash or a certificate of deposit issued by a responsible bank or trust company, payable to the City of Boston, in a sum not less than 5 per cent of the total amount of his bid, shall be submitted by each subbidder with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids if it be in the public interest so to do. The Awarding Authority also reserves the right to reject all subbids or any item or items in accordance with the provisions of chapter 480 of the Acts of 1939.

MAYOR JOHN B. HYNES AWARDED HONORARY DEGREE AT SUFFOLK UNIVERSITY COMMENCEMENT EXERCISES AS ONE OF LEADING CONTRIBUTORS TO WELFARE AND PUBLIC LIFE OF COMMONWEALTH — DEGREE OF DOCTOR OF PUBLIC ADMINISTRATION.

Boston was signally honored on Wednesday, June 14, when Hon. John B. Hynes, Mayor of Boston, was invested with an honorary degree by Suffolk University. Mayor Hynes is a graduate of Suffolk Law School with the class of 1927. The citation accompanying the awarding of the honorary degree reads as follows:

*Citation for John Bernard Hynes.
(Awarded Honorary Degree of Doctor of Public Administration.)*

"John Bernard Hynes, Suffolk Law School graduate of the class of 1927, Mayor of the City of Boston: Your Alma Mater salutes you for your outstanding record in the service of your native city. For years a distinguished City Clerk, your ability, sense of justice, and unflinching devotion to duty caused you to be summoned as Boston's Chief Executive. You, by hard work and conscientious public service, brought to reality the prophecy written in your class year book in 1927 that you would some day become Mayor of the City of Boston. Suffolk is proud to point to you as one of its leading contributions to the welfare and public life of the Commonwealth."

REPORT OF MISS A. ISABELLE TIMMINS, DIRECTOR OF SPEECH IMPROVEMENT CLASSES, ON ATTENDANCE AT JOINT MEETING OF THE EASTERN PUBLIC SPEAKING CONFERENCE, NEW ENGLAND SPEECH ASSOCIATION AND NEW YORK LEAGUE FOR SPEECH IMPROVEMENT, IN NEW YORK CITY, APRIL 13 AND 14.

BOSTON, May 1, 1950.

DR. DENNIS C. HALEY, *Superintendent,*
15 Beacon Street, Boston, Mass.

DEAR DR. HALEY:

I hereby submit my report on the joint meeting of the Eastern Public Speaking Conference, the New England Speech Association, and the New York League for Speech Improvement held in New York on April 13, 14, and 15, 1950.

The program on Thursday consisted of registration, committee meetings and a

EXPENDITURES FOR VETERANS' BENEFITS CONTINUE TO SHOW INCREASES FROM MONTH TO MONTH OVER THOSE OF SAME MONTHS IN 1949 — REPORT OF COMMISSIONER COTTER TO MAYOR JOHN B. HYNES SHOWS AMOUNT OF INCREASE FOR APRIL TOTALED \$37,892.95 — 501 MORE CASES AIDED BENEFITING 4,159 INDIVIDUALS — THERE WERE 592 CASES CLOSED DUE TO FINDING EMPLOYMENT.

Expenditures for veterans' benefits continue to show an increase from month to month in the present year, according to the report of the Commissioner, Francis X. Cotter, in his monthly report to his Honor, Mayor John B. Hynes. In keeping with the trend the month of April, 1950, showed an increase amounting to \$37,892.95 over the expenditures for the corresponding month of 1949. This increase is explained by the fact that 501 more cases were aided than in the previous year in April. These cases represent a total of 4,159 individuals who were benefited. There were 592 cases closed because of obtaining employment. The full report to his Honor reads as follows:

Boston, May 17, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR:

I have the honor to submit the report of the Department of Veterans' Services for the month of April, 1950.

Very truly yours,

FRANCIS X. COTTER, *Commissioner.*

DEPARTMENT OF VETERANS' SERVICES IN MONTHLY REPORT TO MAYOR HYNES SHOWS HEAVY DRAIN ON APPROPRIATIONS.

(Continued from page 613.)

Expenditures for veterans' benefits for April, 1950, show an increase of \$37,892.95 in comparison with expenditures for the corresponding period of 1949. This increase is attributable to the fact that the department aided 501 more cases than in April, 1949.

The 1,838 cases aided during the month of March, 1950, represent a total of 4,159 individuals benefited through the financial facilities of the Department of Veterans' Services.

There were 592 cases closed during the month of April, 1950, because of obtaining employment, having been awarded unemployment compensation, and becoming ineligible to receive financial assistance for miscellaneous reasons.

BUILDING COMMISSIONER AT CONVENTION.

The Mayor has approved the following request of the Building Commissioner:

Boston, May 29, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your Honor's approval is hereby requested for an advance of \$200 so that I may attend the annual convention of the Building Officials' Conference of America as representative of the City of Boston.

The convention is to be held in Indianapolis for the week beginning June 5, 1950.

Very truly yours,

HARRY J. KEEFE,
Building Commissioner.

CIRCULAR LETTER NO. 16.

CITY OF BOSTON,

MAYOR'S OFFICE, June 6, 1950.

To All Department Heads.

GENTLEMEN:

You are hereby directed to grant leave of absence, without loss of pay, to all city employees who are members of veterans' organizations in order that they may attend the National Convention of their particular order, as well as the Department Encampment.

Department Encampment, June 16 to June 18, 1950, at Plymouth, Mass.

National Encampment, September 24 to September 28, 1950, at Atlantic City, New Jersey.

Respectfully,

JOHN B. HYNES, *Mayor.*

REPORT OF MISS A. ISABELLE TIMMINS AT CONVENTION.

(Continued from page 613.)

general meeting with open discussion of conference policies.

I. Programs attended Friday, April 14: 9.30-10.50 A.M.—General Session.

Presiding—ROBERT B. HUBER, 1st Vice-President.

Address of Welcome—AGNES ALLARDYCE, President, Syracuse University.

KEYNOTE OF SPEECH—The problem of the speech teacher is to study the civic, economic, and cultural needs of those she teaches. She must study these functions in the light of human satisfactions. There is need for methodology in learning "to study how to study" these needs. The next ten years should see an advancement of professional status of teachers of speech. This professionalization will come only through proper teacher education.

ADDRESS—DWAYNE ORTON, Educational Director, International Business Machine Organization.

SUBJECT—"The Teachers' Faith."

COMMENT—One of the most inspiring talks I have heard! Mr. Orton selected for his text the quotation—"And the Word was made flesh and dwelt among us" and stressed the teachers' faith in human values, a faith founded in service and dedicated to the principle that that which one gives out to another may take root and go forth in the future thus establishing a redemptive process in society. Traditional education must meet this redemptive use of the educational process. Teaching is an adventure in faith. It is faith in a process, a process that will transform men, a process that will show personal advancement of the individual, a development that will enable our youth to understand human relationships, adjust to them and thus advance our democratic way of living.

II. 11.00 A.M.-12.20 P.M.

Panel—Entering the Teaching Profession. Chairman—MARY TELIAN TUTHILL, Public Schools, Syracuse, N. Y.

Question—What distinct and valid contribution should the Speech Teacher make to school life?

The discussion was carried on by four young teachers.

MAIN POINTS:

1. Need for "In-Service" training courses to develop leadership.

2. Methods to achieve better relationships in the pupil-pupil, in the pupil-teacher, in the teacher-teacher and in the teacher-community areas.

3. Need "to sell ourselves" and win the confidence of those in all areas, particularly in the teacher-teacher and in teacher-community areas.

4. Contribute a firm grasp of the functions of speech in the role of self-adjustment in human relations.

5. Realization of the responsibility for the self-development of pupils and of the responsibility to others in all areas.

6. Speech cannot be separated from subjects. It is related to all subjects, has to function in all subjects and therefore, material for classroom work must be drawn from all types of texts if the speech teacher is to be close to the pupils' thinking processes.

Luncheon 1.00—2.20 P.M.

III. 2.30-3.50 P.M.—HOUSING THE SPEECH PROGRAM.

Chairman—HELEN HAKE CLUTTON, Yonkers, N. Y. Public Schools.

Dr. Letitia Raubichek, Director of Speech, in New York City, presented the problems which have arisen due to enlarged registration. As she related the "nooks and corners" which have been utilized in the last year or two, it was evident that New York and Boston face similar conditions—book rooms, regular classrooms, cafeterias, coaching rooms, sewing rooms, tower rooms.

New York for a long period offered only a speech correction program. Now it includes Speech Improvement and speech development in the Language Arts for all. It is primarily a classroom procedure.

The ideal requirements for such a classroom:

*1. Quiet place with door—away from the elevated, the playground, and the orchestra.

2. Large enough to accommodate not only players but also an audience.

3. Folding door to cut off playing space from audience space.

*4. Clinical group—possibilities for private conference without interruption and away from public gaze.

5. Practice Rooms—sound-proofed for making and playing recordings.

*6. Adequate blackboard space.

*7. Adequate wall space for charts and exhibits to show relation between speech skills and success in outside world.

*8. Storage space for models, records, films, opaque projectors, recording machines, screens.

*9. Most important—a room not used for anything else.

FURNITURE:

*1. Movable—in different sizes to establish feeling of security.

2. Reclining chairs for stutterers.

3. Exercise mats.

*4. Posture mirrors.

*5. Sufficient outlets for electrical equipment.

NOTE.—It was a pleasure to realize that Boston has for many years had full-time speech centers equipped with the recommended requirements which are starred. In addition, these particular centers are each provided with piano.

IV. 4.00-5.00 P.M.

Reading in Poetry and Drama.

Chairman—KATHRYN MULHOLLAND, Brooklyn College.

Interpretive readings by three professors who stressed need for discovering the personality of the poet and knowing his character in order to understand his writings.

Pièce de résistance! Vera A. Sickels, of Smith College, reading "Noah's Ark," by Rumer Godden.

V. 8.00 P.M. Radar for Navigation: *Chairman*—DOROTHY I. MULGRAVE, School of Education, New York University.

Demonstration by Mr. Fuller, Service Engineer, New York Telephone Company.

Display of film:

1. Echoes of War and Peace.

2. Working Model of the guiding of "The America" into New York Harbor and up the river to its dock.

Saturday, April 15:

VI. 8.45 A.M.—10.00 A.M.

Business Meeting, Eastern Public Speaking Conference.

President, AGNES I. ALLARDYCE, presiding.

1. Name of organization changed to "Speech Association of the Eastern States" (a progressive step as the previous name indicated, but one very limited phase in the field of speech.)

2. Robert B. Huber, University of Vermont, elected President.

3. Boston selected as meeting place in 1951. Dates, March 29, 30, and 31. Place—Hotel Kenmore.

VII. 10.00-11.00 A.M.

Building Speech Skills through Interpretation. Demonstrations by students at high school and college levels.

Recordings of readings made during February and March were played before each recitation, so that the commentators and members could evaluate progress made.

VIII. 11.10-12.20.

Speech Education Committee.

Chairman, J. H. HENNING, West Virginia University.

1. Reports of surveys showing speech courses offered in colleges and universities.

2. Comparison of types of courses.

3. Personnel of typical staff.

4. Extracurricula activities seem to be interfering at secondary and college levels with teaching itself. If so we need to re-evaluate and re-organize our programs.

5. Vast number of pupils in noncredit activities such as debates, radio, oratorical contests, drama, etc., require teaching supervision and time of instructor. These projects should be incorporated in teaching hours.

6. More courses in voice and diction needed in Teachers College if we are to have teachers of high standards.

IX. 12.30-2.30—Luncheon.

Speaker—Admiral Nimitz—The United Nations—a review of the aims and accomplishments.

X. 2.30-5.45—Discussion.

Debate Demonstration by pupils of Jeffersonville, N. Y., Central High School, and Passaic, N. J., Senior High School.

Resolved, That the President of the United States should be elected by a direct vote of the people.

Critique—Arthur Secord, Brooklyn College. One of the most interesting panels of the convention.

Two-man teams with cross-questioning at the conclusion of each speech. Result—many points cleared before rebuttal reached.

My one regret was that New York schools were having vacation and I was unable to visit the Language Arts classes at the various levels. However, Doctor Raubichek extended to me the privilege of visiting at my convenience and will prepare for me a schedule covering both the clinical and regular classroom programs.

Our years of experience have solved for us many of the problems which confront the school systems which are just introducing speech work.

Attendance at the conference strengthened my faith in the Boston Speech Improvement Classes, reassured me that we are presenting a comprehensive program which is meeting the needs of our speech defective children and inspired me to renewed vigor in my efforts to maintain and improve the standards of our teaching.

Respectfully submitted,

A. ISABELLE TIMMINS,
Director.

TO ATTEND CONVENTION ON WELFARE MATTERS.

The Mayor has approved the following request of the Institutions Commissioner:

BOSTON, May 11, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

Your approval of my attendance at the American Public Welfare Association Convention in New York on May 18, 19, and 20, 1950, is respectfully requested.

I have been appointed a Northeastern Director for this organization.

I intend to include in this trip a visit to the Child Welfare Division of New York City. I hope to obtain some ideas that we might incorporate in our Child Welfare Division.

I anticipate that my expenditures in connection with this trip will not exceed \$150.

Respectfully yours,

JOHN R. MCGILLIVRAY,
Commissioner.

CITY PLANNERS ATTEND CONFERENCE.

The Mayor has approved the following request of the City Planning Board Chairman:

BOSTON, May 3, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

The annual conferences of the American Institute of Planners and the American Planning and Civic Association will be held in Washington, D. C., May 12 to 18, inclusive. It has been the policy of the Board to be represented at these conferences because of the opportunity for exchanging ideas and contacts with those engaged in planning in other cities.

In accordance with the Board's vote on May 2, your Honor's approval of the attendance at these conferences of Mr. Turley, Miss Fitzgerald, Mr. Mitchell, the Executive Director, and the Secretary is hereby requested.

For the Board to be so represented will necessitate an expenditure of \$600. The funds for such attendance are available in the B item of the department budget.

Very truly yours,

THOMAS F. McDONOUGH,
Chairman.

TRANSFERS OF APPROPRIATIONS.

The Mayor has approved the following requests for transfers of appropriations:

BUDGET DEPARTMENT.

From A-1, Permanent Employees, \$250, to B-4, Transportation of Persons, \$250.

CITY RECORD.

From D-1, Office Supplies, \$7, to C-10, Library, \$7.

MUNICIPAL COURT, WEST ROXBURY DISTRICT.

From 2-4, Transportation of Persons, \$60, to 3-16, Wearing Apparel, \$60.

DEPARTMENT CHANGES.

The following changes in the number, rating and compensation of city employees have been made:

HOSPITAL DEPARTMENT.

Approval has been given for the change in salary of private duty nurses to \$9 per 8-hour day in place of \$8.

General Division.

* Contract awarded.

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor has approved contracts with contractors, commercial houses, etc., for furnishing labor, supplies, etc. Communications from the heads of the departments interested were as follows:

FIRE DEPARTMENT.

BOSTON, May 22, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

In accordance with chapter 257 of the Acts of 1927, retired firemen under the age of 55 who were not members of the contributory retirement systems must report annually to the Medical Division of the Boston Retirement System for physical examination.

One thousand dollars was allowed in the Fire Department budget each year to pay the doctors for their examinations, \$333.33 being paid to each of the three doctors. This sum was considered reasonable inasmuch as the number of pensioners to be examined ranged from 50 upwards to 80.

This year, due to deaths and the number of pensioners reaching the age of 55 years, the total number of examinations will be only 16.

Dr. John A. Foley of the Medical Division suggested that the sum of \$333.33 for each of the doctors now appears to be unreasonable because of the small number of persons to be examined. He further suggested that the charge for physical examination be reduced to \$10 for each man physically examined.

In accordance with chapter 237 of the Acts of 1939, all firemen, and certain members of the Fire Alarm Division who are not members of the contributory pension systems, must be examined by the doctors of the Medical Division, Boston Retirement Board, before they can be retired for physical or mental disability. No charge has been made by the Medical Division for these examinations.

As the result of a talk with Doctor Foley it was agreed that the city would save money, possibly up to \$500 each year, if the charge for examination of pensioners under chapter 257 of the Acts of 1927, and firemen under chapter 237, Acts of 1939, was set at \$10 per examination.

Subject to your Honor's approval, therefore, the Fire Department will pay the doctors of the Medical Division, Boston Retirement Board, \$10 for the examination of each fireman and pensioner in accordance with the two foregoing-mentioned statutes.

Respectfully yours,

MICHAEL T. KELLEHER,
Fire Commissioner.

INSTITUTIONS DEPARTMENT.

BOSTON, May 22, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On Tuesday, April 11, 1950, bids were opened by the Institutions Department for the construction of a viaduct between Moon Island and Long Island. Bids were taken on the basis of the substructure and approaches being built under one contract and the superstructure under a second contract and also

on the basis of the entire viaduct (with approaches) being built under one contract.

The following bids were submitted for a contract dealing with the substructure and approaches:

Merritt, Chapman & Scott Corporation, \$1,094,307.40; Marinucci Brothers & Co., Inc., \$1,114,531.70; Coleman Brothers Corporation, \$1,268,266.50; Berke Moore Company, \$1,320,143.50; T. Stuart & Son Company, \$1,398,573.21; Thomas R. Rawson, \$1,731,864.75.

There was a single bid for the contract for building the superstructure:

Bethlehem Steel Company, \$1,649,530.

There was also but one bidder on the basis of the entire viaduct (with approaches) being built under one contract:

Merritt, Chapman & Scott Corporation, \$2,709,951.40.

The bid of \$2,709,951.40 submitted by Merritt, Chapman & Scott Corporation for the entire project was lower than the aggregate of the Bethlehem Steel Company's bid for the superstructure and the lowest of the bids for the substructure and approaches. The \$2,709,951.40 bid, however, was in excess of the available appropriation. This necessitated the rejection of all bids.

Negotiations with Merritt, Chapman & Scott Corporation have developed suggested changes in the proposed contract which will enable Merritt, Chapman & Scott Corporation to reduce its bid by \$116,490, but none of which changes will in any way affect the safety, utility or appearance of the bridge. The adoption of the suggested changes will thus result in a figure for the entire work of \$2,593,461.40, which is within the available appropriation.

As indicated above, the project has already been publicly advertised once. The interim negotiations have simply resulted in the lowest bidder reducing its bid as the result of minor changes in the contract. The lowest bidder unquestionably has experience, ability, and the reputation to perform the work capably and immediately. In the circumstances, no useful purpose would appear to be served by further advertising.

Accordingly, I respectfully request written authority from you to award, without advertising, to Merritt, Chapman & Scott Corporation, 79 Milk street, Boston, Mass., a contract to build the Long Island viaduct (in its entirety with approaches) at a cost of \$2,593,461.40.

Respectfully yours,

JOHN R. MCGILLIVRAY,
Commissioner.

REAL ESTATE COMMISSION.

BOSTON, June 2, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

The Board of Real Estate Commissioners proposes to engage the services of Abbott Associates, Inc., 131 State street, Boston, Mass., as architect-engineer, in connection with the proposed construction of an off-street parking facility at Devonshire and Federal streets, Boston.

The estimated cost of the proposed structure is approximately \$1,250,000, and the architect-engineer shall be paid a standard fee equal to the sum of 6

per cent of the full amount of the cost of said construction.

In view of the nature of the professional services involved no benefit would be gained by advertising for bids, and it is respectfully requested that permission be given to award the contract to Abbott Associates, Inc., without public advertising.

Respectfully yours,
HERMAN CARP, *Chairman.*

SUPPLY DEPARTMENT.

BOSTON, May 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On May 17, 1950, your Honor approved the award of a contract for ten (10) $\frac{1}{2}$ -ton pickup trucks to Cote Motor Company in the amount of \$10,790. However, this amount represents the cost of one (1) 2-ton chassis in addition to the pickup trucks.

It is therefore requested that the letter dated May 12, 1950, be amended to read the award of a contract to Cote Motor Company for the following:

Ten (10) $\frac{1}{2}$ -ton Ford pickup trucks, \$14,750; less taxes, \$615; less trade-in, \$7,900—\$6,235.

One (1) 2-ton Ford chassis with special body and compressor, \$5,345; less taxes, \$90; less trade-in, \$700—\$4,555.

Total, \$10,790.

Total amount of contract is \$10,790, less 2 per cent cash discount for payment within ten days.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, June 6, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is respectfully requested to award a contract, without public advertisement, to Milton Motor Mart, Inc., for furnishing one (1) Fordor 1950 custom DeSoto to the Law Department.

Although the strike at the Chrysler Motor Corporation has been over for a few weeks, delivery on cars is still uncertain and since the Milton Motor Mart, Inc., has an automobile available for immediate delivery it is my opinion that public advertisement should be dispensed with at this time as the Law Department desires the above car as soon as possible.

Total amount of award is as follows:

One (1) 4-door custom DeSoto, black, with standard equipment and heater, \$2,412.70; less tax—excise, \$116.70—\$2,296; less allowance on 1946 Ford and 1946 Buick, \$1,146; net total, \$1,150.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

The detail will report to Hoseman Thomas G. Cooke of Engine Company 20, chief marshal, in front of Fire Department Headquarters, 60 Bristol street, at 9.15 A.M.

The detail will include the trustees or members of the Charitable Association of the Boston Fire Department who are on duty that day. Regulation uniform with sack coat and white gloves shall be worn on this occasion.

Members on the night tour of duty Saturday, June 10, who are to participate in the services will be excused from roll call if relieved by members of the oncoming shift prior to 8 o'clock.

Members of the department who are off duty on Sunday, June 11, are invited to participate in the memorial exercises and it is hoped that a large number will be present to honor the memory of the deceased members of the department.

Members of the department who are on the committee on arrangements will be granted sufficient time to attend to their customary duties and those members of the committee who are scheduled to work on Sunday, June 11, will be excused from duty on that day.

The Boston Fire Department band will furnish the music for the parade and exercises. They shall report to Band Manager Frank Marr at Headquarters at 9 A.M. The Color Guard will also take part in the parade and exercises. The Color Guard shall report to Frank Marr at 9 A.M. at Headquarters.

Members of the Band and Color Guard who are working the night tour of duty on June 10 will be excused at 7 A.M. Members working the day tour the 11th will be excused until 3 P.M. Captain-Drillmaster Augustus J. Beaupre will be in charge of the formation of the members in the line of march. The buses that will convey the members to the cemetery will return the members who desire it to Headquarters.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

General Order No. 31.

RESTORATION OF REGULATION.

Section 2 of General Orders, No. 79, 1946 series, is hereby rescinded to take

effect at 8 A.M., June 13, 1950. At such time and date the following regulation shall be restored.

"When first alarms are received from two boxes and all the engine companies assigned to respond to the second box have already responded to the first box, the response for engine companies to the second box shall be by those companies in the second alarm assignment of the second box under whose number there is an inverted pyramid. This rule shall apply also in exactly the same way to Ladder and Water Tower Companies. Under this condition, there shall be no covering except as ordered from the Fire Alarm Office.

"When first alarms are received from two boxes and the Chief Officers assigned to respond to the second box have already responded to the first box, the response for Chief Officers shall be as under a second alarm from the second box, except on boxes where one chief is assigned on the first alarm, then, only the District Chief assigned on the second alarm of the second box shall respond. There shall be no covering of Chief Officers except as ordered from the Fire Alarm Office."

NOTE.—Chief Officers include Deputy Chief and District Chief.

It is highly important that the above regulations are thoroughly understood by all members of the department concerned, and immediately acted upon when the occasion arises. The idea of a company calling the Fire Alarm Office, inquiring whether they respond or stay in quarters, will not be tolerated.

Inverted pyramids shall be added on all the assignment cards where such pyramids now do not appear on the second alarm assignment. Determining what company numbers to add an inverted pyramid under shall be governed by the number of engine companies that are assigned on the first alarm. No more engine companies on the second alarm assignment shall have such pyramid placed under their number than the number of engine companies that are assigned on the first alarm.

Ladder companies assigned on second alarm shall have an inverted pyramid placed under their number. Refer to the old assignment cards as a guide. Company commanders shall be responsible for the adding of inverted pyramids to the assignment cards, which pyramids shall be applied in a neat manner.

Instructions will be issued in the near future relative to water tower assignments. For the time being, pyramids shall not be placed under tower company numbers.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

General Order No. 32.

I. JOHN B. McDONALD.

It is with deep regret that the Fire Commissioner announces the death, on May 30, 1950, of Hoseman John B. McDonald, of the Maintenance Division. Hoseman McDonald was appointed to the department April 1, 1918.

The funeral was held from his late residence, 574 Broadway, South Boston, at 11 A.M., Saturday, June 3, 1950, followed by services at the Gate of Heaven Church, South Boston, at 11.45 A.M.

The chief of department made the customary detail to act as a funeral escort, and members of the Maintenance Division were excused from duty in order to attend the services.

II. INSTALLATION OF NEW FIRE ALARM BOXES.

In the near future the following fire alarm boxes will be installed:

13-1481, New England Medical Center, Pratt Building, 30 Bennet street.

Circuit for this fire alarm box will be announced later when the box is installed. Company commanders will add this fire alarm box to assignment card for Box 1481.

5264, Market and Waverly streets.

This box will be connected in Circuit 46. Assignment of apparatus will be the same as for Box 5265.

3473, Minot and Hallet streets.

This box will be connected in Circuit 39. Assignment of apparatus will be the same as for Box 3472.

378, Truman Highway and Garfield avenue.

3786, Washington street and Wolcott road.

3787, Truman Highway and Tyler street.

3789, Truman Highway and Washington street.

Assignment of apparatus for these four boxes will be the same as for Box 3781. The circuit for these boxes will be given later when the boxes are installed.

3817, Beaver street and Braeburn road.

3818, Myopia road, opposite No. 32.

Assignment of apparatus for these two boxes will be the same as for Box 3813. The circuit for these boxes will be given later when the boxes are installed.

2483, Pond street and Rockview street.

2484, Pond street and Hopkins road.

Assignment of apparatus for these two boxes will be the same as for Box 2482. Circuit for these boxes will be given later when the boxes are installed.

Assignment cards for the above boxes will be distributed later.

III. COMMENDATIONS.

Operator William Bates, Fire Alarm Division, and Hoseman Lorenzo Merrill, of Engine Company 52, are hereby commended for responding to and working at a coal yard fire at River and Milton streets, Dedham, Mass., on May 29, 1950, while off duty.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

General Order No. 33.

MAYOR'S CHARITY FIELD NIGHT.

His Honor Mayor John B. Hynes has requested that all city employees give their customary generous support to the Annual Charity Field Night for the Special Welfare Fund to be held at Fenway Park on Tuesday evening, July 11, 1950. Everyone who purchases tickets is contributing aid for various charitable purposes for which the city, under existing law, is unable to make direct contributions. A program of sports and vaudeville has been arranged for the evening. There will be a baseball game between the New England Hoboes and an all-star colored team

headed by Satchel Page, the ageless pitching wonder. In addition to the usual award of a 1950 sedan, there will also be other valuable prizes. In case of rain the event will be held July 12.

Tickets have been popularly priced at \$1, including Federal tax. In order that members of the department may give their assistance to the cause, tickets have been placed in the hands of every district chief and division head today, and they will interview each member of their commands as to his wishes in purchasing tickets. All returns must be made to Miss Margaret W. Plunkett at the office of the Fire Commissioner on or before Friday, July 7, 1950. Delivery of money at Headquarters may be made on any weekday, except Saturday, between the hours of 9 and 11 A.M. Returns should be made as quickly as possible before July 7.

Members purchasing tickets should fill out the top stub attached to each ticket and give it to the district chief or division head who will see that all stubs are returned to the Fire Commissioner's office not later than July 7, 1950. Thus, the purchasers will participate in the drawing for the 1950 automobile and other prizes.

The commissioner is especially anxious for the members of the department to support his Honor the Mayor in this most worthy endeavor.

Inasmuch as the Field Day will probably be given publicity through the medium of radio and press, the public may desire to purchase tickets at fire stations. A few tickets should be kept on hand at each station for this purpose.

By order of Fire Commissioner
MICHAEL T. KELLEHER.

JOHN F. McDONOUGH,
Chief of Department.

VETO OF ORDER TRANSFERRING LAND ON WALLINGFORD ROAD AND CHESTNUT HILL AVENUE.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.

Gentlemen:
I am returning herewith, disapproved, the order passed by your Honorable Body on May 22, 1950, for the purpose of transferring to the Park Department for playground purposes "the city-owned land on Wallingford road and Chestnut Hill avenue, Ward 21, formerly used as a city paving yard."

My objections thereto are that the order, which is designed to license the entry by members of the public upon land to which only municipal officers and employees have hitherto had access, would, if allowed to take effect in its present form, be likely to raise legal problems because the estate involved is described in vague, general terms rather than with the technical conveyancing precision necessary to insure the definitive establishment of rights.

Furthermore, even if the order were in proper form, its wisdom might well be doubted; for the estate involved is in close proximity to several other estates devoted to park and playground uses.

Respectfully,

J. B. HYNES, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments:

Weights of Goods for term ending April 30, 1951: Robert F. Driscoll, 842 Washington street, Dorchester; Walter T. Cahill, 49 Burbank street, Boston; Dominic J. Colassi, 35 Redlands road, West Roxbury.

Referred to Committee on Confirmations.

ASSIGNMENT OF MEMBER OF LAW DEPARTMENT TO COUNCIL.

The following was received:

City of Boston.

Office of the Mayor, June 5, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Corporation Counsel relative to your order of May 22, 1950, concerning assigning a member of his staff for the sole purpose of representing and serving the Boston City Council.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Law Department, May 31, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mr. Mayor:

Recently your Honor transmitted to me the following order passed by the City Council on May 22, 1950:

"Ordered, That his Honor the Mayor be requested to instruct the Corporation Counsel to assign a member of his staff for the sole purpose of representing and serving the Boston City Council."

As your Honor knows, not only is the subject of municipal law a field by itself, but the various branches thereof are themselves specialties. Thus, an attorney highly skilled in tax title law cannot be expected to have intimate knowledge of the intricacies of the Boston Building Code; and an attorney well acquainted with the Boston Building Code cannot be expected to be an expert on civil service law. Ever since I have been Corporation Counsel, I have endeavored to cope with this situation by assigning, so far as practicable, each particular matter to the assistant having the greatest knowledge of the subject involved. Accordingly, it has not been unusual for me to have one assistant consulting with the Public Works Commissioner concerning driveway permits, another concerning civil service matters, and yet a third concerning dumping rights. On important matters, there have often been consultations of several assistants with the resultant pooling of their composite knowledge.

The questions posed by the City Council relate to all kinds of subjects. If, in accordance with the request contained in the above-quoted order, a single individual were assigned to the City Council, he could not be expected to have more than a general knowledge of the law applicable to the various questions arising; and the City Council would be deprived of the expert service which I have been trying to give to all city officials. In my opinion, this would be a distinct disservice to the City Council. Therefore, I respectfully beg to be excused from complying with the request contained in the above-quoted order of the City Council.

Respectfully yours,

WILLIAM L. BAXTER,
Corporation Counsel.

Placed on file.

INFORMATION RE EGRESS LAWS.

The following was received:

City of Boston.

Office of the Mayor, June 5, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Building Commissioner relative to your order of May 22, 1950, concerning the explaining of the egress laws pertaining to one-, two-, three-, and four-family dwellings, and also rooming and lodging houses.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,

Building Department, June 1, 1950.

Hon. John B. Hynes,

Mayor of Boston.

Dear Mr. Mayor:

In answer to the order of the City Council dated May 22, 1950, I submit to your Honor a brief outline of the laws regarding egress which are now in force in the City of Boston and of the regulations and methods of procedure by which these laws are implemented.

THE LAW.

(1) The Building Code of the City of Boston, particularly sections 108, 116d, and all of Part 18. I wish to point out that this law was accepted by the Boston City Council after amendment by that Body, and became effective on May 17, 1943.

(2) Chapter 143, General Laws of the Commonwealth, particularly sections 15, 21, 27, 28, 29, and 49. Section 3 of this chapter provides that any city or town may pass laws or ordinances in excess of the requirements contained in chapter 143, but that no city or town may minimize, avoid, or repeal any of the provisions of said chapter.

The effect of the section, therefore, is to make state law the ruling force except where the Boston Code is more stringent.

As your Honor is aware, this chapter was drastically amended as a result of the reports of the

various Recess Commissions formed after the Coconut Grove fire. By the numerous amendments which have been passed since 1944, the Building Commissioner has become, in effect, a deputy of the Commissioner of Public Safety.

APPLICATION OF THE LAW.

The law applies chiefly to the following categories of buildings:

- Every building of a residential or commercial character in which there are eight or more rooms above the second floor, or in which ten or more persons reside or are accommodated above the second floor. (Sections 15, 21, 27.)
- Every premises for which a license is required by statute or ordinance. (Section 49.)
- Every building in which fifty or more persons may assemble as defined in section 1.
- Every building in which ten or more persons are employed. (Section 15.)
- For buildings which are not in the above categories, the basic requirements of chapter 479, Acts of 1938, apply. (Section 116d; particularly section 1804.)

The minimum requirement which applies to every building in the City of Boston except one-family dwellings of less than three stories in height, is two independent means of egress, as widely separated as possible, with direct access to the outer air. This the department is obliged by law and practice to secure.

For lodging houses the requirement has been access to two independent means of egress. So that the burden may not be too severe, it has been our policy to accept indirect access, by way of other rooms, to the means of egress. Direct access, however desirable in an occupancy so fraught with hazard would, in most cases, be too expensive.

For apartment houses and other residential occupancies, the requirement has been for direct access from each living unit to not less than two means of egress.

DEPARTMENT PROCEDURE.

The egress requirements for all buildings in the process of being erected or altered are secured by making such requirements an integral part of the approval of plans. The approval is not granted, barring appeal to the Board of Appeal, until such requirements are met.

For buildings now in existence for which a license is sought, acknowledgments, as described in chapter 143, section 29, are used. So that departments issuing licenses, particularly the Licensing Board, may not be impeded in their work, priority has been assigned to all such applications. The issuance of an acknowledgment is an interim arrangement by which a premises may be licensed in the expectation that the work required by this department may soon be done. Since the power to issue such acknowledgments, insofar as the city is concerned, has existed since November, 1945, it is reasonable to believe that persons who are sincerely determined to meet the requirements of law have been given sufficient time in which to do so. The action of the present Legislature, under chapter 283 of 1950, appears to indicate that this authority, except within rigid restrictions, will terminate on October 15, 1950. The department will then be forced to take drastic action with respect to many licensed lodging houses in the city.

Buildings which are not licensed and in which no alteration is contemplated have been the object of a survey by the Egress Division for the past four years. In this time we have averaged 40,000 inspections annually. The survey is practically completed and has revealed many violations of law. Our object has been first to order the more serious hazards removed; secondly to certify those properties which require a certificate under section 28; and finally to proceed to the lesser violations.

It is impossible to estimate the time required to carry out this program. We shall endeavor to stagger the certifications so that the ease load for the individual inspector may be constant. Routine inspections will be assigned on a daily basis.

I am fully aware that these requirements of law have proved onerous to many property owners; I wish to point out, however, that the law is an act of the State Legislature which we are obligated, under penalty, to enforce.

If your Honor approves, I shall be glad to go before the City Council and to answer such questions as may be directed to me by the members of that Body.

Very truly yours,

HARRY J. KEEFE,
Building Commissioner.

ACCEPTANCE OF BURTON STREET.

The following was received:

City of Boston,

Office of the Mayor, June 5, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Secretary of the Board of Street Commissioners relative to your order of May 1, 1950, concerning the holding of a hearing relative to accepting Burton Street Extension, Ward 22, as a public way.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
June 1, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order dated May 1, 1950:

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to hold a hearing relative to accepting Burton Street Extension (Ward 22) as a public way."

Burton street, Brighton, extends from Washington street 1,200 feet to Tilton street. Approximately 800 feet from Washington street to Bellamy street is a public way. The remaining 400 feet from Bellamy street to Tilton street is private. Four two-family and one single dwellings are located on this private portion.

There are no sanitary sewers or surface drains in this portion of Burton street, and the installation of new sewers would be extremely expensive due to the distance from existing facilities. However, consideration will be given to laying out an extension approximately 220 feet beyond Bellamy street which will serve all existing dwellings.

Very truly yours,
L. W. COSTELLO, Secretary.

ACCEPTANCE OF SEARLE ROAD.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Street Commissioners relative to your order of April 24, 1950, concerning the accepting, laying out, and constructing of Searle road, Ward 20, as a public highway.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
May 22, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order dated April 24, 1950:

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept, lay out, and construct Searle road, Ward 20, as a public highway."

Searle road, West Roxbury, extends from La Grange street southerly to Cottage avenue. The portion between La Grange street and Cowing street was laid out and constructed about fifteen years ago. The remaining portion of approximately 700 feet between Cowing street and Cottage avenue is a private way and has eight dwellings facing thereon.

This street is situated in a section of heavy ledge outcroppings, and therefore construction will be quite expensive.

A survey, plan, and estimate for the laying out of this street will be made. If it is found that the probable costs do not exceed the resulting benefit to the abutting properties, a hearing for acceptance will be scheduled.

Very truly yours,
GERALD F. SCALLY, Chairman.

ACCEPTANCE OF IRWIN AVENUE.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Street Commissioners relative to your order of April 24, 1950, concerning the accepting and laying out of Irwin avenue, Ward 18, as a public highway.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
May 22, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Reference is made to the following Council order dated April 24, 1950:

"Ordered, That the Board of Street Commissioners be requested, through his Honor the Mayor, to accept and lay out Irwin avenue, Ward 18, as a public highway."

Irwin avenue, Hyde Park, a private way, extends approximately 400 feet from Safford street to Ruskin road. Land on the northerly side is the proposed site of the new St. Joseph's Roman Catholic Church. A new rectory has already been constructed. Vacant land on the southerly side has also been acquired by the parish as the site of a proposed parochial school.

Construction of Irwin avenue will cost approximately \$9,500. It will be included in the 1950 program of the Board of Street Commissioners.

Very truly yours,
GERALD F. SCALLY, Chairman.

Gentlemen:

I transmit herewith communication from the Chairman of the Boston Housing Authority relative to your order of April 24, 1950, concerning the conversion of chapter 372 multiple dwelling units to either state or federally aided developments.

Respectfully,
J. B. HYNES, Mayor.

Boston Housing Authority,
May 23, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Subject: City Council Order of April 24, 1950, Concerning Conversion of Chapter 372 Multiple Dwelling Units to Either State or Federally Aided Developments.

Dear Mayor Hynes:

This will acknowledge receipt of your letter of April 24, 1950, on the above-referenced order.

Since all of the Chapter 200 money has been allocated, this Authority is of the opinion that the conversion to the state program will not be allowed for that reason.

For your information, the Chairman of the State Housing Board has been endeavoring for some time to have ten state-aided Chapter 200 developments in Massachusetts converted to the federal program, on which no decision has been made as yet.

The Authority will be pleased, however, to investigate the possibilities of conversion on the Chapter 372 small multiple program.

LEASING OF LAND IN WEST ROXBURY DISTRICT.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.
Gentlemen:

I transmit herewith a communication from the Commissioner of Public Works relative to the leasing of a small area of land in the West Roxbury district to Abraham Chotilian.

Accordingly, I respectfully recommend passage by your Honorable Body of the accompanying order to accomplish this purpose.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
June 1, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

At the present time, Abraham Chotilian owns and operates a small variety store at 3900 Washington street, Roslindale, adjacent to the Stony Brook conduit, which is under the jurisdiction of this department.

As he is desirous of expanding his small business, he has requested permission to occupy about 76 square feet of the land that is owned by the city and which is occupied by the above-referenced conduit.

The petitioner has submitted a plan showing the proposed structure that he intends to erect, and said plan has been reviewed and approved by the Sewer Division of this department.

We have no objections to the leasing of this small area of land to him for a period of ten years, and, in view of this, an order has been prepared by the Corporation Counsel, for approval of the City Council, authorizing the leasing of this area of land, at an annual rental of \$10, which, in my opinion, is a fair rental for the small area involved.

I respectfully recommend, therefore, that the enclosed order authorizing the leasing of the above-referenced land be submitted to the City Council for the approval of that Body.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Ordered, That the Commissioner of Public Works of the City of Boston be, and he hereby is, authorized to execute and deliver to Abraham Chotilian, in the name and behalf of the City of Boston, a written instrument satisfactory in form to the Corporation Counsel of the City of Boston whereby the City of Boston may lease for a period of ten (10) years, and for an annual rental of \$10 per annum, and upon such further terms and conditions not inconsistent herewith as the Commissioner of Public Works shall determine, a certain parcel of land situated in the West Roxbury district, bounded and described as follows:

Beginning at a point twelve and a half (12½) feet northerly from the intersection formed by the easterly line of Stony Brook Conduit and the northwesterly line of Franklin place; thence running northwesterly thirteen and 14/100 (13.14) feet to the southeasterly line of Washington street; thence turning and running northeasterly along said line of Washington street eleven and 56/100 (11.56) feet to a point; thence turning and running southerly seventeen and 50/100 (17.50) feet to the point of beginning; containing approximately seventy-five and 95/100 (75.95) square feet of land.

The above-described property is shown on a plan by J. A. Sharkey, C. E., dated May 18, 1950, on file in the Public Works Department.

Referred to Committee on Public Lands.

LAMPS IN FRONT OF CITY HALL.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.

Gentlemen:

I transmit herewith communication from the Superintendent of Public Buildings relative to

your order of May 1, 1950, concerning the cleaning and lighting at night of the lamps on the pillars and gate in front of City Hall.

J. B. HYNES, Mayor.

City of Boston,
Public Buildings Department,
May 26, 1950.

Thomas G. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

In reference to attached City Council order directing that the lamps on the pillars and gate in front of City Hall be cleaned and lighted, the above-mentioned lights have been thoroughly cleaned, but it has been customary in the past to have the lights turned on at the holiday season at Christmas. Furthermore, on account of the long period of daylight which is now taking place, it would seem unnecessary to have these lights turned on after the closing hours of city business.

Very truly yours,

GEORGE P. DONOVAN,
Superintendent of Public Buildings.

STREET PAVING BY PUBLIC WORKS DEPARTMENT FORCES.

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.

To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of May 8, 1950, concerning the installation of a system of street paving in the Public Works Department and to require said department to do all street paving in the residential areas of the city and in those areas of the commercial section of the city where such work can be done expeditiously.

Respectfully,

J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
May 22, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Mr. Shannon:

This is in reference to the following order that was passed in the City Council under date of May 8:

"Whereas, Recent investigation of street paving done in the City of Boston discloses flagrant violations of contract agreements; and

"Whereas, Terms of some of these contracts reveal that paving of streets in many instances includes only resurfacing without excavating and building of a new foundation; and

"Whereas, Several cities throughout the nation have proven that a change from private contracting to public works contracting has resulted in a substantial decrease in the cost of street paving and a subsequent increase in the quality and quantity of paving work; therefore, be it

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to install a system of street paving in the Public Works Department and to require said department to do all street paving in the residential areas of the city and in those areas of the commercial section of the city where such work can be done expeditiously."

It is my unqualified opinion that the costs to the taxpayers of this city would be greatly increased if the provisions of the above-referenced order were complied with. The contract system is the best system yet devised for effecting public improvements of the highest quality and at the lowest possible cost.

I am certain that the contract system for effecting major street construction and reconstruction improvements in this city is in the best interests of our city, and, in view of this, I am sorry to inform you that I do not feel that we should comply with the provisions of this order.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

Gentlemen:
I transmit herewith communication from the Register of Probate for the County of Suffolk in which he requests approval of the use of a certain sum of money allowed in the budget for the current year for the purpose of copying indexes or providing new indexes for the records in his custody.

There is also attached a suggested form of order for your approval.

Respectfully,
J. B. HYNES, Mayor.

The Commonwealth of Massachusetts,
Suffolk County,
Probate Court and Court of Insolvency,
Boston, June 1, 1950.

To His Honor John B. Hynes and the Honorable City Council of the City of Boston.

Gentlemen:
Chapter 217, section 15, of the General Laws (Ter. Ed.) provides that the Register of Probate and Insolvency "may, with the approval of the county commissioners and at the expense of the county, cause copies of the index or new indexes to the records which are in his custody, to be printed and sold at a price not less than the cost of paper, printing, and binding."

This work is essential every twelve or thirteen years and it is necessary at this time that the index to the records in my custody for the period from January 2, 1936, to December 31, 1947, inclusive, be consolidated and printed. This index is to be made up from an existing card index, the cards of which are badly worn and occupy a large amount of valuable space. Said cards fill one hundred and eight long index drawers in a steel cabinet. When consolidated the index will be bound into either two or three volumes, thus leaving the space it now occupies for current and future card index purposes.

The work preliminary to printing and binding has been completed, and we are now ready to advertise for bids.

The sum of \$16,500 is available for this work in the 1950 budget.

In accordance with the provisions of said statute your approval is hereby respectfully requested to consolidate, print, and bind said index.

Respectfully yours,
ARTHUR W. SULLIVAN, Register.

Ordered, That the Register of Probate for the County of Suffolk be authorized to prepare, and have printed, and sell, in accordance with the provisions of section 15 of chapter 217 of the General Laws, copies of the indexes of the records and papers in his custody, and to expend for that purpose, for temporary employees not exceeding twenty-five hundred dollars, and for the printing of said indexes not exceeding sixteen thousand five hundred dollars.

Very truly yours
(Signed) J. B. Hynes
Mayor

The Chairman stated that the Mayor approved the order appropriating \$755,628.08 for the construction and furnishing of new school buildings, etc., which order reads as follows:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, the following appropriations are hereby made to meet the estimated cost of "construction and furnishing of new school buildings, both temporary and permanent, including the taking of land therefor, and for school yards and the preparing of school yards for use, and for rent of hired school accommodations" for the fiscal year 1950:

LAND AND BUILDINGS FOR SCHOOLS	
Item 1—Rent of hired accommodations	\$ 6,420.00
Item 2—Elihu Greenwood District, Hyde Park: Land, plans, construction and furnishing of elementary school	749,208.08
Grand Total for Land and Buildings for Schools	\$ 755,628.08

The above sum of \$755,628.08 appropriated for land and buildings is obtained as follows:

City of Boston
Office of the Mayor
City Hall

April 14, 1950

To the School Committee
Gentlemen:

I have considered appropriation orders adopted by you at a meeting held on Thursday, March 30, 1950, providing for the appropriation under the provisions of the existing law of the following amounts for the fiscal year 1950:—

For the Construction and Furnishings of New School Buildings, etc.	\$ 755,628.08
For the Alteration and Repair of School Buildings, etc.	2,646,138.31
For General School Purposes	23,592,719.75

As a result of the conference held with you yesterday afternoon, I am approving as submitted, the orders for the first two purposes set forth in the previous table. I feel it necessary, however, for the reasons outlined at yesterday's conference to disapprove in part three of the five specific appropriations entering into the grand total indicated in the third item in the foregoing table. The disallowances made by me in this respect total \$443,500 and I am of the opinion that these reductions may be made without seriously impairing the conduct and maintenance of the School Department for the current fiscal year. The following schedule indicates the specific action taken by me in this respect:—

Placed on file.

a. From the amount available under the \$50 allowance	\$ 753,814.08
b. From the unexpended balance from 1949	1,814.00
Total	\$ 755,628.08

On roll call the order passed by the following vote:

YEAS—Mrs. Dacey, Messrs. McDevitt, Muchnick, and White—4.

NAYS—0.

ABSENT—Mr. Ward—1.

The Chairman stated that the Mayor approved the order appropriating \$2,646,138.31 for the Alteration and Repair of School Buildings, etc., which order reads as follows:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, the following appropriations are hereby made to meet the estimated cost of "alteration and repair of school buildings and for furniture, fixtures, and means of escape in case of fire, and for fire protection of existing buildings, and for improving existing school yards," for the fiscal year 1950,

based on the accompanying detailed estimates:

The following is the appropriation order for General School Purposes:

ORDERED, That in accordance with the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 117 of the Acts of 1949, to meet the estimated cost of maintenance of the Boston public schools for the fiscal year 1950, exclusive of "alterations, repairs,

furniture and fixtures" for which separate appropriation orders are made, the following amounts are hereby appropriated to cover expenditures under the control of the School Committee and for the purposes indicated below:

For general school purposes:

Administration	\$1,085,629.65
Instruction	17,945,356.06
Auxiliary Services	1,316,893.53
Operation of Plant	2,588,197.98
Fixed Charges	213,142.53
Pensions to teachers (non-contributory)	(1)
	\$23,149,219.75 (2)

(1) No appropriation from tax levy. These pensions are paid from (a) income received from Commonwealth, (b) unexpended balance of last year, (c) accrued interest of Permanent School Pension Fund.

(2) It is expected that \$4,124,516.45 of this amount will be provided from estimated income for 1950, from unexpended balances from 1949, and from the estimated amount to be received from the Commonwealth of Massachusetts by the City of Boston under Chapter 643 of the Acts of 1948.

On roll call the order passed by the following vote:

YEAS—Mrs. Dacey, Messrs. McDevitt, Muchnick, and White—4.

ABSENT—Mr. Ward—1.

In connection with the foregoing Annual Appropriation Orders the following communication was received:

Boston Public Schools
School Committee
15 Beacon Street

April 18, 1950.

Miss Louise Kane, Secretary
Boston School Committee
15 Beacon Street
Boston 8, Massachusetts
Dear Miss Kane:

I shall not be present at the School Committee Conference and Meeting to be held this afternoon, Tuesday, April 18, 1950.

In this connection, however, may I state that I am in harmony with the cut of \$443,500 as agreed upon at the meeting held in the Mayor's Office on Apr. 13, 1950.

Very truly yours.

(Signed) Michael J. Ward,
Member, Boston School Committee.

Placed on file.

NOTICE TO BOARD OF ASSESSORS OF ANNUAL APPROPRIATIONS

A communication was received from the Business Manager, under date of Apr. 18, 1950, reporting that under the provisions of Section 3 of Chapter 224 of the Acts of 1936, as amended by Chapter 513 of the Acts of 1945; and under the provisions of Chapter 643 of the Acts of 1948, the School Committee is required to certify not later than May 1st of each fiscal year to the Board of

Assessors the amount of its total appropriations that must be raised by taxation.

The total of the appropriations for the year 1950 is \$26,550,986.14, made up as follows:

(a) General school purposes	\$23,149,219.75
(b) Alteration and repair of school buildings, furniture and fixtures	2,646,138.31
(c) Land and buildings for schools, including rent of hired school accommodations	755,628.08
	\$26,550,986.14

The Business Manager recommended the passage of the accompanying orders certifying to the Board of Assessors that the sum of \$22,341,485.25 is to be raised by taxation in the year 1950.

The amount to be raised by taxation for 1950, viz., \$22,341,485.25, is \$607,990.75 more than the amount raised by taxation for the year 1949. This increase in the amount to be raised by taxation is due to the fact that although the total of the appropriations for the year 1950 is \$826,541.80 more than the total of the appropriations for the year 1949, the total of the credits (unexpended balances and estimated income, and the estimated amount to be received by the City under Chapter 643 of the Acts of 1948) for the year 1950 is \$218,551.05 more than the total of the credits for the year 1949—(\$826,541.80 minus \$218,551.05 equals \$607,990.75).

The increase in the appropriations for 1950 over 1949 is due in large part to the annual increments and to substantial salary increases.

Placed on file.

The following were offered:

MAINTENANCE OF THE PUBLIC SCHOOLS

1. ORDERED, That under the provisions of Chapter 224 of the Acts of 1936, as amended by Chapter 513 of the Acts of 1945, and as amended by Chapter 117 of the Acts of 1949; and under the provisions of Chapter 643 of the Acts of 1948; the Board of Assessors is hereby notified that the School Committee of the City of Boston has appropriated for the fiscal year 1950 the sum of \$25,795,358.06 for maintenance of the Boston Public Schools (General School Purposes, \$23,149,219.75, plus Alteration and Repair of School Buildings, Furniture and Fixtures, \$2,646,138.31).

2. ORDERED, That the Board of Assessors is hereby further notified that of the amount specified in the preceding order, viz., \$25,795,358.06, the sum of \$21,587,671.17 should be included in the total amount to be raised by taxation for maintenance. ENGLISH HIGH SCHOOL

The following communication was presented:

161 Devonshire Street
Boston 10, Mass.

March 30, 1950

Members School Committee
Boston,
Massachusetts
Gentlemen:

I was rather disturbed after reading article in Post Tuesday,

March 28th. of a gathering of the Boston English High School Alumni. As a member of the Alumni Class '89, I regret I was not in attendance to refute some of the remarks of one Jack Sandler. Such a lack of knowledge and wild statements. With regard to a New Building—Has he no understanding of the financial condition of the City of Boston? The cost of which would be \$6,000,000. Let me ask Jack where is the money coming from? Does he not realize that in making up the budget, the tremendous appropriation set aside for our school system? Why is the coming tax rate mentioned at \$61.00, which is partly the cause of same. Is there not a demand for the improvement of many things that have to be set aside for lack of funds?

Why the reflection on the fair name of the good people who are compelled to live in the South End on account of the present housing situation? Why this called for Un-American remark—"Here you have in the South End a locality that has deteriorated, a locality that does not breed good citizenship." It is not where a school is located; rather what kind of pupils it develops. Are they bodily and mentally clean, and uphold the prestige of the school on trains and buses.

Yours,

(Signed) Wm. H. Leonard
E. H. S. Class '89

Placed on file.

On motion of Mrs. Dacey, the Committee adjourned to meet again on Thursday, May 4, 1950, at 2 o'clock P. M.

FORTY-HOUR LAW

Chairman: The Chair wants to express his disapproval of the action of the School Committee today in conference in requesting the City Council to disregard its previous letters affecting the forty-hour law without again giving all the custodians a chance to express their preference on the question of whether or not it should be waived.

The School Committee itself is in no way involved in the de-

cision on the forty-hour law. It is strictly the responsibility of the City Council. The only reason that the School Committee requested the City Council to waive the provision of the forty-hour law was because there was an overwhelming vote of all the employees of that particular department. As a matter of fact there was an overwhelming majority asking the School Committee to request the City Council to exempt the custodians from the provisions of the forty-hour week on two different occasions. The first was a voice vote and the second vote was conducted under the Australian system at the request of the City Council.

However, if the School Committee had been definitely informed of the results of the enactment of the forty-hour law in the administration of the Department, the Chair would have no objections to the action taken today, but as yet no member of this Board has been officially informed of how this forty-hour law will be administered.

Furthermore, the School Committee has now made a decision for which they have no budgetary provisions until Oct. 15, 1950. They have made a decision that will not affect the administration of the Custodians' Department until that date. If this decision had been postponed until we had the necessary funds then we could certainly have acted more equitably. An agreement was reached between the School Committee and the Mayor at a conference in the Mayor's Office that there would be only \$125,000 appropriated for this purpose by the School Committee to carry out the provisions of the forty-hour law from Oct. 15, 1950.

Mrs. Dacey: I would like to make a statement, too. In view of the fact that the opinions of the various groups of custodians have been transmitted to each of us as individual members of the School Committee, and in view of the fact that we are aware of the feeling both of the Union and the larger group which is known as the Custodians' Association, I feel that at this time nothing would be accomplished by waiting for another vote; and since the issue is so pressing at this particular time and since this action of ours today will encourage the City Council to act more speedily one way or the other and since some system in regard to the forty-hour week should be set up immediately, that is why I voted for the letter being sent immediately to the City Council.

I think that if the forty-hour week is established, it is possible to set up the administration of the forty-hour week. If it is not set up by the City Council, then we have no further action to take one way or the other.

The Committee adjourned.

Secretary pro tempore

PROPOSALS FOR BITUMINOUS CONCRETE PAVEMENT IN CAPEN PLACE, WARD 17, CAPEN STREET, APPROXIMATELY 207 FEET SOUTHWESTERLY; HENDRY STREET, WARD 15, CLARKSON STREET, 115 FEET NORTHWESTERLY; HESSTON TERRACE, WARD 13, PLEASANT STREET, 200 FEET SOUTHWESTERLY, AND WENLOCK ROAD, WARD 16, MINOT STREET TO GALLIVAN BOULEVARD.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for bituminous concrete pavement in Capen place, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Bituminous Concrete Pavement in Capen Place, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 28, 1950, with a certified check for ONE THOUSAND (1,000) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

PROPOSALS FOR ARTIFICIAL STONE SIDEWALKS IN EAST FIFTH STREET, WARD 6, FROM NO. 855 EAST FIFTH STREET TO FARRAGUT ROAD; FARRAGUT ROAD, WARD 6, FROM EAST SIXTH STREET TO EAST FIFTH STREET, AND EAST SIXTH STREET, WARD 6, FROM FARRAGUT ROAD TO 225 FEET WESTERLY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for artificial stone sidewalks in East Fifth street, etc. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract, and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Artificial Stone Sidewalks in East Fifth Street, etc.," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JUNE 28, 1950, with a certified check for TWO HUNDRED (200) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. There will be a charge of two dollars (\$2) for each set of plans and specifications taken out. If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

SUFFOLK COUNTY.

PROBATE COURT AND COURT OF
INSOLVENCY, BOSTON.

PROPOSALS FOR PRINTING AND BINDING AN INDEX OF PROBATE CASES FILED IN SUFFOLK COUNTY REGISTRY OF PROBATE FROM 1936 TO 1947, INCLUSIVE, AND FOR CANVAS JACKETS TO COVER INDEX VOLUMES.

The Register of Probate and Insolvency for Suffolk County invites proposals for the printing and binding of an index of all cases except divorce cases filed in the Registry of Probate for Suffolk County from January 2, 1936, to December 31, 1947, inclusive, said index to be printed and bound in accordance with the following specifications: It shall consist of twenty-five sets of three volumes to each set, seventy-five volumes in all; each volume is to contain as nearly an equal number of pages as possible, with no surnames beginning with the same letter appearing in more than one volume of any set of volumes. In addition to the foregoing, volume one of said index shall contain three pages and volumes two and three, two pages of printed material, the substance, type, style, and setup of which is to be hereafter determined by said Register.

Said index is to be printed on ledger stock of the same weight, quality, and size as the probate index covering the period 1923 to 1936; the pages of each volume to be numbered at the bottom in parentheses; the type to be the same as that appearing in said index volumes 1923 to 1936, and the volumes to be similar in size, style, binding, material, and in every other respect to index volumes of 1923 to 1936, so that they will, as nearly as possible, match and be the same in every detail and be made uniform with said index volumes of 1923 to 1936 except as to number of pages to the volume, titles, and printing on said three pages in volume one and two pages in volumes two and three and stampings on backs and on front and back covers; each volume to contain as nearly as possible the same number of pages.

Each volume shall be bound in half black morocco leather and black cloth, reinforced with linen tape in the center of folds and between the front and back folds, sewed with a good grade of Irish linen thread, double strapped, with sprinkled edges, stamped in gold on back and on front and back covers in a manner that will indicate dates and the letter of the alphabet with which the first and the last surname contained in each volume begins, the exact lettering to appear thereon to be hereafter determined by said Register of Probate.

Each volume is to be wrapped and sealed in heavy wrapping paper of good and substantial quality, marked "Probate Index 1936-1947" and, in addition, marked so as to indicate the letter of the alphabet with which the first and the last surname contained therein begins, each set of volumes to be wrapped together and sealed and marked "Probate Index 1936-1947."

Also, two sets of canvas jackets or covers for each of six index volumes, being six jackets in all, made to fit said volumes, shall be furnished, said jackets to be stamped in black ink on back and on front and back covers, in a manner that will indicate contents, dates, and the letter of the alphabet with which the first and the last surname contained in said volume begins, the exact lettering to appear thereon to be hereafter determined by said Register, said jackets to be made of the same material and in the same fashion as the jackets covering index volumes 1923 to 1936.

Samples of 1923 to 1936 index and canvas jackets may be examined at said Registry.

The work is to be completed and delivery made not later than December 1, 1950.

Envelopes containing proposals must be sealed and plainly marked "Proposals for Printing and Binding Probate Index 1936-1947" and must be in duplicate and left at the office of said Register not later than July 7, 1950, at 12 o'clock noon, at which time they will be opened. A certified check in the sum of five hundred (500) dollars payable to the County of Suffolk shall be filed with each bid.

The right to reject any or all proposals is hereby reserved.

SPECIFICATIONS FOR REMOVAL OF PRESENT STEAM BOILER AND REPLACING SAME WITH A WEL-MCLEAN NO. 44-8 BOILER, OR EQUAL, AT CHARLESTOWN COURT HOUSE.

The Superintendent of Public Buildings of the City of Boston, hereinafter referred to as the Awarding Authority, invites sealed proposals for installing boiler at Charlestown Court House, City square, Charlestown.

Proposals will be received until 12 o'clock noon, Wednesday, July 5, 1950, at the office of the Awarding Authority, Room 1005, City Hall Annex, at which time and place they will be opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$400, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required prior to the award of a contract.

Specifications may be obtained on and after Monday, June 19, 1950, at the office of the Awarding Authority.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract, will be required of the successful general contractor.

The Awarding Authority reserves the right to reject any and all bids if it be in the public interest so to do.

HIDDEN SPRINGS UNDER SOUTH BOSTON GYMNASIUM FOUND TO BE DAMAGING FLOORING AND PREVENTING USE OF HANDBALL COURTS—REPAIRS AND REMEDYING OF CONDITIONS UNDER WAY.

Water conditions due to hidden springs have been discovered to be seriously damaging the handball courts of the South Boston Gymnasium. This has been made known through a communication from the Superintendent of Public Buildings to Mayor John B. Hynes. Floors in the courts have so buckled that in some places the top flooring has been pulled loose from the under flooring. The city has undertaken to remedy conditions immediately, and contract for the work has been awarded. The letter informing the Mayor of the conditions reads as follows:

PUBLIC BUILDINGS DEPARTMENT.

Boston, June 6, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

At the South Boston Gymnasium there exists a water condition which appears to be caused by hidden springs. This water condition is causing serious damage to the wooden floors of the handball courts, which have buckled so badly that the floors have an undulating

REFRESHMENT AND BOATING PRIVILEGE FOR JAMAICA POND RENEWED.

The Mayor has approved the request contained in the following letter:

PARK DEPARTMENT.

Boston, May 22, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

The refreshment and boat privilege at the boat landing at Jamaica Pond expires on June 30, 1950.

This privilege has been held for more than thirty years by Mrs. Elizabeth Curtis, of 5 Pickering avenue, Roxbury. She has paid an annual rental fee of \$600 to the city for this privilege. Mrs. Curtis is a widow.

She has conducted this concession in a manner satisfactory to the Board of

VETERANS' SERVICES EXPENDITURES FOR AID TO THOSE IN NEED AGAIN SHOW AN INCREASE FOR MAY, 1950, OVER MAY, 1949—300 MORE CASES ON ROLLS THIS YEAR THAN LAST—REPORT TO MAYOR JOHN B. HYNES SHOWS 418 CASES CLOSED, HOWEVER, DUE TO FINDING OF EMPLOYMENT IN PRIVATE INDUSTRY.

For another month it has been shown in the report of the Commissioner of Veterans' Services that the expenditures have increased for the month of May over the same month in the preceding year. This increase has amounted to \$38,561.20. This is due to the fact that the department gave aid to 300 more cases this year than last for the month of May. At the same time it was announced that 418 cases had been closed due to employment found for applicants who have thus been eliminated from the rolls. The full report of the Commissioner, Francis X. Cotter, to his Honor, Mayor John B. Hynes, reads as follows:

Boston, June 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

SIR:

I have the honor to submit the report of the Department of Veterans' Services for the month of May, 1950.

Very truly yours,

FRANCIS X. COTTER, Commissioner.

DEPARTMENT OF VETERANS' SERVICES IN MONTHLY REPORT TO MAYOR HYNES AGAIN SHOWS INCREASE OVER PREVIOUS YEAR.

(Continued from page 653.)

Expenditures for veterans' benefits for May, 1950, show an increase of \$38,561.20 in comparison with expenditures for the corresponding period of 1949. This increase is attributable to the fact that the department aided 300 more cases than in May, 1949.

The 1,628 cases aided during the month of May, 1950, represent a total of 3,522 individuals benefited through the financial facilities of the Department of Veterans' Services.

There were 418 cases closed during the month of May, 1950, because of obtaining employment, having been awarded unemployment compensation, and becoming ineligible to receive financial assistance for miscellaneous reasons.

During the month of May this department collected \$86.53 which represents refunds by former beneficiaries who were found to have drawn aid under circumstances which required the repayment of same to the city.

Very truly yours,

FRANCIS X. COTTER, *Commissioner.*

HIDDEN SPRING FOUND UNDER SOUTH BOSTON GYMNASIUM.

(Continued from page 653.)

washboard surface over practically their entire areas. In fact, in the No. 1 court, this buckling is so great that the top floor has pulled loose from the under floor, and turned over in one particular location. In the other court the floor in one section has disintegrated from dry rot, which indicates an intermittent or alternating wetting and drying process exists.

The concrete stairway leading to the No. 1 court shows a continuous seepage of water where the tread of the third lowest step meets the riser of the step above it.

The general conditions there would indicate that water exists throughout these areas.

There are three steps entailed to correct this condition.

1. Work of an exploratory nature, to determine the source or sources of this water, its nature and magnitude.
2. The work necessary to eliminate same and prevent its recurrence.
3. The remedial work necessary to repair the damage which has been done.

This exploratory work would consist of tearing out the wooden flooring and exposing the concrete slab beneath same for examination.

The elimination and preventive work would consist of installing weeping drains leading to a sump pit and installing of a sump pump and pipe line to dispose of accumulated water.

The remedial work would consist of the installation of a waterproof membrane over entire floor areas and the

installation of a hot process asphalt mastic floor in the above courts.

From the above it can be readily seen that it is a practical impossibility to write a comprehensive specification to cover the work as described, and I am therefore respectfully requesting that I be permitted to award a contract covering this work to the Martin J. Kelly Company, Inc., 75 Stedman street, Jamaica Plain, Mass.

The Martin J. Kelly Company, Inc., is a reputable contracting company, which has been in business for many years and has done considerable work of this nature for the City of Boston and for private concerns. I therefore feel that the best interests of the city will be protected by awarding this contract to this company without the usual form of advertising, on a time and material basis, in the amount of \$5,000.

Respectfully yours,

GEORGE P. DONOVAN,

Superintendent of Public Buildings.

Park Commissioners and has discharged her financial obligations to the city when due; therefore, the Board of Park Commissioners respectfully requests that she be granted a new license for five years beginning July 1, 1950, at the same rate she is now paying, namely, \$600 a year.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with contractors and supply houses for furnishing labor and supplies. Communications from heads of the departments interested were as follows:

DEPARTMENT OF PUBLIC CELEBRATIONS.

Boston, May 31, 1950.

HON. JOHN B. HYNES,

Mayor of Boston.

DEAR MR. MAYOR:

I respectfully request your authority to award a contract, without advertising,

for the Charlestown Night Before Banquet, June 15, 1950, to McKeon & Casby, caterers, of Boston, in an amount not to exceed five thousand two hundred and fifty dollars (\$5,250). This company has many years' experience in serving very large groups; it is fully covered by Workmen's Compensation and liability insurance and it employs competent employees. The contract price includes a turkey dinner for 1,800 persons, services, tables and chairs, and accessories. The banquet food will be prepared and served under the personal direction of Mr. McKeon.

Inasmuch as the contract calls for personal services of a professional caterer and an experienced staff, and inasmuch as professional experience of this kind does not readily lend itself to definitive description for the purpose of public bidding, no useful purpose would appear to be served by advertising.

Respectfully,

JOHN D. BROWN,
Director of Public Celebrations.

PARK DEPARTMENT.

BOSTON, June 14, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

On the sixth day of June, 1950, we issued service order No. 343 to J. F. Stack & Co., 25 Huntington avenue, for removing the broken and cracked concrete blocks in front of the Elephant and Lion Houses at Franklin Park Zoo, an area of approximately 1,800 square feet, and replacing them with new concrete blocks, at a price of 50 cents per square foot or a total cost not to exceed \$900.

After starting this work we were faced with another problem as a result of calls from the press and requests from the general public, to have the lions and especially the lion cubs displayed in cages on the outside of the Lion House.

Accordingly, on June 9, we issued service order No. 351 for the erection of an 8-inch brick wall, 14 feet x 20 feet, which would separate the older lions from the lion cubs. In other words, we now have two cages where formerly we had only one.

The total of these two service orders amounts to \$1,580. Service Order 351 was not anticipated when we issued Service Order 343. However, as these two amounts are in excess of \$1,000, and the orders were issued to the same contractor, I would ask the approval of your Honor for the work we have done—under the circumstances stated above.

I might mention that this work, particularly the setting off of the lion cubs in a special display, has evoked wide commendation in all the papers of the city as well as producing many compliments from the general public.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

PENAL INSTITUTIONS DEPARTMENT.

BOSTON, May 31, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

Owing to a recent law passed, chapter 69, Acts of 1941, which provides "that

all persons committed for any crime, unless the court otherwise orders, have or cause to be taken his name, age, height, weight, photograph and general description and copies of his fingerprints in accordance with the fingerprint system of identification of criminals. All such photographs and identifying matter shall be transmitted forthwith to the Commissioner of Public Safety." The above law took effect as of June 3, 1941, and it is compulsory that all inmates be photographed upon commitment on and after that date.

In accordance with the above law, I therefore respectfully request permission to award a contract, without publicly advertising, to Fay Foto Service, Inc., for the performance of taking photographs of all persons committed to the House of Correction, Deer Island, in the sum of one and seventy-five hundredths dollars (\$1.75) for each set of two pictures of each person photographed. Estimated cost will exceed \$1,000.

This type of work is necessarily of a very confidential nature. The Fay Foto Service, Inc., has done this work for a number of years in a highly satisfactory manner. Because this company has guarded carefully these confidences and because confidential matter is best entrusted to one company, I feel that the city's interests will be best served by engaging their services.

Very truly yours,

EDWARD L. FRIEL,
Penal Institutions Commissioner.

PUBLIC WORKS DEPARTMENT.

BOSTON, June 7, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In connection with the current contract which the General Ship and Engine Works, Inc., 336 Border street, East Boston, Mass., has with the city for miscellaneous repairs to ferryboat "Daniel A. MacCormack," which was approved by your Honor April 25, 1950, the United States Steamboat Inspection Service of the Coast Guard requires the following work to be done, which is not included in the contract:

1. Main Steam Pipe—The main steam pipe, from the main steam valve to the throttle valve and from the boiler stop valves to the steam drum, taken down, annealed, tested and reinstalled in place with new insulating cover, as originally.

2. Furnish and install a new valve disc in the main stop valve.

3. Furnish and install a new throttle valve for the air pump.

In view of the fact that the General Ship and Engine Works, Inc., is now working on the boat, I think the best interests of the city would be served by dispensing with advertising for bids to do this work and I respectfully request the authority of your Honor to allow me to issue a service order to the General Ship and Engine Works, Inc., to do this work at a cost not to exceed \$1,800.

Respectfully yours,

GEORGE G. HYLAND,
Commissioner of Public Works.

SUPPLY DEPARTMENT.

BOSTON, June 6, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On May 29, 1950, your Honor approved a letter to award orders for furnishing paint to the Traffic Commission to the following companies in the amounts indicated:

Wright Paint and Varnish Company, \$975; Waterproof Paint and Varnish Company, \$367.50.

Materials of both these companies have been tested by the Traffic Commission and have been found to be unsatisfactory for their purposes.

It is therefore requested that I be granted authority to cancel the awards to Wright Paint and Varnish Company and Waterproof Paint and Varnish Company and issue orders to Protective Coating Company, the lowest bidder on materials exactly specified for Items 3 and 4.

Total amount of award will be \$1,750.50.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, June 13, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Permission is respectfully requested to award a contract, without public advertisement, to The Directory for Mother's Milk, Inc., 221 Longwood avenue, Boston, for furnishing mother's milk for use in the Pediatric Department of the Boston City Hospital for a period of six months from July 1, 1950, to December 31, 1950, inclusive, at a price of 25 cents per ounce.

There is a very marked scarcity of this type of breast milk, and it is extremely important that the Boston City Hospital have an adequate supply of this commodity in the treatment of many premature and very sick babies. Since The Directory for Mother's Milk, Inc., is the only source of supply, no advantage would be gained by publicly advertising for bids.

Total amount of contract is not to exceed \$15,000.

Respectfully yours,

EUGENE K. WELSH,
Acting Superintendent of Supplies.

BOSTON, June 15, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Boston City Hospital for 500 boxes X-ray film. Bids for same will be publicly opened and read in this office on June 22, 1950.

The City Hospital has requested emergency deliveries of this X-ray film. Permission is therefore requested to issue orders for approximately 36 boxes to each of the following companies at the amounts indicated:

General Electric	X-Ray Company.
\$1,742.40;	Harper X-Ray Company.
\$1,742.40;	E. M. Parker Company.
\$1,742.40.	

These orders will cover the requirements for the City Hospital until July 1, 1950.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, June 13, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

This department is in receipt of a requisition from the Water Division of the Public Works Department for furnishing 770 tons of ice for drinking fountains throughout the city.

It is respectfully requested to award a contract, without public advertisement, to Boston Ice Company at a price of \$7 per ton. Since Boston Ice Company is the only supplier, no advantage could be gained from a public advertisement for bids.

Total amount of contract will be \$5,390.

Respectfully yours,

EUGENE K. WELSH,
Acting Superintendent of Supplies.

CHANGES IN CONTRACT.

BOSTON HOUSING AUTHORITY.

M. Slotnick Corporation has been ordered to change the contract for the general construction of ten houses at North avenue, West Roxbury, as follows:

For relocating house 400B, from lot 3 to lot 2, and house 102, from lot 2 to 51 Paragon road, \$964.89.

An equitable adjustment of the contract price and the contract time is established as follows: the contract price is increased \$964.89; the contract time is not changed.

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with John F. Shea Company, Inc., for roofing and other work at the Dorchester High School for Boys from May 31, 1950, to July 28, 1950. This extension was requested for the reason that certain work cannot be finished until the close of school sessions.

Approval has been given for the extension of the time of completion of the contract with Joe Cifre, Inc., for stage equipment at Teachers College from June 1, 1950, to July 1, 1950. This extension was requested because of delay in securing fabric for this work.

PUBLIC WORKS DEPARTMENT.

Approval has been given for the extension of the time of completion of the contract with Central Construction Company, for laying sheet asphalt pavement in Albano street, Bradwood street, Corey street, Haslet street, Rockland street, and Spring street, from June 30, 1950, to August 31, 1950. This extension was requested for the reason that the contractor will be delayed in starting work on Spring street pending decision of the MTA on the type of service to be furnished on that line.

Approval has been given for the extension of the time of completion of the contract with Hancock Construction Company, for laying sheet asphalt pavement in Armstrong street, Gay Head

street, Smith street, Terrace street, and Wise street, from June 30, 1950, to September 30, 1950. This extension was requested for the reason that the work has been delayed because of the illness of the president and general manager of the contracting company.

EXTRA WORK UNDER CONTRACT.

PUBLIC WORKS DEPARTMENT.

S. J. Tomasello Corporation has been directed to perform the following extra work under the contract for laying sheet asphalt pavement in Summit avenue and Sutherland road, dated November 9, 1949.

Items ordered: In Sutherland road, excavate and remove approximately 15 cubic yards of rock at \$10 per cubic yard; in Sutherland road, at the intersection of Englewood avenue, remove approximately 350 square yards of existing pavement at 70 cents per square yard. Estimated cost of extra work, \$395.

Walter Reed Corporation has been directed to perform the following extra work under the contract for sheet asphalt pavement and sewerage works in Life street and Guest street, Brighton, dated April 11, 1950.

Items ordered: Build one brick chute to catch basin at agreed price, \$60; furnish and place 6 cubic yards Class 30 concrete at agreed price of \$15 per cubic yard, \$90; furnish and place 15 tons screened gravel at agreed price of \$1.50 per ton, \$22.50. Estimated cost of extra work, \$172.50.

James A. Freaney, Inc., has been directed to perform the following extra work under the contract for sewerage works: Cleaning stone culvert in Commonwealth avenue and private land, between south side of Commonwealth avenue and Boston & Albany Railroad, Brighton, dated March 28, 1950.

Items ordered: Erect new bulkhead at Charles River end of culvert.

Labor—Four laborers, 8 hours each at \$2.20, \$70.40; 4 laborers, 6 hours each at \$2.20, \$52.80; 1 dump truck, A17927, 4 hours at \$4.50, \$18; total, \$141.20.

Materials—Three tons sand at \$1.12, \$3.36; 1½ tons clay at \$2, \$3; 24 pieces fir, 6 inches x 6 inches x 6 feet, 12 cents each, \$2.88; 90 feet fir, 2 inches x 12 inches, at 12 cents per foot, \$20.76; labor, \$141.20; total labor and materials, \$161.96. Estimated cost of extra work, \$161.96.

The bulkhead built by city forces had given way and a new one was required.

POLICE DEPARTMENT ORDERS.

General Order No. 1,331.

The following-named officer having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that he is incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that he be retired from active service in the Police Department, effective Saturday, June 17, 1950, at 7:45 o'clock A.M.:

Patrolman William A. Fox, Division 17, 30 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,332.

Acting under provisions of chapter 658, Acts of 1945 (State-Boston Retirement System), the Boston Retirement Board has approved for retirement on account of accidental disability, the following-named police officer, effective at the close of business Friday, June 30, 1950.

In view of this operation of law, after June 30, 1950, the said police officer shall no longer be an active member of this department, and it is hereby ordered that its records be so amended.

Patrolman Lawrence F. Manning, Traffic Division.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,333.

Patrolmen Thomas A. Gormley and Anthony J. Scavongelli of Division 8, Harbor Police, are hereby commended and each is granted two days' extra vacation for meritorious duty performed on June 9, 1950.

While making an investigation in Dorchester Bay, the officers heard cries for help and observed a boy struggling in the water. Patrolman Gormley dove, fully clothed, from the "Argus" and went to the assistance of the boy who grappled with the officer. Patrolman Scavongelli saw the difficulty of Patrolman Gormley in trying to hold the boy above the surface and dove, fully clothed, into the water, and the two officers swam with the boy to the float at the Dorchester Yacht Club. There they applied artificial respiration to revive the boy and effected his transfer to the City Hospital where he was later released.

The commissioner is pleased to recognize the courageous conduct displayed by these officers who disregarded their own safety and undoubtedly saved the life of this boy.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,334.

The following-named persons are hereby reinstated in this department as patrolmen and assigned to divisions stated, effective Wednesday, June 21, 1950, at 7:45 o'clock A.M.:

Joseph C. Stanley, Division 10.

Harold Norton, Division 17.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

FIRE DEPARTMENT ORDERS.

General Order No. 34.

I. ASSIGNMENT AS SUPERINTENDENT OF MAINTENANCE.

The following assignment, which became effective as of 8 A.M., Wednesday, May 31, 1950, is hereby announced:

District Chief John A. Martin, District 7, to Superintendent of Maintenance.

II. TRANSFERS.

The following transfers, effective at 8 A.M., Wednesday, June 21, 1950, are hereby announced:

Superintendent of Maintenance John A. Martin, from District 7 to Maintenance Division.

Lieut. Robert E. Kenneally, from Engine 39 to Fire Prevention Division.

Lieut. Robert J. Crawford, from Ladder 18 to Engine 39.

Lieut. John F. Doherty, from Ladder 20 to Ladder 18.

III. RESIGNATION.

The following resignation, which became effective as of 8 A.M., Sunday, June 11, 1950, is hereby announced:

Hoseman John J. Cummings Jr., Engine Company 23.

IV. CORRECTION IN DESIGNATION OF FIRE ALARM BOXES.

In connection with General Orders, No. 32, dated June 8, 1950, regarding the installation of new fire alarm boxes, the following corrections shall be made:

Change designation of Box 3786 to read as follows:

3786, Washington street and Needham road.

Box 3817, designation should read as follows:

3817, Beaver street and Braeburn road.

Box 2483, Rockview street, should be changed to Rockwood street. Designation of this box will read as follows:

2483, Pond and Rockwood streets.

V. CORRECTION IN STREET NAME.

In General Orders, No. 68, dated December 28, 1949, the following change in name of street was given:

Needham road, formerly Wolcott road, Hyde Park, from Truman Highway to Milton line.

This is an error and should be corrected to read as follows:

Needham road, formerly part of Wolcott road, Hyde Park, from Washington street to Milton line.

Wolcott road, Hyde Park, from Truman Highway to Washington street.

June 5, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I return herewith an order from the City Council requesting the Metropolitan District Commission to name the intersection of Cambridge street and Soldiers Field road in honor of Pfc. William A. Reilly, who was killed in action February 16, 1945.

As this intersection is under the jurisdiction of this commission we have no power, as a commission, to name any boulevard or intersection without an act of the Legislature.

Therefore it will be necessary that an act be put in the Legislature.

Very truly yours,
WILLIAM T. MORRISSEY,
Commissioner.

NAMING OF GATE AT ARNOLD ARBORETUM.

The following was received:

City of Boston,
Office of the Mayor, June 12, 1950.
To the City Council.

Gentlemen:

I transmit herewith communication from the Chairman of the Park Department relative to your order of May 15, 1950, concerning the naming of the gate at the Arnold Arboretum in honor of Sergt. Edward P. Fulton.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, June 6, 1950.
Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office, with attached enclosure, City Council order dated May 15, requesting the naming of the gate at the Arnold Arboretum in honor of Sergt. Edward P. Fulton.

With regard to the naming of areas, the Board of Park Commissioners, at a meeting held May 19, adopted the following resolution as to naming areas:

"That the Board is of the opinion that honor should be given to all who died in the war rather than to a few whose names might be chosen by the Park Commissioners. Public recognition of the debt of gratitude that the city owes all the young men and women of Boston who gave their lives in World War II in the service of their country is not a function of the Park Commissioners but rests in the hands of his Honor the Mayor, who has given this matter his thoughtful consideration, as evidenced in the war memorial completed in the Fenway.

"That the Board, in naming parks, playgrounds, and specific areas for individuals, use the names of notable and exemplary persons of historical significance (regardless of where they lived) who have rendered distinguished service to city, state, or nation; or perpetuate legendary names or place names of historical significance; or use the names of local communities or of local public institutions that have gained city-wide reputation."

As a result of the adoption of this resolution, the Board has decided to conform strictly to it, unless the Mayor decides to intervene in the matter.

Very truly yours,
FRANK R. KELLEY, Chairman.

PRINTING OF "CALENDAR OF EVENTS IN BOSTON."

The following was received:

City of Boston,
Office of the Mayor, June 5, 1950.
To the City Council.
Gentlemen:

Under the provisions of section 2 of chapter 24 of the Revised Ordinances of 1947, I propose to have printed 100,000 copies of a folder bearing the title "Calendar of Events in Boston, June 1 to October 1, 1950." This folder will be distributed through hotels, stores, theaters, etc., to the thousands of visitors who will be present in our city attending conventions or spending vacations in the area. It will contain a calendar showing the various sporting, theatrical, and entertainment features scheduled during the period, as well as historical points of interest, sight-seeing trips, and other information to guide visitors in planning their recreational and entertainment program during their stay in our midst. In my opinion, such a publication will not only advertise the facilities available to visitors but will also create a large measure of good will toward our city.

I submit an order authorizing the printing of this pamphlet as a special city document or publication and recommend its immediate consideration and adoption.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That the Superintendent of Printing be authorized to print 100,000 copies of a folder entitled "Calendar of Events in Boston, June 1 to October 1, 1950," the expense of such printing to be charged to City Documents.

APPROPRIATION FOR BARRY PLAYGROUND RESTORATION.

The following was received:

City of Boston,
Office of the Mayor, June 12, 1950.
To the City Council.
Gentlemen:

I send you herewith an appropriation order in the amount of \$60,000 for the restoration of Barry Playground in Charlestown to a condition permitting said playground to be used for the purposes intended.

In the accompanying letter of the Chairman of the Board of Park Commissioners is set forth the pressing need for the improvement of this playground at the present time.

I am hopeful that the Mystic River Bridge Authority will, in due time, recompense the City of Boston for the expense of restoring this playground to a usable condition. In the meantime, the need is imperative, and I most respectfully request that your Honorable Body give this matter immediate action at today's meeting.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, May 17, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

It is vitally necessary that this department take immediate steps to provide playground and recreation facilities in the Charlestown district. I do not believe there is any section of Boston where the playground situation is more acute than in this district.

There have been for years three larger playgrounds located in Charlestown, namely, the John J. Ryan, Jr. Playground at Sullivan square, the John Doherty Playground at Charlestown Heights, and the William J. Barry Playground at Medford and Chelsea streets. Of these, only the Ryan Playground and the Barry Playground were equipped with larger baseball diamonds. The Doherty Playground is more or less an enlarged play area on which we have located the George Robert White Swimming Pool.

With the erection of the Mystic River Bridge, considerable of the territory of the Barry Playground is now occupied by uprights of the bridge, so that now we have a much reduced area. It is now necessary to redesign the entire area and remove existing field house to a new location in order to make the area large enough to construct a full size baseball field.

A part of the Ryan Playground at Sullivan square is now being developed by the Commonwealth of Massachusetts Public Works Department for the new traffic interchange. The Ryan Playground will be out of use for

approximately the next two and one-half years. At the conclusion of the construction of this traffic area, we hope to have the assistance of the Commonwealth in developing the remainder of the Ryan Playground.

Charlestown is a highly congested area with many small children, and it is required that we take immediate steps to help to provide these children with play facilities. Accordingly, we plan to take steps to restore the area of the Barry Playground so that the children shall have a play area where they may enjoy our many recreation activities.

The Board of Park Commissioners requests that you place before the City Council an order in the amount of \$60,000 for the restoration of the Barry Playground, the special appropriation to be known as "The William J. Barry Playground, Restoration of."

Your consideration of this most urgent matter will be greatly appreciated.

Respectfully yours,
FRANK R. KELLEY, Chairman.

Ordered, That the sum of sixty thousand dollars (\$60,000) be, and hereby is, appropriated, to be expended as hereinafter specified, said sum to be raised by taxes on the polls and estates in the City of Boston, and that all orders heretofore or hereafter passed by the City Council relating to appropriations, taxes, and the interest thereon apply to the appropriations and taxes herein provided for.

APPROPRIATION FOR RESERVE FUND.

The following was received:

City of Boston,
Office of the Mayor, June 12, 1950.
To the City Council.
Gentlemen:

As you know, the statutes contemplate that the 1950 tax rate be declared not later than the current week. Before the tax rate is fixed, however, provision should be made for uncertainties that prevail with respect to various matters. For example, there are several municipal surveys which are likely to make reports before the end of the present fiscal year. Typical of this situation is the study under way in the Public Works Department with regard to incinerators.

Then again, the Legislature is still in session. What action it will take upon the South Bay and other projects is presently unknown. While it is not anticipated that any direct burden will be placed upon the city in connection with these projects, it is conceivable that incidental expenses may arise.

Obviously it is impossible at the present time for me to make specific recommendations for appropriations in connection with these pending matters, but it does seem desirable to make a supplementary appropriation for the Reserve Fund so as to provide for extraordinary or unforeseen expenditures arising between now and the end of the current year.

I accordingly submit an appropriation order providing an additional \$150,000 for the Reserve Fund, and I respectfully recommend its immediate adoption by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

Ordered, That the sum of one hundred fifty thousand dollars (\$150,000) be, and hereby is, appropriated, to be expended as hereinafter specified, said sum to be raised by taxes on the polls and estates in the City of Boston, and that all orders heretofore or hereafter passed by the City Council relating to appropriations, taxes, and the interest thereon apply to the appropriations and taxes herein provided for.

CITY-OWNED LAND NOT HELD FOR A SPECIFIC PURPOSE.

The following was received:

City of Boston,
Law Department, June 7, 1950.
Walter J. Malloy, Esq.,
City Clerk, Boston, Mass.

Dear Sir:

For your information, I am enclosing a copy of a communication which I am today sending to the Chairman of the Board of Real Estate Commissioners.

Yours very truly,
WILLIAM L. BAXTER,
Corporation Counsel.

City of Boston,
Law Department, June 7, 1950.
Herman Carp, Chairman,
Board of Real Estate Commissioners.
Dear Commissioner Carp:

Your letter of May 19, 1950, directs my attention to chapter 318 of the Acts of 1950, entitled "An Act Relative to Real Estate of the City of Boston Not Held for a Specific Purpose," which amends St. 1943, c. 434, s. 2, so as to read as follows:

"The chairman, subject to the regulations of the board with respect to his procedure,

shall have the care, custody, management and control of all property acquired by the city by foreclosure of tax titles or acquired under section eighty of chapter sixty of the General Laws, whether acquired before or after the effective date of this act, and also of all real estate of the city not held for a specific purpose irrespective of the manner or time of acquisition of such real estate, including, without limiting the generality of the foregoing, all buildings or other structures and all lands or rights or interests in lands or other property subject to section four of chapter two hundred and ninety-seven of the acts of nineteen hundred and twenty-nine which, in the opinion of the board, has ceased, or at any time shall have ceased, to be needed for the purposes of said chapter two hundred and ninety-seven; provided, that the chairman, subject to the approval of the board, may make contracts for such care, custody, management and control."

Your first inquiry is:

What properties are intended to be embraced within the language of "lands not held for specific purposes"?

Ordinarily, when real estate is acquired by the city, whether such acquisition be by eminent domain, by purchase, by gift, by devise, by statute, or otherwise, the acquisition is for some specific municipal purpose, and the real estate is thereafter held for that purpose by the department concerned with the particular municipal function involved. Such real estate, even though no longer used for the purpose specified, is still technically "held" for such purpose and so does not come within the category of "real estate . . . not held for a specific purpose."

There are occasions, however, when, by the form of the gift or devise or by the manner of acquisition or as a result of some statute, real estate comes to be held for no specific purpose but rather for municipal purposes generally. The most common situation is the acquisition of land by the foreclosure of tax titles with respect to which G. L. (Ter. Ed.), c. 60, s. 77, as amended, provides that after foreclosure such land shall be held for "municipal" purposes. Other illustrations of this situation may be found (a) in gifts or devises of land by public-spirited citizens for "general" or "municipal" or "public" purposes or without reference to any purpose, (b) in the conveyance to the city, in connection with the settlement of a land damage suit, of the portion of a parcel remaining in private ownership after the eminent domain taking, and (c) in chapter 178 of the Special Acts of 1915, which repealed so much of St. 1897, c. 347, s. 1, as required certain land to be used for a market or other public purposes.

For many years, care and maintenance of real estate thus owned by the city and not held for any specific purpose was in the Street Laying-Out Department. See chapter 34 of the Revised Ordinances of 1914 and chapter 33 of the Revised Ordinances of 1925. The first change with respect to the controlling department was made by chapter 3 of the Ordinances of 1935, which transferred from the Street Laying-Out Department to the Public Buildings Department jurisdiction of real estate acquired through the foreclosure of tax titles. The care and disposal of such real estate was later placed in a Custodian appointed under chapter 358 of the Acts of 1938, who was succeeded, in turn, by your Board under chapter 434 of the Acts of 1943. In other words, ever since its establishment, your Board has had the care, custody, management, and control of one category of property belonging to the city but not held for any specific purpose. Chapter 318 of the Acts of 1950 simply transfers to your Board the care, custody, management, and control of all other such real estate—the same to be cared for and disposed of like real estate acquired through tax title foreclosure.

In my opinion, therefore, the properties intended to be embraced within the phrase "all real estate of the city not held for a specific purpose" means all land belonging to the city and not under the jurisdiction of any particular department thereof because held without specification of a particular purpose.

Your second inquiry is:

Must all properties not held for specific purposes be sold at public auction?

As stated above, real estate of the city not held for a specific purpose is to be cared for and disposed of in the same manner as real estate acquired through tax title foreclosure. Accordingly, if it is determined that real estate not held for a specific purpose should be sold, the sale cannot be private but must be at public auction, just as in the case of property acquired through tax title foreclosure.

Your third inquiry is:

Is this Board or the City Council the proper agency to sell land acquired through tax foreclosure proceedings and subsequently transferred by order of the City Council to another municipal department, which land is no longer required by the particular department for its uses or for any specific purpose?

Ever since its original enactment in 1943, the power vested in you and your Board by the above-quoted statute has related to all property acquired by the city through the foreclosure of tax titles. The statute makes no exception. It is inconceivable, however, that, with the consent of you and your Board and the approval of the Mayor, the City Council cannot permit another department of the city to make a specific municipal use of such property when such use is the disposition of such property most advantageous to the city. Such transaction is, in effect, a lease by your department to the other department; but since the city is both lessor and lessee, no formal lease or payment of rent is involved, nor is the action of the municipal authorities made a matter of record at the Suffolk Registry of Deeds. Consequently, when the property is no longer needed for the specific use, the procedure best adapted, in the light of the governing statutes, to insure the continuity of a clear record title would appear to be for the City Council, subject to the provisions of the City Charter, to terminate the "lease" by rescinding its prior order with respect to the property and thereby make the property once again real estate of the city not held for a specific purpose and so fully subject to the provisions of St. 1943, c. 434, as amended, including the provisions thereof relative to sale.

Yours very truly,

WILLIAM L. BAXTER,
Corporation Counsel.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidders no later than 12 noon, Eastern Daylight Saving Time, Monday, July 10, 1950.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the subbidder and a surety company shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 5 per cent of the subbidder's bid price, and shall be submitted with each subbid.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the subbidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a subbidder shall be withdrawn

prior to thirty (30) days from the opening of bids without the consent of the Awarding Authority.

DEPARTMENT OF SCHOOL BUILDINGS.

TO ROOFING CONTRACTORS.

INVITATION FOR PROPOSALS FOR ROOFING AND OTHER WORK AT THE GROVER CLEVELAND SCHOOL, CHARLES STREET, DORCHESTER, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for roofing and other work at the Grover Cleveland School, Charles Street, Dorchester, Mass.

Proposals will be received until 12 o'clock noon, Thursday, July 6, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman Street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and inclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$150, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids.

JAMES H. MOONEY,
(June 24.) Superintendent of Construction.

MAYOR HYNES ANNOUNCES BOSTON'S TAX RATE FOR 1950 AS FIXED AT \$63 PER THOUSAND — INCREASE OF \$6.20 OVER 1949, BUT IS AN HONEST RATE AND NOT ONE OF ARTIFICIAL MANIPULATION OR DECEPTION — INCREASE FORCED BECAUSE OF PREVIOUSLY CONTRACTED OBLIGATIONS, A LESSENING OF ASSESSED VALUATIONS, AND NEED FOR A GREATER TAX LEVY BY \$7,792,000 TO TAKE CARE OF INCREASES IN SALARIES, WELFARE RELIEF, AND VETERANS' ASSISTANCE; ALSO MTA DEFICITS — HOLDS OUT HOPE FOR RELIEF AS SOON AS PLANS NOW IN OPERATION HAVE HAD CHANCE TO GET INTO HIGH GEAR.

MAYOR IN RADIO BROADCAST TO CITIZENS EXPLAINS REASONS FOR INCREASE IN 1950 TAX RATE—EMPHASIZES FACT IT IS AN HONEST RATE THAT WILL REFLECT ITS WISDOM AND JUSTIFICATION IN FUTURE YEARS—ALSO POINTS TO FACT IT IS \$7 LESS THAN IT WAS FEARED IT WOULD BE AT START OF HIS ADMINISTRATION — PREVIOUS COMMITMENTS AND OBLIGATIONS CREATED CONDITIONS.

On Thursday, June 29, Mayor John B. Hynes spoke over the four major radio networks in explanation of the 1950 tax rate:

Ladies and Gentlemen of Boston, This Is Mayor Hynes.

When I assumed office as Mayor a little less than six months ago, it seemed certain that the tax rate this year would be at least \$70, and possibly higher.

(Continued on page 684.)

ASSESSORS ISSUE STATEMENT EXPLAINING HOW TAX RATE WAS FIGURED AND BASIS FOR ADJUSTMENTS THAT COMPELLED INCREASE ANNOUNCED BY MAYOR HYNES—MANY INEQUITIES ADJUSTED SO AS TO REFLECT A REAL VALUATION—SMALL HOME OWNERS PROTECTED.

The following is the statement released by the Board of Assessors, Daniel M. Driscoll, chairman:

The Board of Assessors announced the tax rate to be \$63 for the year 1950. This rate is based on a total assessed

(Continued on page 685.)

In announcing the tax rate for 1950, Mayor Hynes issued the following statement:

Boston's tax rate for this year has been fixed by the Board of Assessors at \$63. That represents an increase of \$6.20 over the rate of last year. Without exception the factors responsible for that rise were beyond the control of this administration.

When I assumed office last January, the indications were that the rate would soar to \$70 or even higher. Fortunately we have been able to avert so staggering a jump.

The \$6.20 rise in the rate results from the fact that the total tax levy is \$7,792,000 greater than last year and that the assessed valuation of taxable property is \$34,000,000 lower than in 1949. The additional expenditures are responsible for \$5.18 of the rate increase and the drop in valuation for \$1.02.

The city, county, and school budgets total about \$5,000,000 more than a year ago.

Salary Increase Obligations.

On July 1 of last year salary increases of \$300 a year were granted to all city, county, and school employees to enable them to meet higher living costs. The additional expense of meeting that raise for a full 12 months this year is \$3,300,000.

The costs for welfare relief and for assisting needy veterans are \$3,000,000 greater than last year. As a result of the chest X-ray program conducted by the Federal Government it has been necessary for the city to appropriate \$300,000 to provide proper care for persons shown to be in need of special treatment.

Those items total \$6,600,000. Savings in other directions totaling \$1,600,000 held the budget increase to \$5,000,000. The administration in authority last year borrowed \$2,350,000 for welfare purposes. In my judgment, it is not sound procedure for the city to borrow for current expenses such as welfare. The decision not to float such a loan this year accounts for slightly over \$1.60 of the tax rate increase.

MTA Deficit Demands.

The payments we must make on past MTA deficits are responsible for a portion of the tax rate jump. A loan of \$10,150,000 was floated last year to meet the city's share of the MTA deficit for 1948 and the first seven months of 1949. By this means the 1949 tax rate was relieved of a substantial portion of the payment required from the city to cover the MTA loss. This year, however, it was necessary to appropriate \$1,125,000 to meet the city's share of the MTA deficit for the last five months of 1949. In addition, we also must meet the first serial payment due on last year's MTA loan as well as the interest requirements. That obligation, incurred a year ago, accounts largely for a rise of \$1,350,000 in our debt service charges.

CITY AUDITOR CHARLES J. FOX ISSUES EXPLANATIONS TO BECOME EFFECTIVE IN MAKING AND HANDLING MUNICIPAL CONTRACTS AND PAY-ROLLS IN THE FUTURE.

City Auditor Charles J. Fox has issued the following information as to contract procedure in conduct of city's business:

Chapter 216 of the Acts of 1950, which becomes effective July first, amends Section 6 of Chapter 418 of the Acts of 1890. This latter statute together with Section 30 of the Amended City Charter constitute the basic regulations relating to contract procedure. Section 30 of the City Charter deals with conditions precedent to entering into certain municipal contracts. Section 6 of Chapter 418 of the Acts of 1890 governs the form of contracts, the security for their performance, and amendments to contracts. The manner in which department officials should conform to the requirements set forth in these two pieces of legislation may be summarized as follows.

When any work or purchase is about to be ordered, departmental officials of the city or county should estimate the cost of the commitment involved. If it appears that the cost of the work or purchase will be one thousand dollars or more, the department head must conform first with the advertising or approval requirements of Section 30. Following this action, a written contract should be prepared for approval by the Mayor and certification by the City Auditor that an appropriation is available therefor or that a statute exists authorizing the execution of the contract in advance of appropriation. All such contracts must be accompanied by a suitable bond or other security covering faithful performance, and no such contracts shall be altered except by a written agreement of the contractor, the sureties on his or their bond, and the officer or board making the contract with the approval of the Mayor affixed thereto.

If the estimated cost does not amount to one thousand dollars or more, the department head must consider the estimated cost of all other similar work or purchases which could, in the exercise of sound judgment, be contracted for at the same time. If other similar work or purchase could, in the exercise of sound judgment, be contracted for at the same time, and after the aggregation of the cost thereof and of the work or purchase to be contracted for amounts to one thousand dollars or more, there must be conformance with the advertising or approval requirements of said Section 30. Thus, for example:—If a department head is about to buy a truck at an estimated cost of \$900 and he knows that another truck must be bought shortly which will cost approximately \$900 and there is no sound business reason why the two trucks should not be bought at the same time, the department head need not necessarily buy the two trucks at the same time but he should at least advertise for bids on the one he is about to buy or secure the Mayor's approval to dispense with advertising.

Determination of the estimated cost rests with the department head. If in the exercise of reasonable judgment and discretion he concludes that the estimated cost of any work or purchase will not amount to or exceed one thousand dollars, he may proceed with the work or purchase

by the issuance of appropriate orders. These orders, naturally, should be issued before any work is started or delivery made.

If the estimate secured by the department head of the contemplated work or purchase indicates that the cost will approximate one thousand dollars, he should, to protect against the possibility of the work or purchase when completed exceeding one thousand dollars, secure bids from three reputable contractors or vendors. If this procedure is followed, the fact that later it develops that the actual cost of the work or purchase is in excess of one thousand dollars will not void the original award insofar as existing statutory provisions are concerned. The desirability of securing proposals when the estimated cost of the work or purchase is in the neighborhood of one thousand dollars cannot be emphasized too strongly. With this thought in mind, the Auditing Department in approving the issuance of Service Orders after July 1st will require that where the estimated cost is between eight hundred and one thousand dollars, the estimate be supported by at least three bids. Failure to comply with this requirement will result in the return of the Service Orders to the department involved.

MONTHLY REPORT OF EXPENDITURES.

Beginning with the month of July, the "Distribution of Expenditures" forms sent to each department at the close of a month's business will reflect all charges made during the month against appropriations of the department involved. This means that payroll and special drafts will be included on the form in addition to the regular budget charges now shown. Arrangements have been made with the Printing Department whereby all subsequent printing of payroll requisition forms will provide in the upper right-hand corner of the form a block in which the proper appropriation code for the charges indicated on the requisition will be entered. When these new forms are secured by the departments, the payroll clerks should indicate in this block the appropriation detail involved in the payrolls covered by the requisition. Any department having a large supply of payroll requisitions on hand need not discard this supply. In other words, the responsibility of payroll clerks to enter the appropriation detail will not arise until the new payroll requisition forms are actually needed.

CHARLES J. FOX,

*City Auditor and Auditor of the
County of Suffolk.*

EXTENSION OF CONTRACTS.

DEPARTMENT OF SCHOOL BUILDINGS.

Approval has been given for the extension of the time of completion of the contract with John F. Rooney for plumbing work at English High School, from May 19, 1950, to July 15, 1950. This extension was requested due to a delay in delivery of stock.

BOSTON'S 1950 TAX RATE ANNOUNCED BY MAYOR.

(Continued from page 681.)

The city has lost approximately \$34,000,000 in taxable valuations as a result of the exemption of the MTA from local taxation, the takings by the Boston Port Authority and the State, and the abatement of the illegal assessment imposed last year on the property occupied by the Veterans' Administration. The narrowing of the tax base, of course, requires a higher tax rate to raise the same amount of taxes. These losses alone mean an increase of \$1.02 in the tax rate.

State and metropolitan assessments on the city are \$500,000 greater than in 1949. The administration a year ago had \$5,410,000 in surplus revenue which it was able to use to hold the tax rate at \$56.80. The city treasury was empty when I assumed office. A funding bill adopted recently by the State Legislature and signed by Governor Dever helped materially to avert a \$70 tax rate since it enabled us to spread over a period of years the tremendous cost of the tax abatements granted by the administration last year. As a result of that bill we are paying off the so-called overlay deficit at a rate of \$2,000,000 a year.

HONEST TAX RATE.

To the people of Boston I would like to emphasize these facts:

This is an honest tax rate.

No subterfuge has been used to present a fictitious rate that would not reflect the true financial picture of the city.

No tricks have been employed to reduce the rate temporarily.

No cunning contrivances have been used to put off current bills for someone else to pay.

It is a high tax rate—one that will impose a heavy burden on our property owners because of the obligations and commitments my administration was forced to assume.

For the future well-being of Boston and its citizens it was imperative that our city get started on the right financial road even though that road may be a rocky one to travel at the start.

We are now on the right road, and there is good reason to hope and expect that it will become smoother as we go along.

When I became Mayor last January, I told you I could promise no miracles. But I did promise you an honest job and hard conscientious work.

This tax rate represents honest—hard—work.

By putting our city's financial house in order, I believe we will be able to go on to better things and brighter days.

CIRCULAR LETTER NO. 21.

CITY OF BOSTON,

MAYOR'S OFFICE, June 14, 1950.

To All Department Heads.

GENTLEMEN:

You are hereby directed to grant leave of absence, without loss of pay, to all city employees who are duly elected Delegates and Alternates of the Disabled American Veterans so that they may attend their State Department Convention and their National Convention.

State Convention in Greenfield on July 28, 29, and 30.

National Convention in San Francisco for one week, starting the week of Sunday, August 13.

Respectfully,

JOHN B. HYNES, Mayor.

MAYOR HYNES IN RADIO BROADCAST EXPLAINS TAX RATE.

(Continued from page 681.)

The reason for that discouraging outlook could be found in the tremendous financial obligations to which the city had been committed and the bills which had been left to pay.

Fortunately, we have been able to avoid a \$70 tax rate. As you undoubtedly have read in the newspapers, the rate has been fixed at \$63. It is never pleasant for a mayor to announce an increase in the rate. It is even more unpleasant when the conditions responsible for that rise are not of his own making but occurred before he took office. But it is not my purpose or intention in this talk to be unnecessarily critical. This is a factual report to the people of Boston to explain to them why the tax bills they will receive this year will be higher than in 1949.

First, let me explain that approximately each 65 cents on our tax rate represents \$1,000,000 that will be collected in our tax levy. In other words, for each \$1,000,000 that I must raise in taxes, I must include 65 cents in the rate.

EXPENDITURES COMPULSORY.

That means that the \$6.20 increase in the tax rate is equivalent to about \$9,500,000 in cash expenditures. When I have finished this talk, I hope you will understand exactly why it was necessary to raise that money.

A little over a year ago, salary increases of \$300 a year were granted to all city, county, and school employees to enable them to meet higher living costs. They became effective on July 1, 1949. This year they had to be met for a full 12 months, and they represent an increase of \$3,300,000 in 1950 expenses.

Expenses for welfare relief and veterans' services have gone up \$3,000,000, a responsibility—I know you will agree—we must meet.

As a result of the chest X-ray program conducted by the federal government earlier this year, it has been necessary for the city to allocate an additional \$300,000 to the Hospital and Health Departments to provide for the care of those persons shown by the X rays to be in need of special treatment.

If you add those figures together—\$3,300,000 for raises granted last July, \$3,000,000 for higher welfare and soldiers' relief costs, and \$300,000 for the Hospital and Health Departments—you will find that they amount to \$6,600,000. That expense alone is tantamount to \$4.30 in the rate.

Now, the fact is that the city, county, and school budgets total just about \$5,000,000 more than last year. In other words, through economies started during the past six months, this administration has been able to achieve savings in other directions amounting to more than \$1,300,000.

CONFUSION CLEARED UP.

From the letters which come to me it is plain that some people are unable to understand why the tax rate should go up any more than \$3.25 when the expenditures for school, county, and municipal purposes exceed last year's expenses by under \$5,000,000.

Their confusion is easy to understand, but everyone should realize that there

are factors in the tax rate beyond the control of the Mayor, such as payments on old loans and on the MTA deficit, which are reflected in the current cost of operating our city or county government or our school system.

One of the reasons our tax rate is so high this year is that in the past administration the policy was followed of putting off some bills to be paid at a later date, and borrowing for current expenses. That meant that in time we not only were obliged to pay the amount of the original loan but also the accumulated interest as well.

I recognize, of course, that there are some capital investments which should be financed with a bond issue. But it is my conviction that we should not borrow for current expenses.

The administration in authority last year borrowed \$2,350,000 for welfare purposes in order to hold the tax rate at \$56.80.

In my opinion, that is not a sound procedure. We know we are going to have a big expenditure for welfare purposes every year. It is an annual recurring expense and one that we should meet as we go along. To borrow money for welfare piles up interest charges and jeopardizes the financial standing of the city.

The decision not to float such a loan this year means this amount must be raised by taxes, accounting for slightly over \$1.60 of the tax rate increase.

The payments we must make on past MTA deficits are responsible for a portion of the tax rate jump.

Last year the administration in office floated a loan of \$10,150,000 to meet the city's share of the MTA deficit for 1948 and the first seven months of 1949.

By that means the 1949 tax rate was relieved of a substantial portion of the payment required from the city to cover the MTA loss.

This year, however, it was necessary to appropriate approximately \$1,250,000 to meet the city's share of the MTA deficit for the last five months of 1949.

In addition, we also must meet the first serial payment on last year's MTA loan as well as interest requirements. That obligation, incurred a year ago, largely accounts for a rise of \$1,350,000 in our 1950 debt service charges.

Under the provisions of the law enacted last year to provide financial relief for the MTA, the road's property was made exempt from taxation by the city.

The construction of the Mystic River toll bridge removed still other property from our tax rolls.

The illegal assessment imposed last year on the property occupied by the Veterans' Administration has been corrected.

These three losses of taxable property have cut sharply into our tax base.

Most of you undoubtedly realize that as the tax base is narrowed it is necessary to fix a higher tax rate, even though the actual tax levy might be unchanged.

To explain what I mean, let us assume it is necessary to raise \$80,000,000 in the tax rate. If your tax base, namely, the assessed valuation, amounted to \$2,000,000,000, your tax rate would be \$40. If, on the other hand, the taxable property totaled \$1,600,000,000, you would need a rate of \$50 to obtain the same amount of money.

With that in mind, you can understand why we were hard hit by a drop of about \$40,000,000 in the assessed val-

uation, as a result of the property removed from the tax rolls and the abatements granted last year.

If you will add up the figures I have given you—\$3,300,000 for pay raises, \$3,000,000 for increased welfare costs, \$300,000 to care for persons with lung ailments, \$2,350,000 which we are raising in taxes rather than to float a welfare loan, \$1,250,000 to meet the city's share of the MTA deficit for the last five months of 1949, and a jump of \$1,350,000 in our debt charges—you will find that they total \$11,550,000.

If you then take into consideration that the increase in the tax rate represents about \$9,500,000 in cash collections, you will recognize that it required a good deal of pruning in many places to hold this year's rate at \$63 and prevent it from soaring much higher.

Actually, I have cited only some of the financial problems which we have faced. State and metropolitan assessments on the city are \$500,000 greater than a year ago. Most important of all, the administration a year ago had \$5,410,000 in surplus revenue which it was able to use to hold the tax rate at \$56.80. My administration found no surplus revenue whatever in the city treasury when it assumed office. In the words of the nursery rhyme, the cupboard was bare.

It is proper that I acknowledge in this talk that the funding bill, passed by the Legislature and signed by Governor Dever, played an important part in helping to prevent a tax rate of \$70 or more.

Early in the year, it appeared that I would be compelled to provide \$7 in the tax rate to cover the tremendous tax abatements granted in 1949 by the last administration.

Under the terms of an act approved by both Democrats and Republicans we are paying off the so-called overlay deficit which we inherited at a rate of \$2,000,000 a year, instead of paying it all this year.

Now, before I close, may I emphasize one thing above all else.

THIS IS AN HONEST TAX RATE.

No subterfuges have been used to present a fictitious rate that would not reflect the true financial picture of the city.

No tricks have been employed to temporarily reduce the rate.

No cunning contrivances have been used to put off current bills for someone else to pay.

We not only are meeting all the expenses, but we also are paying off old bills from the past.

It is a high tax rate—one that will impose a heavy burden on many property owners.

For the future well-being of Boston and its citizens it was imperative that our city get started on the right financial road, even though that road may be a rocky one to travel at the start.

We are now on the right road, and there is good reason to hope and expect that it will become smoother as we go along.

When I became Mayor last January, I told you I could promise no miracles and no painless panaceas. But I did promise you an honest job and hard, conscientious work.

This tax rate represents honest, hard work.

By putting our city's financial house in order, I believe we will be able to go on to better things and brighter days.

Thank you for listening to me. This is Mayor Hynes wishing you all a very pleasant summer.

ASSESSORS' STATEMENT ON 1950 TAX RATE.

(Continued from page 681.)

value for the entire city of \$1,567,000,000, of which \$1,430,000,000 is on real estate and \$137,000,000 is on personal property. This represents a decrease of \$34,000,000 in the taxable rolls.

This decrease is attributed to various factors: exemption of the Metropolitan Transit Authority properties by recent legislation, totaling \$19,812,000; acquisition of the Boston & Albany Railroad Pier in East Boston by the Boston Port Authority, \$5,398,800; East Boston highway takings by the state of \$166,000; purchase of 17 Court street by the Veterans Administration, eliminating \$1,669,500 from the taxable rolls; and various other public takings amounting to approximately \$500,000.

The Board of Assessors made other reductions totaling \$15,000,000 of assessed value in adjusting many inequities throughout the city. This is the beginning of the program inaugurated by this administration to assess property at its fair value.

Mindful of the increased tax rate, the Board of Assessors did not raise assessments of the small home owners throughout the city. Some of the decrease in assessed value has been offset by new valuation due to new construction and increase in commercial properties that the Board considered justified.

There was also a reduction made in the total valuations of personal property of \$4,700,000. This reduction is expected to eliminate most of the recurring abatement cases in this class of property.

The total amount to be raised by taxation in 1950 is \$99,263,000, as compared to \$91,471,000 in 1949, or an increase of \$7,792,000.

In the short period of six months the Board has interviewed hundreds of property owners in a concerted effort to rectify as many inequities as was humanly possible.

We feel that we have made a substantial step in the program outlined by Mayor Hynes in his inaugural address, wherein he promised that his Board of Assessors would correct the many inequalities that existed in the assessed valuations throughout the city.

CIRCULAR LETTER NO. 22.

CITY OF BOSTON,

MAYOR'S OFFICE, June 21, 1950.

To All Department Heads.

GENTLEMEN:

You are hereby directed to grant leave of absence, without loss of pay, to all city employees who are duly elected Delegates of the Reserve Officers Association of the United States so that they may attend their National Convention. National Convention in Washington, D. C., June 25 to July 2, 1950.

Respectfully,

JOHN B. HYNES, Mayor.

ONE-WAY TRAFFIC ON DOVER STREET.

Public Works Commissioner, George G. Hyland, has announced that Dover street, from Dorchester avenue to Albany street, will be made a one-way street. This arrangement, the commissioner stated, will be in effect until further notice, so as to permit a complete redecking job to be done on the Dover Street Bridge.

Upon June 16 the Mayor approved a contract as indicated in the following communication:

BOSTON, June 16, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

In response to an advertisement in the *City Record* of May 27, 1950, the following list of bids for installing emergency lighting with generator at the Clarence R. Edwards School was received and publicly opened and read aloud on June 8, 1950:

Edward DeMariano, \$5,005; Kay Electric Company, \$5,233; Emerson Electrical Manufacturing Company, \$5,546.33; William R. Wheeler, Jr., \$6,170.

Please note that Edward DeMariano, 86 Western avenue, Allston, Mass., is the lowest recorded bidder. However, from the information furnished by him, there is a technicality in his bid which would legally disqualify it and furthermore his experience as a contractor does not warrant recognition for an installation of the type to be contracted for. The next lowest qualified bidder is the Kay Electric Company, 58 South Margin street, Boston, Mass., who have completed several contracts of this nature in a most satisfactory manner. Based on the foregoing, I respectfully request your Honor's permission to make this award to Kay Electric Company, in the amount of five thousand two hundred thirty-three dollars (\$5,233).

Respectfully yours,

JAMES H. MOONEY,
Superintendent of Construction.

LIBRARY DEPARTMENT.

Upon June 7 the Mayor approved a contract with White Electric Company for installation of new lighting in basement book storage area under the front platform at the Central Library Building. Bids, opened Thursday, May 11, were as follows:

WITHOUT ADVERTISING.

Upon varying dates as indicated the Mayor approved contracts with supply houses, contractors, etc. Communications from heads of departments interested were as follows:

PARK DEPARTMENT.

BOSTON, May 22, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR SIR:

For several years this department has had a license with the Mills Automatic Merchandising Corporation, 247 Atlantic avenue, Boston, Mass., for the operation of weighing machines in some of the buildings of this department.

It has been customary, over these years, to give this concern a yearly license at an annual fee of \$350. The current license will expire on June 30, 1950.

These machines, located in our buildings, are owned by the above company and are not the property of the Park Department.

Our license relations with this company have been very satisfactory over a period of years, and as it would be rather difficult to find another concern which would have the necessary machines, the Board of Park Commissioners believes that nothing would be gained by advertising for bids, and therefore respectfully requests your approval to award a license for one year from July 1, 1950, to June 30, 1951, to the Mills Automatic Merchandising Corporation, 247 Atlantic avenue, Boston, Mass., for the sum of \$350.

Respectfully yours,

FRANK R. KELLEY, *Chairman.*

PUBLIC CELEBRATIONS.

BOSTON, June 19, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Authority is hereby requested to award a contract, without advertising, to Providence Fireworks Manufacturing Company, 23½ Howell street, Providence, Rhode Island, for furnishing fireworks displays in conjunction with the Independence Day celebration at the following locations and at the following prices:

Boston Common, \$2,100; Franklin Park, \$600; Ronan Park, \$600; Roberts Field, \$600; Billings Field, \$600; Jamaica Pond, \$600. Total, \$5,100.

This company is one of the oldest manufacturers of exhibition fireworks in the country and is fully covered by insurance for personal and public liability damages. It employs capable technicians, all of whom will be under the supervision of Mr. DiNapoli, the owner of the company, during the aerial exhibitions.

Inasmuch as the personal expert service and quality of goods necessary for the proper and safe fireworks displays are not such as can be secured through public bidding, no advantage will be gained by advertising.

Very truly yours,

JOHN D. BROWN,
Director of Public Celebrations.

SUPPLY DEPARTMENT.

BOSTON, June 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

Your approval is respectfully requested to award a contract, without public advertisement, to Milton Motor Mart,

Inc., for furnishing one 1950 DeSoto custom sedan to this department.

The above company can make delivery of this car within the next few days and since the present department automobile is most dangerous to operate because of much needed repairs it is my opinion that public advertisement should be dispensed with at this time and the contract be awarded as requested because immediate delivery is most essential.

Total amount of award is as follows:

One 4-door DeSoto custom sedan, \$2,412.70; less taxes, \$116.70; less approximate allowance on 1949 Ford, 6-cylinder, \$800—\$916.70; net total, \$1,496.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

BOSTON, June 20, 1950.

HON. JOHN B. HYNES,
Mayor of Boston.

DEAR MR. MAYOR:

On April 28, 1950, your Honor approved a letter of award to B. Fischer & Co. for furnishing coffee to the various city departments in the amount of \$14,637.80.

Deliveries made by B. Fischer & Co. did not meet the specifications required in the contract. All outstanding orders have been canceled and no more deliveries will be made by this company.

Permission is therefore requested to cancel the original award of \$14,637.80 and award a contract to the same company at the same prices for the approximate amounts already delivered.

Total amount of new award and contract will be approximately \$2,600.

Respectfully yours,

JOHN V. MORAN,
Superintendent of Supplies.

POLICE DEPARTMENT ORDERS.

General Order No. 1,337.

The following-named patrolmen having requested retirement under the provisions of the Statutes of 1892, chapter 353, as amended, for the reason that they are incapacitated, it is hereby

Ordered, His Honor the Mayor having approved the same, that they be retired from active service in the Police Department, effective Thursday, June 22, 1950, at 7.45 o'clock A.M.:

Thomas C. Fahey, Division 3, 30 years of service.

Athnell Timerbacka, Division 6, 30 years of service.

George W. Girvan, Division 9, 29 years of service.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,338.

The following-named persons are hereby appointed permanent patrolmen in this department and assigned as follows, effective Thursday, June 22, 1950, at 1 o'clock P.M.:

John H. Jellow, Division 3.

John J. Szymczuk, Division 6.

William P. Peri, Division 9.

Thomas H. Scott, Division 10.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

General Order No. 1,339.

Sergt. Edward F. Blake and Detective George E. Smith of the Superintendent's Office are commended for meritorious police work performed on June 2, 1950.

While these officers were cruising in the Dorchester district they learned through a radio broadcast that two men, occupants of a certain automobile, were wanted in Brookline, Mass., for attempted armed robbery. Shortly thereafter, the officers observed the wanted car and immediately gave chase. When they reached a dead end street the men abandoned the car and attempted to escape on foot, with Detective Smith in pursuit. One of the men managed to escape but the other was finally apprehended by Detective Smith after a lengthy chase.

When he was searched the man was found to have a fully loaded revolver, a stiletto, currency and cash register receipts from a store which had been held up. Later, he was identified by victims as having taken part in eight armed robberies in Boston and Brookline. His partner was identified and has since been arrested, with a loaded revolver in his possession.

The commissioner is pleased to recognize the alertness and devotion to duty shown by these officers, and their courage in apprehending this dangerous criminal.

The Superintendent of Police will promulgate this order.

THOMAS F. SULLIVAN,
Police Commissioner.

CONSTRUCTION WORK.

The Mayor has approved the request of the Public Works Department for the following construction work:

PROCEEDINGS OF CITY COUNCIL.

Monday, June 19, 1950.

Regular meeting of the City Council held in the Council Chamber, City Hall, at 2 p.m., President HURLEY in the chair. Absent, Councilors Ansel, Chase, Cook, Kinsella, Linehan, and Yerxa. The meeting was opened with the salute to the flag.

VETO OF ORDER OF APPOINTMENT OF NICHOLAS J. DIMELLA.

The following was received:

City of Boston,
Office of the Mayor, June 16, 1950.
To the City Council,
Gentlemen:

I return herewith, disapproved and without my signature, the order adopted by your Honorable Body on June 12, 1950, appointing Nicholas J. DiMella as stenographer-clerk in the Boston City Council. I take this action for the reason that there is no existing vacancy for a stenographer-clerk in the Boston City Council, and such an appointment would be in violation of the City Ordinances.

Respectfully,
J. B. HYNES, Mayor.

Placed on file.

APPOINTMENTS BY THE MAYOR.

Subject to confirmation by the Council, the Mayor submitted the following appointments: Samuel Schwartz, 7 Havelock street, Ward 14, Constable, with authority to serve civil process upon filing of bond, for the term ending April 30, 1951.

John Farragher, 19 Cuba street, Watertown, and Martin V. Sheehan, 89 Yale street, Medford, Weighers of Goods, for term ending April 30, 1951.

Referred to Committee on Confirmations.

I transmit herewith communication from the Secretary of the Board of Street Commissioners, for the Chairman of the Committee to Memorialize Veterans, relative to your order of June 5, 1950, concerning the naming of the intersection of Blue Hill avenue and McLellan street in honor of Milton C. Kornetz, veteran of World War 11, who died in the service of his country April 15, 1945, in Germany.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
June 16, 1950.

Hon. John B. Hynes,
Office of the Mayor.

Dear Sir:

I acknowledge, for the Chairman of the Committee to Memorialize Veterans, receipt of your letter of June 8, enclosing copy of Council order introduced by Councilor Ansel, requesting that the intersection of Blue Hill avenue and McLellan street be named in honor of Milton C. Kornetz.

I beg to advise that the next meeting of the committee is scheduled to be held sometime in October, at which time this request will be given every consideration.

Very truly yours,
L. W. COSTELLO, Secretary.

Placed on file.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Board of Street Commissioners,
June 16, 1950.

Hon. John B. Hynes,
Office of the Mayor.

Dear Sir:

I acknowledge, for the Chairman of the Committee to Memorialize Veterans, receipt of your

letter of June 8, enclosing copy of Council order introduced by Councilor Shanley, requesting that the square at the intersection of Faneuil and Market streets in Ward 22 be named in honor of William McDonald.

I beg to advise that the next meeting of the committee is scheduled to be held sometime in October, at which time this request will be given every consideration.

Very truly yours,
L. W. COSTELLO, Secretary.

Placed on file.

NAMING OF SQUARE IN HONOR OF KENNETH J. McDONALD.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council,
Gentlemen:

I transmit herewith communication from the Secretary of the Board of Street Commissioners and the Committee to Memorialize Veterans relative to your order of June 5, 1950, concerning the naming of square at the intersection of Stanton and Norfolk streets in Ward 17 in honor of Kenneth J. McDonald, who died in the service of his country in Normandy on June 20, 1944.

SHELTER AT BARBARA STREET AND SOUTH HUNTINGTON AVENUE.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council,
Gentlemen:

I transmit herewith communication from the General Manager of the Metropolitan Transit Authority relative to your order of June 5, 1950, concerning the erection of a shelter at the corner of Barbara street and South Huntington avenue.

Respectfully,
J. B. HYNES, Mayor.

Metropolitan Transit Authority,
June 15, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

Since the receipt of your letter of June 8 the Board of Trustees has given careful consideration to the request contained in order of the City Council of June 5 that a shelter be erected at the corner of Barbara street and South Huntington avenue. They do not feel, however, that they can deviate from a long-standing policy with regard to the construction of shelters, which, in view of the expense involved and frequency of service operated, they do not feel they should undertake.

Very truly yours,
EDWARD DANA, General Manager.

PLAYGROUND IN CORRIGANVILLE SECTION.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Public Works Commissioner relative to your order of June 5, 1950, concerning transferring the custody and control of land owned by said department in the Corriganville section of Hyde Park to the Park Department for playground purposes, to take care of the requirements of approximately 2,000 children now living in the recent housing development in that area.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
June 14, 1950.

Mr. Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:
This is in reference to the following order that was passed in the City Council under date of June 5:

"Ordered, That the Commissioner of Public Works be requested, through his Honor the Mayor, to transfer the custody and control of land owned by said department in the Corriganville section of Hyde Park to the Park Department for playground purposes, to take care of the requirements of approximately 2,000 children now living in the recent housing development in that area."

The land referred to above is under the jurisdiction of the Water Division of this department. We have no further use for it and readily approve, therefore, the transfer of this land to the jurisdiction of the Park Department for development as a playground. There might be a legal impediment to this transfer, because, under the provisions of chapter 318 of the Acts of 1950, all real estate owned by the city and not held for a specific purpose is under the care, custody, management, and control of the Chairman of the Real Estate Commission.

I shall, therefore, refer this matter to the Corporation Counsel and ask his opinion if the above-referenced transfer can be effected by vote of the City Council and with the approval of the undersigned.

Very truly yours,
GEORGE G. HYLANN,
Commissioner of Public Works.

TRAFFIC SIGNALS AT WASHINGTON AND GROVE STREETS.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Boston Traffic Commission relative to the transfer of ownership and maintenance of the traffic signals at Washington and Grove streets in West Roxbury to the State Department of Public Works.

Accordingly, I recommend passage of the accompanying order by your Honorable Body.

Very truly yours,
J. B. HYNES, Mayor.

Boston Traffic Commission,
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

Upon receipt of a communication from J. C. Cressy, traffic engineer of the State Department of Public Works, the Boston Traffic Commission was informed that one of its traffic lights is now maintained on a state highway and that a transfer of ownership and maintenance should be effected so that it would become the property of the State Department of Public Works.

The traffic light is located at Washington and Grove streets, in West Roxbury.

It was voted at a meeting of the Boston Traffic Commission held on November 18, 1949, that this transfer be authorized.

It is respectfully requested, therefore, that the attached order, which was approved by the Law Department on November 2, 1949, be submitted to the Council for the purpose of effecting this transfer.

A similar request was forwarded to the Honorable James M. Curley on November 29, 1949, but no action was taken in the closing days of the previous administration, and, accordingly, it is therefore necessary to repeat the request at this time.

Respectfully yours,
WM. ARTHUR REILLY, Commissioner.

Ordered, That his Honor the Mayor be, and hereby is, authorized and empowered:

(a) To transfer, in the name and behalf of the City of Boston, without consideration, to the Commonwealth of Massachusetts all right, title, and interest of the City of Boston in and to the traffic signals at the intersection of Washington and Grove streets in the West Roxbury district of Boston; and

(b) To execute and deliver, in the name and behalf of the City of Boston, such instruments, if any, as may be necessary or convenient to effectuate such transfer.

Referred to the Executive Committee.

Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order dated June 5, requesting that a playground be made out of the existing playground on Carson street, Ward 13.

This is an area not large enough for a playground. It is suitable only for a small children's play area or possibly for softball games of boys and girls up to twelve or thirteen years. The total area of the land is approximately 40,000 square feet (less than one acre) and is much too small for a large baseball diamond. A ball diamond requires four or five acres.

The area was taken under tax title by the Board of Real Estate Commissioners, and by a vote of the City Council of October 22, 1945, approved by the Mayor on October 23, 1945, it was transferred from the Board of Real Estate Commissioners to the care, custody, and control of the Park Department. The area is adjacent to the Columbia Station of the rapid transit, immediately across the street from the Columbus Park Stadium and the Columbus Park area where we have several ball diamonds. The Park Department was not particularly in favor of taking this area for playground purposes, as we have sufficient playground facilities in the immediate vicinity. Columbus Park being one of the largest, if not the largest, playground in the entire city.

We have had this Carson Street area fenced in, our purpose in doing so being that it might be a play area for children too small to cross Columbia road or the Strandway. Our observations of this area show that it is being continually used by

larger boys and men who should be playing on Columbus Park. The result is that the area, not being large enough to accommodate games played by the larger boys and men, this department is receiving complaints from persons living in the neighborhood that balls batted from the area are breaking windows in their homes and that many residents are afraid to use the front of their homes for this reason.

The Park Commissioners feel that this area should be confined to the small children for their games and that the larger boys and men should use Columbus Park.

Very truly yours,
FRANK R. KELLEY, Chairman.

REPAIRS TO MISSION HILL PLAYGROUND.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of June 3, 1950, concerning the repairing of the playing surface of the Mission Hill Playground in Ward 10.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, June 12, 1950.
Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:
I am in receipt of memo from your office with attached enclosure, City Council order dated June 5, requesting the Park Commission to repair the playing surface of the Mission Hill Playground in Ward 10.

Repair work on this playground has already been started. The playing surface of the field has been repaired, the fence around the playground has been repaired, and where necessary we have placed new sections. We have had a general overhauling of the water system, the playground building has been painted, and, in general, we have done, and are intending to do, a real face-lifting job on this location.

Very truly yours,
FRANK R. KELLEY, Chairman.

Placed on file.

FILLING IN OF MUDDY RIVER, WARD 10.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I transmit herewith communication from the Chairman of the Board of Park Commissioners relative to your order of June 12, 1950, concerning the conducting of an immediate survey of the Muddy River in Ward 10, with a view to filling in the river, which has been an eyesore and danger spot to the nearby residents for many years.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Park Department, June 15, 1950.

Thomas G. J. Shannon,
Chief Clerk, Mayor's Office.

Dear Sir:

I am in receipt of a memo from your office with attached enclosure, City Council order, dated June 12:

"Ordered, That the Park Commissioner be requested, through his Honor the Mayor, to conduct an immediate survey of the Muddy River in Ward 10, with a view to filling in the river, which has been an eyesore and danger spot to the nearby residents for many years."

I will have an immediate investigation made as to the possibility of filling in the Muddy River, as suggested by Councilor Tracey.

Very truly yours,
FRANK R. KELLEY, Chairman.

SALE OF PIGS BY PENAL INSTITUTIONS DEPARTMENT.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I am in receipt of a communication from the Penal Institutions Commissioner, attached herewith, requesting authority to sell one hundred (100) pigs at a price of approximately two thousand dollars (\$2,000).

I am in favor of the sale of these surplus pigs to the highest bidder, and respectfully request approval of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Penal Institutions Department,
June 12, 1950.
Hon. John B. Hynes,
Mayor of Boston.

Dear Sir:

We have a surplus of one hundred (100) pigs at the House of Correction, Deer Island, which we would like to sell. These pigs weigh about one hundred (100) pounds each, a total of ten thousand (10,000) pounds.

At the present market price this department should receive approximately two thousand dollars (\$2,000) for this sale. If approved, it is our intention to advertise this sale in the "City Record" and sell to the highest bidder with a representative of the Sealer of Weights and Measures Department to supervise the weighing.

Authority by the City Council and your Honor's approval of this public sale is respectfully requested.

Very truly yours,
EDWARD L. FRIEL,
Penal Institutions Commissioner.

Ordered, That the Penal Institutions Commissioner is hereby authorized to sell to the highest bidder one hundred (100) surplus pigs at the House of Correction, Deer Island.
Referred to the Executive Committee.

RESIGNATION OF COUNCILOR THOMAS E. LINEHAN.

The following was received:

City of Boston,
Council Chamber, June 15, 1950.
To the City Council.
Gentlemen:

Due to the fact that I have just been sworn in as Special Justice of the South Boston Municipal Court, I hereby tender my resignation as a member of the Boston City Council, representing Ward 7, to take effect immediately.

I only hope I enjoy my service on the bench as I enjoyed my close associations and friendships in the Boston City Council during my five terms of service.

May I take this opportunity to thank all of the members of the City Council, the City Clerk and his assistants, the City Messenger and his assistants, the Clerk of Committees and other attaches, as well as my extremely good friend, Secretary Billy O'Neil, who has been such an inspiration to me during all my years in the City Council.

Respectfully yours,
THOMAS E. LINEHAN.

Placed on file.
Councilor Shannon addressed the Council on the acceptance of Councilor Linehan's resignation.

SURVEY OF TRAFFIC CONDITIONS, PARKER STREET.

Coun. F. P. TRACEY offered the following:
Ordered, That the Boston Traffic Commissioner be requested, through his Honor the Mayor, to make an immediate survey of the traffic conditions on Parker street, Ward 10, extending from Ward to Tremont streets. During the past month there have been many accidents involving children, causing serious injury to some of them. Parker street is a danger spot for the children of the Mission Hill project, and immediate safety measures should be installed for their protection.

Passed under suspension of the rule.

"SLOW" SIGNS ON SMITH STREET, WARD 10.

Coun. F. P. TRACEY offered the following:
Ordered, That the Boston Traffic Commissioner be requested, through his Honor the Mayor, to erect "Slow" signs on Smith street, Ward 10, near the Dwight School and the Mission Church Grammar School. Due to traffic conditions in the district this street is used as a speedway by motorists, and several accidents have been reported on that street in recent months.

Passed under suspension of the rule.

REDUCTION OF SERVICES, U. S. POSTAL DEPARTMENT.

Coun. F. P. TRACEY offered the following:
Resolution, That the Boston City Council petition the Congress of the United States to take immediate steps to correct the deplorable reduction of services of the United States Postal Department in this area.

The false economy of curtailed mail deliveries to residential and business customers, as well as the resultant confusion of the public in general, has aroused the indignation of the people of Boston.

It is indeed a sad reflection on the reasoning power of the authorities responsible for this chaotic situation, to behold on one hand, billions of dollars being expended by our government for aid to foreign nations who have postal services far superior to our own, and to witness on this hand a reduction of postal services which returns us to the horse and buggy methods of the early eighteen hundreds (1800's).

Let us not allow this deplorable inconsistency of government, and all its resultant economic hardships to continue, without our vigorous protest.

Adopted under suspension of the rule.

CONGRATULATIONS TO JUDGE THOMAS E. LINEHAN.

Coun. HANNON and HURLEY offered the following:

Resolution, That the City Council, in meeting assembled, accept with regret the resignation of an outstanding member, Councilor Thomas E. Linehan, and congratulate him upon his appointment as Special Justice of the South Boston District Court.

Adopted under suspension of the rule.

TRIMMING TREES ADJACENT TO ELECTRIC LIGHTS, WARD 16.

Coun. BEADES offered the following:
Ordered, That the Boston Park Department be requested, through his Honor the Mayor, to immediately trim all trees in Ward 16, adjacent to electric lights.

Passed under suspension of the rule.

REPLACING OBLITERATED STREET SIGNS, WARD 16.

Coun. BEADES offered the following:
Ordered, That the Public Works Commissioner be requested, through his Honor the Mayor, to immediately replace all street signs in Ward 16 that have become obliterated.

Passed under suspension of the rule.

BARRING HEAVY TRUCKS FROM CERTAIN STREETS, WARD 20.

Coun. BRYAN offered the following:
Ordered, That the Traffic Commission be requested, through his Honor the Mayor, to bar heavy trucks from using Vermont, Keith, and Lasell streets, in Ward 20, as a through way from Providence to Boston.

Passed under suspension of the rule.

BAKER STREET BRIDGE.

Coun. BRYAN offered the following:
Whereas, In the opinion of this Council, public convenience requires the widening of Baker street, a public way, in West Roxbury, in the vicinity of Baker Street Railroad Bridge carrying the Dedham Branch of the Boston & Providence Railroad across said Baker street, it is necessary that said bridge be altered and structural changes and repairs made thereto; now, therefore, it is hereby

Ordered, That the Corporation Counsel of the City of Boston be instructed, through his Honor the Mayor, to apply to the Department of Public Utilities of the Commonwealth of Massachusetts for said department to take action in regard to such alterations, structural changes, and repairs in said Baker Street Bridge, under the provisions of chapter one hundred and fifty-nine and chapter one hundred and sixty of the General Laws, as most recently amended, and under any other appropriate statutory provisions.

Passed under suspension of the rule.

RECESS.

On motion of Councilor F. P. Tracey the Council voted to take a recess at 3.45 P.M., subject to the call of the Chair. The members reassembled in the Council Chamber and were called to order by President HURLEY at 4.14 P.M.

EXECUTIVE COMMITTEE REPORTS.

Coun. SULLIVAN, for the Executive Committee, submitted the following:

1. Report on message of Mayor and order (referred today) on transfer by City of Boston to Commonwealth of Massachusetts right, title, and interest in and to traffic signals at Washington and Grove streets—that same ought to pass.
2. Report on order (referred today) on establishment of salaries of matrons at House of Detention for Women—that same ought to pass.
3. Report on message of Mayor and order (referred today) on sale of pigs by Penal Institutions Department—that same ought to pass.

Reports accepted; said orders severally passed.

REPLACING BLAKEMORE STREET BRIDGE.

The following was received:

City of Boston,
Office of the Mayor, June 19, 1950.
To the City Council.
Gentlemen:

I am in receipt of a communication from the Public Works Commissioner, attached herewith,

requesting the approval of the Department of Public Utilities for the removing and replacing with a new steel structure, the present Blakemore Street Highway Bridge in Roslindale, which crosses the right of way of the New York, New Haven & Hartford Railroad due to the fact that the old bridge is in a weakened condition, and should be replaced.

I am in favor of the construction of this new steel structure, and respectfully request approval of the accompanying order by your Honorable Body.

Respectfully,
J. B. HYNES, Mayor.

City of Boston,
Public Works Department,
June 19, 1950.

Hon. John B. Hynes,
Mayor of Boston.

Dear Mr. Mayor:

The present Blakemore Street Highway Bridge in Roslindale, which crosses the right of way of the New York, New Haven & Hartford Railroad, is in a weakened condition and should be removed and replaced with a new steel structure.

It is our intention to have the necessary work of removal and reconstruction done during the current year, but it will be necessary to obtain the approval of the Department of Public Utilities before such work can start. As a prerequisite to D. P. U. approval, it is necessary for the City Council to pass an order authorizing the Corporation Counsel to file with the D. P. U. a petition under General Laws, chapters 159 and 160, providing for the alteration and repair of the bridge structure.

I submit herewith, therefore, for transmittal to the City Council, for approval of that Body, an order prepared by the Corporation Counsel, authorizing the submitting by the Corporation Counsel of a petition to the D. P. U. in connection with the removal of the present Blakemore Street Bridge and the substitution thereof of a modern, steel bridge structure.

Respectfully yours,
GEORGE G. HYLAND,
Commissioner of Public Works.

Whereas, In the opinion of the Council it is necessary for the security and convenience of the public that Blakemore Street Bridge, carrying Blakemore street, a public way, over and across the railroad of the New York, New Haven & Hartford Railroad Company, be altered and structural changes and repairs be made thereto; now therefore it is hereby

Ordered, That the Corporation Counsel of the City of Boston be instructed to apply to the Department of Public Utilities of the Commonwealth of Massachusetts for said department to take action in regard to such alterations, structural changes and repairs in said Blakemore Street Bridge, under the provisions of chapter one hundred and fifty-nine and chapter one hundred and sixty of the General Laws, as most recently amended, and under any other appropriate statutory provisions.

The order was passed under suspension of the rule.

VACATIONS TO TEMPORARY EMPLOYEES.

Coun. HANNON offered the following:

Ordered, That his Honor the Mayor advise the heads of the various city departments that vacations may be granted to temporary employees in the same ratio as granted to permanent employees, at the discretion of the department head.

Passed under suspension of the rule.

LEAVE OF ABSENCE TO STANLEY WOLLASTON.

Coun. HURLEY offered the following:

Ordered, That Stanley Wollaston, permanent stenographer-clerk attaché of the City Council, be granted a leave of absence from his duties as stenographer-clerk for a period of six months—July 1, 1950, to January 1, 1951.

Passed under suspension of the rule.

PAINTING OF CROSSWALKS AND "SLOW" SIGNS.

Coun. SHANLEY offered the following:

Ordered, That his Honor the Mayor direct the Traffic Commission to speed up the painting of crosswalks and "Slow" signs on the streets to insure safety of pedestrians.

Passed under suspension of the rule.

Adjourned at 4.20 P.M., on motion of Councilor Wenzler, to meet on Monday, June 26, 1950, at 2 P.M.

Note: All debate of City Council eliminated from proceedings in accordance with Chapter 447, Acts of 1947.

(Stenographic copy of such debate on file in office of City Clerk.)

PUBLIC WORKS DEPARTMENT.

PROPOSALS FOR SEWERAGE WORKS IN COMMONWEALTH AVENUE, BRIGHTON, AND CANTERBURY BROOK, WEST ROXBURY.

The Commissioner of Public Works of the City of Boston, office 508 City Hall Annex, invites proposals from citizens of the United States and corporations or other legal associations wherein the controlling interest to the extent of at least over one half thereof is owned by a citizen or citizens of the United States, for sewerage works in Commonwealth Avenue, Brighton, and Canterbury Brook, West Roxbury. A bond will be required for doing the work of a surety company approved by the Commissioner in the sum of 100 per cent of the amount of the contract, to secure the due performance of the contract and the full protection of the city. Forms of proposals may be obtained at Room 508, City Hall Annex. Each proposal should be enclosed in an envelope, sealed, marked "Proposal for Sewerage Works in Commonwealth Avenue, Brighton, and Canterbury Brook, West Roxbury," and left at Room 508, fifth floor, City Hall Annex, before 12 M. of WEDNESDAY, JULY 12, 1950, with a certified check for TWO HUNDRED AND FIFTY (250) DOLLARS, payable to and to become the property of the city if the proposal after acceptance is not carried out. The proposals will then be publicly opened and read in the hearing room of the Street Commissioners, Room 401, City Hall Annex.

Proposals must be made in duplicate, the sealed duplicate, without check, to be deposited by the bidder with the City Auditor previous to the time named for opening the bids. All proposals must be from bidders of record on file at Room 508, City Hall Annex. *There will be a charge of two dollars (\$2) for each set of plans and specifications taken out.* If the price of any item appears to the Commissioner to be abnormally high or low, or the bidder neglects to bid on each and every item, it may lead to the rejection of the proposal containing such price. The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs and laborers in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth, a copy of which schedule is annexed to the form of contract referred to herein. Copies of said schedule may be obtained, without cost, upon application therefor at the office of the Commissioner of Public Works. Before commencing performance of this contract, the Contractor shall provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under this contract, and shall continue such insurance in full force and effect during the term of this contract. The undersigned reserves the right to reject any or all proposals or to award the contract as he deems best.

GEORGE G. HYLAND,

(July 1.) Commissioner of Public Works.

Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Superintendent of the Boston City Hospital, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the bidder and a surety company in the amount of 5 per cent of the base proposal shall be submitted with each bid filed with the Superintendent of the Boston City Hospital.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, laborers, etc., in the work to be performed under the contract shall not be less than the rate of wages in the schedule determined by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts, a copy of which schedule is attached to the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under chapter 152 of the General Laws (the Workmen's Compensation Law so called) to all persons to be employed under the contract.

Plans and specifications may be obtained at the office of the architect, the John M. Gray Company, 175 High street, Boston, Mass. A deposit of \$50 in cash or a certified check will be required for each set of plans and specifications, and this deposit will be returned to the bidders upon receipt of said plans and specifications in good condition by the architect.

Subbidders bidding on the work of subcontractors shall use the proposal form obtainable from the architect upon request.

Subbids will be taken on the following portions of the work:

- A. Plumbing.
- B. Heating and Ventilating.
- C. Electrical.
- D. Air Conditioning.
- E. Elevators and Dumb-waiters.

All subbidders' proposals must be in the possession of the Awarding Authority and delivered or mailed to the general bidders no later than 12 noon, Eastern Daylight Saving Time, Monday, July 10, 1950.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, or a satisfactory bid bond executed by the sub-bidder and a surety company shall be submitted by subbidders listed under Item 2 of the general contractor's bid form, in not less than 5 per cent of the subbidder's bid price, and shall be submitted with each subbid.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful general contractor.

Information relating to the performance bonds of subcontractors is set forth in the notice to subbidders.

The City of Boston reserves the right to reject any or all bids of the general bidders and to waive any informalities in bidding, if it be in the public interest to do so. The City of Boston also reserves the right to reject all bids of the subbidders on any item or items and to waive any informalities in the bidding, if such rejection or waiver be in conformance with section 44C of chapter 149 of the General Laws.

No bid of a general bidder shall be withdrawn prior to thirty (30) days from the opening of bids by the Awarding Authority, and no bid of a subbidder shall be withdrawn

prior to thirty (30) days from the opening of bids without the consent of the Awarding Authority.

SUFFOLK COUNTY.

PROBATE COURT AND COURT OF
INSOLVENCY, BOSTON.

PROPOSALS FOR PRINTING AND BINDING AN INDEX OF PROBATE CASES FILED IN SUFFOLK COUNTY REGISTRY OF PROBATE FROM 1936 TO 1947, INCLUSIVE, AND FOR CANVAS JACKETS TO COVER INDEX VOLUMES.

The Register of Probate and Insolvency for Suffolk County invites proposals for the printing and binding of an index of all cases except divorce cases filed in the Registry of Probate for Suffolk County from January 2, 1936, to December 31, 1947, inclusive, said index to be printed and bound in accordance with the following specifications: It shall consist of twenty-five sets of three volumes to each set, seventy-five volumes in all; each volume is to contain as nearly an equal number of pages as possible, with no surnames beginning with the same letter appearing in more than one volume of any set of volumes. In addition to the foregoing, volume one of said index shall contain three pages and volumes two and three, two pages of printed material, the substance, type, style, and setup of which is to be hereafter determined by said Register.

Said index is to be printed on ledger stock of the same weight, quality, and size as the probate index covering the period 1923 to 1936; the pages of each volume to be numbered at the bottom in parentheses; the type to be the same as that appearing in said index volumes 1923 to 1936, and the volumes to be similar in size, style, binding, material, and in every other respect to index volumes of 1923 to 1936, so that they will, as nearly as possible, match and be the same in every detail and be made uniform with said index volumes of 1923 to 1936 except as to number of pages to the volume, titles, and printing on said three pages in volume one and two pages in volumes two and three and stampings on backs and on front and back covers; each volume to contain as nearly as possible the same number of pages.

Each volume shall be bound in half black morocco leather and black cloth, reinforced with linen tape in the center of folds and between the front and back folds, sewed with a good grade of Irish linen thread, double strapped, with sprinkled edges, stamped in gold on back and on front and back covers in a manner that will indicate dates and the letter of the alphabet with which the first and the last surname contained in each volume begins, the exact lettering to appear thereon to be hereafter determined by said Register of Probate.

Each volume is to be wrapped and sealed in heavy wrapping paper of good and substantial quality, marked "Probate Index 1936-1947" and, in addition, marked so as to indicate the letter of the alphabet with which the first and the last surname contained therein begins, each set of volumes to be wrapped together and sealed and marked "Probate Index 1936-1947."

Also, two sets of canvas jackets or covers for each of six index volumes, being six jackets in all, made to fit said volumes, shall be furnished, said jackets to be stamped in black ink on back and on front and back covers, in a manner that will indicate contents, dates, and the letter of the alphabet with which the first and the last surname contained in said volume begins, the exact lettering to appear thereon to be hereafter determined by said Register, said jackets to be made of the same material and in the same fashion as the jackets covering index volumes 1923 to 1936.

Samples of 1923 to 1936 index and canvas jackets may be examined at said Registry. The work is to be completed and delivery made not later than December 1, 1950.

Envelopes containing proposals must be sealed and plainly marked "Proposals for Printing and Binding Probate Index 1936-1947" and must be in duplicate and left at the office of said Register not later than July 7, 1950, at 12 o'clock noon, at which time they will be opened. A certified check in the sum of five hundred (500) dollars payable to the County of Suffolk shall be filed with each bid.

The right to reject any or all proposals is hereby reserved.

ARTHUR W. SULLIVAN,
Register.

DEPARTMENT OF SCHOOL BUILDINGS.

TO HEATING CONTRACTORS.

INVITATION FOR PROPOSALS FOR FURNISHING AND INSTALLING OF NEW RADIATION AND PUMP IN THE JOSEPH H. BARNES SCHOOL, MARION STREET, EAST BOSTON, MASS.

The Superintendent of Construction of the Department of School Buildings, Boston, Mass., hereinafter referred to as the Awarding Authority, invites sealed proposals for furnishing and installing of new radiation and pump in the Joseph H. Barnes School, Marion street, East Boston, Mass.

Proposals will be received until 12 o'clock noon, Tuesday, July 11, 1950, at the office of the Awarding Authority, fourth floor, 26 Norman street, Boston, Mass., at which time and place they will be publicly opened and read aloud.

Proposals shall be submitted in duplicate on forms obtained from the Awarding Authority. Each copy of the proposal shall be properly filled out, signed and enclosed in a sealed envelope, plainly marked with the name of the bidder and the description of the work bid upon. One copy shall be filed at the office of the Awarding Authority, designated above, and the other copy shall be filed at the office of the City Auditor, City Hall, Boston, Mass. Both copies shall be filed before the time stated above for the opening of proposals.

A bid deposit in the form of cash or a certified check on, or a certificate of deposit issued by, a responsible bank or trust company, payable to the City of Boston, in the sum of \$250, shall be submitted with the copy of the proposal filed with the Awarding Authority. The bid deposit shall be in a separate envelope, properly marked. Bid bonds will not be accepted.

No bidder may withdraw his bid within thirty days after the actual date of the opening thereof.

The rate per hour of the wages to be paid to mechanics, teamsters, chauffeurs, and laborers in the work to be performed shall not be less than the rate of wages determined for this work by the Commissioner of Labor and Industries of the Commonwealth of Massachusetts under the provisions of General Laws (Ter. Ed.), chapter 149, section 26, a schedule of which appears in the specifications.

The successful bidder will be required to provide by insurance for the payment of compensation and the furnishing of other benefits under the Workmen's Compensation Law, General Laws (Ter. Ed.), chapter 152, to all persons to be employed under the contract, and sufficient proof of compliance with the foregoing stipulation will be required before commencing performance of this contract.

A performance bond, issued by a surety company satisfactory to the Awarding Authority, in the full amount of the contract will be required of the successful bidder.

The Awarding Authority reserves the right to waive any informalities and to reject any and all bids.

"THE PRICE OF FREEDOM IS RESPONSIBILITY"—SUBJECT OF INDEPENDENCE DAY ORATION IN FANEUIL HALL, DELIVERED BY FRANCIS C. GRAY—DISTINGUISHED BOSTON CITIZEN PAYS TRIBUTE TO THOSE GREAT HEROES OF THE PAST WHOSE COURAGE AND LOVE OF FREEDOM AND LIBERTY FASHIONED THE IDEALS AND THE DOCUMENT UNDER WHICH UNITED STATES HAS BECOME THE WORLD LEADER TO WHICH ALL NATIONS TURN FOR GUIDANCE—ALSO PAYS TRIBUTE TO MAYOR JOHN B. HYNES FOR CONDUCTING CITY'S AFFAIRS WITH HONOR, STRAIGHTFORWARDNESS, AND EFFICIENCY.

WORLD LOOKS TO UNITED STATES FOR LEADERSHIP TO PRESERVE GOD-GIVEN RIGHTS AND TO STEM THE TIDE OF BRUTE FORCE THREATENING ALL, MAYOR HYNES TELLS AUDIENCE AT FANEUIL HALL IN PRESENTING ORATOR OF DAY, HON. FRANCIS C. GRAY.

As presiding officer at the Faneuil Hall exercises Mayor Hynes, in presenting the orator of the day, spoke as follows:

One hundred and seventy-four years ago on this day a new nation was born—a nation destined by the providence of God to be the greatest nation of modern or ancient civilization.

In the years of our growth and progress we have survived many trials and tribulations. We have survived storms of war, and through it all we have forged a national character which has for its most important ingredient the love of

(Continued on page 708.)

MAYOR JOHN B. HYNES LEADS BOSTON'S PATRIOTIC CITIZENS IN OBSERVANCE OF 174TH ANNIVERSARY OF INDEPENDENCE DAY—EXERCISES BEGIN AT CITY HALL AND CONCLUDE WITH ORATION IN FANEUIL HALL.

Mayor John B. Hynes and leading citizens united their efforts on Tuesday to make the observance of Independence Day this year one of the most memorable of those events ever held. The exercises, from the raising of the flag at City Hall to the conclusion of the address of the orator of the day, Francis Calley Gray, the undercurrent and tone of it all was tinged with reflections that the United States was again involved in a war.

(Continued on page 707.)

The following is the July 4th Oration delivered in Faneuil Hall by the Honorable Francis C. Gray, who spoke on the subject "The Price of Freedom is Responsibility."

We are gathered here today in this historic hall to commemorate the signing of the Declaration of Independence 174 years ago. Ever since that July 4, 1776, when our forefathers in Congress approved the great document establishing American Independence, this day has fittingly been the occasion to reflect not only upon the courage and wisdom of the daring men who signed the document, but more particularly upon the steadfast resolve by the people of those troubled colonies to establish a society in which liberty could flourish.

In standing before you today I wish that I were as well equipped both in knowledge and eloquence as those who have preceded me in other years. Reference has been made to the fact that my great, great uncle, for whom I was named, delivered the oration from this platform in 1818. As I read my ancestor's remarks on that occasion, you will, I feel sure, forgive me if I salute him as a member of the family who at twenty-eight had a far better command of history than his great, great nephew has at more than twice that age. In saluting him may I also express to Mayor Hynes—who is making his great office synonymous with honor, straightforwardness, and high efficiency—my deep appreciation, and that of my family, for his kindness in making it possible for me to stand not only where my forbear stood 132 years ago, but where so many stirring scenes in the life of the nation took place.

This hall, which came to be known as the Cradle of Liberty, was given to the town by Peter Faneuil in 1742. Rebuilt after its partial destruction by fire in 1761 (by the proceeds of a lottery) and enlarged in 1805, it serves much the same purposes that it did 200 years ago. The market was downstairs, as it is now, and town meetings were held here. Can we not rejoice in the evidence of New England thrift which in one edifice dispenses meat and produce downstairs and patriotism one flight up!

Furnishes Inspiration.

Can we not also draw inspiration from the fact that in Faneuil Hall were held debates over the Stamp Act, which was the spark that lit the Revolution; that, although the final meetings which produced the Boston Tea Party took place elsewhere—because this hall was not large enough—the early gatherings to denounce the obnoxious tax on tea were held within these walls (one of the tea ships, I might add, was owned by a forebear of my wife); that here the people welcomed Washington and LaFayette; Daniel Webster, Charles Sumner, and others spoke on the great issues of the day; and Wendell Phillips uttered his war cry against slavery. And that through all these early years this was the place where the people gathered to discuss and to become informed not only upon the domestic problems of the growing town of Boston, but on the vital issues which confronted them.

(Continued on page 707.)

"O Boston, fair City enthroned like a radiant queen,
From thy hills looking down on the ship-teeming plain of the ocean,
May thy future be bright, thy skies beam with light all serene,
Ensured by thy sons' and thy daughters' unselfish devotion!"

FOURTH OF JULY ORATION AT FANEUIL HALL.

(Continued from page 705.)

But if Faneuil Hall is much the same today, Boston and some of its customs have indeed changed. For I note that in 1810 when the oration was delivered, so much punch was provided that five barrels were left, and on the following day 700 persons, without distinction of party, were regaled in this hall. As the records show no evidence that the orator of the occasion provided these refreshments, I take it they were the gift of the town, and no doubt there may be those who would deplore the lapse of so pleasant a custom.

TAX BILLS AND ELECTIONS.

And since tax bills are something we are apt to receive in blunt form, witness how they were sent out in the early 1800's. "The Town Treasurer presents his most respectful compliments to those citizens who have tax bills unpaid, and requests the favor of them to pay the same immediately as he has large drafts from the Selectmen and Overseers of the Poor in favor of mechanics, school masters and others, to whom especially at the present season, money would be very acceptable." And today, when close elections invariably produce recounts, it seems strange to find that in 1822, when the first mayor of Boston was to be elected, Harrison Gray Otis and Josiah Quincy, the two leading candidates, received so nearly the same number of votes that both withdrew and John Phillips was readily elected for a single term.

If you lived at that time and wished to visit Thomas Jefferson in Virginia, as my uncle did in 1814, it would have taken you by stage and horseback almost as many weeks then as it would hours now, and you would be lucky in your stopping place for the night if you found better accommodations than the floor in front of the fire with a couple of good-sized pigs sharing your sleeping quarters.

At the time of which we speak, the country was still recovering from the effects of the war of 1812 with England which wrought such havoc on our commerce, particularly in this area which was the shipping center of the nation. But more than material damage came out of that conflict, for the embargo on shipping which the Federal Government deemed best to lay down in the years preceding the war was violently opposed by many of our foremost men. Feelings ran so high, certainly in these parts, that this period in our development as a nation must have severely tested popular belief in the form of government established by the vision and determination of our forefathers. That we successfully passed this test can be ascribed to the good sense of the people, buttressed by the heritage handed down to them by their dauntless leaders at the close of the eighteenth century. One more crisis still faced us—the Civil War. And it was not till we had met this challenge that the nation emerged as the great and indissoluble union envisaged by the people and their leaders in those early days. Without such a union who can say how our nation would have survived not only the growing pains which came

with our development, but the savage and relentless menace of other nations as evidenced by two world wars?

When these ceremonies were instituted in 1783 those who were to deliver the orations were instructed to consider among other things the important effects, whether general or domestic, which flowed from the momentous decisions of that epoch. In the address in 1818 the speaker confined himself to one of the consequences of independence—the responsibility which it casts upon ourselves. May I, too, dwell upon that responsibility.

MEANING OF LIBERTY.

Our forefathers fought to establish a society in which liberty could flourish. Liberty to them meant, among other things, the right of the individual to be free in thought, in expression, in the right to worship. And to that end the closing phrase of the Declaration of Independence reads "we mutually pledge to each other our Lives, our Fortunes and our sacred Honor." Surely that stirring acceptance of responsibility found its counterpart in the war just ended, but as the unifying effect of that great crisis has abated there has crept into our thinking an increasing emphasis on the need for security. Certainly the founders of our country fought to be free from aggression and attack, as our generation has done; but the seeking of security for its own sake is not to be easily associated with the thinking of the people and their leaders 174 years ago.

Their watchwords were liberty and independence. These are positive, intrepid words, and we would do well, in the natural desire for security from the hardships of the world, to be sure in our emphasis on security we do not relegate to second place the freedom which was so dearly bought by our forebears and ourselves, and which inherently we, too, cherish beyond measure. For it has been truly said that if a nation values anything more than freedom, it will lose its freedom, and if it is comfort that it values more, it will lose that, too. This is a big subject, on which no one has the right to be dogmatic, but certainly it is "freedom," not "security," which we all wish to have ring "from every mountain side."

FIRST OBLIGATION.

There is our first and greatest obligation to the men and women who founded the nation. But freedom does not flourish in the soil of indifference, nor in a climate merely of resounding phrases. Freedom is the soul of a nation. It is born of conviction, nurtured by determination, and sustained in all its glory only through the acceptance of responsibility by those who receive its blessings—the kind of responsibility that demands fair play for one and all; that inspires men and women to build and maintain Christian homes; that calls upon each of us to take a positive part in our community problems. We cannot all be governors or mayors or holders of high office—but we can, if we will, do our share, however small, to maintain the principles and the ideals of our forefathers. Freedom is not given to those who seek only to be secure. If we want it, we must work for it—for the price of freedom is responsibility.

That is where this speech ended when I finished it ten days ago. Two days later the crisis in Korea burst upon us. Once again we may be faced—perhaps we are now faced—with an attempt by a foreign power to destroy our freedom. We have met that challenge successfully in the past, and, with the courage, fortitude, and determination which is our heritage, we will meet it successfully again. Our leaders in Washington have shown us the way. They have accepted the responsibility which is the price of freedom. Following their bold and courageous example, let us resolve here in Faneuil Hall, July 4, 1950, that we will do everything in our power to preserve the blessings of freedom, pledging to each other—as did those gallant men in 1776 ". . . our Lives, our Fortunes and our sacred Honor."

MAYOR HYNES LEADS BOSTON'S OBSERVANCE OF JULY FOURTH.

(Continued from page 705.)

The day's program began with a parade which formed in front of City Hall after flag-raising exercises by the Mayor and John D. Brown, Director of Public Celebrations.

With detachments from the 7th Infantry, Marine Corps, and Navy, and representatives of veterans' organizations participating, the parade moved to the old State House, forming a square in State street, below the balcony. Gen. Vincent Breen was chief marshal; Paul H. Hines, chief of staff; Lt. Col. Timothy Doherty, assistant chief of staff, and Lt. Joseph Goslin and Lt. Vincent C. Breen, aides.

From the balcony, Thomas E. Mulligan, 17, of 38 Woodward avenue, Roxbury, senior at Mission Hill High School and son of Mr. and Mrs. Thomas J. Mulligan, read the Declaration of Independence. He was attired in Colonial costume.

The parade then moved to Faneuil Hall, where the Mayor introduced the following guests: Representative Philip Burr, president, Citizens Public Celebrations Committee; John J. S. Fahey, veteran of three wars, who represented the Spanish War Veterans; Samuel Shuman, representing the Jewish War Veterans; Herbert White of the American Legion, and Roland McDonald of the Marine Corps League.

Rev. Joseph A. Robinson of St. Stephen's Church, Boston, gave the invocation; Rabbi Zev Walter of Gethsemane Synagogue, North End, offered prayer, and Lt. Carlson C. French, United States Navy Chaplain Corps, said benediction.

Governor Dever's greetings were brought by Col. Edward C. Gourdin. Angelo Picardi, North End singer, sang the "Battle Hymn of the Republic" and "Star-Spangled Banner."

The complete program follows:

MAYOR'S INTRODUCTION SPEECH AT FANEUIL HALL.

(Continued from page 705.)

liberty and freedom—the very ingredient that inspired the signing of the Declaration of Independence.

Today we are the leading nation of the world, a world which watches us intensely for an eruption which might lead us again into another terrible war. The world looks to America for leadership; looks to us to preserve man's God-given rights; looks to us to stem the tide of inhuman brute force which is loose in the world.

We cannot, we will not, fail in our duty to humanity, no matter what the cost. We who love freedom and liberty will not close our ears to the appeal and prayers of those throughout the world who look to us as the beneficiaries of the freedoms won for us 174 years ago, to give them sustenance and health.

We will not fail them. For to do so would be closing our ears to the greatest sermon ever preached—"The Sermon on the Mount."

It is a great pleasure today to introduce the orator of the occasion, Francis Gray, a distinguished Boston gentleman and a soldier, lawyer, and public official.

TRAFFIC TUNNEL BUSINESS GROWS.

June 30 marked the sixteenth anniversary of the opening of the Sumner Tunnel, according to an announcement made by Commissioner George G. Hyland of the Public Works Department.

The Commissioner revealed that 109,072,000 vehicles passed through the Tunnel since the opening date, June 30, 1934.

Traffic for the first six months of 1949 totaled 4,365,000 vehicles, whereas, in the first six months of this year, when a record was established, 4,407,000 vehicles passed through the Tunnel, making an increase in this period of 42,000 vehicles.

REPORT OF DENNIS C. HALEY, SUPERINTENDENT OF SCHOOLS, AND JOSEPH C. WHITE, CHAIRMAN, BOSTON SCHOOL COMMITTEE, ON ATTENDANCE AT MEETING OF SUPERINTENDENTS, IN CLEVELAND, OHIO, APRIL 28 TO 30.

The following is the report of Superintendent of Schools Dennis C. Haley, and Joseph C. White, member of the Boston School Committee, on convention of superintendents of cities over 200,000 in population at Cleveland, Ohio.

Superintendent Dennis C. Haley and School Committeeman Joseph C. White represented the Boston public schools at the conference of the American Association of School Administrators held in Cleveland, Ohio, from April 26 to 30, 1950. Major topics discussed at formal and informal sessions by officials who attended from 53 major cities were school plants, salaries, personnel, and curriculum.

In view of increasing enrollments throughout the country and the need for adequate housing facilities, the problem of school planning received careful attention. Methods of modernizing existing plants and equipment were presented, and a plan for the exchange of new construction costs and features was outlined. The control and operation of high school football stadia were subjects that also aroused much interest, since most cities represented now have lighted fields which permit the sponsoring of night football.

A complete review of the salary situation was conducted with special reference to emerging nation-wide trends on the subject of merit and dependency factors, to the policy of paying teachers for special services beyond the teaching day, and to the bases for differentials in salary schedules for classifications above teaching positions.

Under personnel matters, chief topics considered were orientation of new staff members, in-service training programs to prepare teachers for curriculum changes, the place of young men teachers in the elementary school, teacher-loads in high schools, and the selection of administrative officers. Also discussed were the exchange of teachers between school systems, attendance of teachers at summer workshops and at professional meetings and workshops called by colleges and universities on regular school days, and policies in regard to leaves of absence to teachers.

Practice and trends in curriculum development were thoroughly presented and examined with particular attention to pupil retention in both elementary and high schools. The place of child guidance was evaluated, and methods of reporting pupil progress were analyzed with a view to reflecting a policy of achievement according to ability and at the same time showing exact pupil accomplishments. Other curriculum matters on the agenda included intergroup education, life adjustment education, the teaching of controversial subjects, en-

rollment in foreign language classes, and social objectives versus intellectual attainment.

Of the various additional topics chosen for discussion, those of principal interest were teacher recruitment, finance, relations with the federal government and with the public, and state legislation as it affects the larger cities and their school systems.

Supplementing the conferences were visits to the General Electric laboratory at Nela Park, to the Cleveland public schools on all levels, and to the administration building where delegates inspected the radio broadcasting station owned and operated by the Cleveland School Department. Of particular note were the demonstrations given at the General Electric laboratory to acquaint administrators with the advantages of the various types of lighting systems now recommended for new buildings.

The entire program was so planned and conducted as to permit the maximum benefit in the minimum time, as special opportunities were provided to permit discussion of matters of individual concern. Through a common sharing of experience and knowledge and through comparison and discussion of current practices and procedures, all who attended this meeting of the American Association of School Administrators were strengthened and encouraged in their task of directing the public schools of our nation to the achievement of their historic destiny.
